It being propos'd that during the Vacancy which there is at present of a legal Minister to supply the Offices of the Church and no Person qualified to read the Divine Service, appearing at present, It was recommended to every one of the Board to consider if they could find out any Person fitly qualified and to recommend such at the next Meeting.

Notice being taken that Abram DeLeon has absented himself for several Months past from the Colony as is supposed with a Design of not returning, whereby great Damage may probably accrue to a considerable Number of Vines formerly by him planted, and which now lie wholly neglected, It is recommended to M^r Thomas Jones to find out a proper Person amongst the German Servants to watch and look carefully after the said Vines, for the Benefit of the Trust, who are interested therein, he the said DeLeon having received large Sums of Money from them

Michael Bourghalter of Hampstead having requested that a Grant of five hundred Acres of Land may be made to him, for Benefit of himself and his numerous Family (which consists of five Sons and two Daughters, one of which is likewise married) he intending immediately to raise and build a Water Mill for grinding Corn, there being a proper Run of Water within the said five hundred Acres whereon he may erect the Same, and We knowing the said Michael Bourghalter to have a good Genius for such Undertaking and withal having approved himself to be a very industrious Man; We have thought proper to comply with his Request, so farr as in Us lies, by allowing him to make a Beginning thereon, without any further Loss of Time, not doubting but the Trust upon the Same being duly represented, will Order such a Grant to be made; his Intention and Design being to make a Division of the aforesaid Land in such Proportion amongst his Sons and Daughters that the good and bad Land

may be divided amongst them so, as he the said Bourghalter shall see meet: This Land he now desires lying by Computation two Miles or upwards South East from Hampstead, where he and his Family have for five Years past well cultivated and improved two fifty Acre Lotts which they never design to forsake or cast away.

Complaint having been made that John Burton one of the Tythingmen had in divers Instances misbehaved and acted contrary to the Duty of his Office, and that he hath also frequently spoken contemptuously of the Honourable the Trustees and their Authority, and hath insulted some of the Magistrates when in the Execution of their Office, and by such Practices given great Disturbance to the Peace and Quiet of this Town, more especially in divers publick Assemblies, endeavoring to expose and Ridicule such Matters as were the Occasional Subject of their Meeting, whereby he gave great Offence to many well disposed Persons Therefore it is ordered that the said John Burton be discharged from the said Office of Tythingman, and that John Milledge be appointed by the President to succeed him.

Henry Green applied to have Liberty of exchanging his Town Lott N° 8 in Vernon Tything Heathcotte Ward for late Vickery's Lott N° 10 in La Roche Tything in the same Ward, which is agreed to.

John Robe having requested that the Lott N° 4 late Levy's in the first Tything of the Upper New Ward be granted him It is so agreed.

Mr Jones having represented that since the twelfth Instant when this Board allow'd Jannet Grant five Shillings for her Relief, She died, and that he paid for her funeral Expence eleven Shillings, which in the Whole makes sixteen Shillings, It is allowed.

M^{rs} Camuse making Application to this Board, and claiming the Sum of Twenty nine Pounds six Shillings and eleven Pence half Penny, as a Ballance due to her for her Service in Winding Silk from September the 29th 1739 to Michaelmas 1741 as by an Account she then produced: It was agreed that the Commissioner should examine the said Accounts and report the Same at the next Meeting.

A Petition of John Lyndall Pinder was presented setting forth many Grievances which he complained of and which are of such a Nature that requires farther Consideration.

Samuel Lyon, and John Erinxman having petitioned, that they

might have each fifty Acres of Land South East of Hampstead adjoining to the Tract lately granted to Michael Bourghalter It is agreed to.

Mrs Camuse having brought an Account drawn by her of her Demands for the two last Years, whereby she claims the Sum of Twenty nine Pounds six Shillings and eleven Pence half Penny to be due to her on Ballance, but the same not appearing to be reasonable from what we were informed was estimated by the Trustees, We apprehended we ought not to comply with; but imagining she was disposed to set too great a Value upon her Service, at a Time when possibly another might not be readily found to supply her Place in the Silk Manufacture It was therefore judged proper for the Sake of keeping her Quiet 'till the Trustees Pleasure could be farther known that the above said Sum of Twenty nine Pounds six Shillings and eleven Pence half Penny should be paid her, not as a Ballance due, but as Money receiv'd on Account in general; which Sum the President will pay her, out of Money imprest to him according to the Instructions of the Trustees And Mess** Fallowfield and Marcer are desired to acquaint her therewith.

Information having been made yesterday, by two of the Bay-

liffs that they had Reason to believe, a certain Box wherein Writings were contain'd of great Moment for the Use of the Publick, and which said Box was deposited at the Store by the Advice of the Magistrates, believing it to be a Place of safe Custody, for the same, and which said Box the aforesaid Bayliffs were of Opinion was broke open by the Allowance or Approbation of M^r Thomas Jones Keeper of the Stores there; And whereas the said M' Jones having Notice yesterday from the President & Assistants that it would be needfull for his and their Vindication to make strict Enquiry into the Truth of the Premises; and a Proposal ensuing that the said President and Assistants would meet at nine of the Clock the next Morning to make such Enquiry, which the said M^r Jones readily consented to: In pursuance of the said Appointment the Persons abovenamed did meet this Day expecting Mr Jones to have joined them, but upon sending the Clerk to him to know whether he would come or not, he answered, "let them come here;" whereupon the President sent a second Time to desire his Company at the usual Place of Meeting, but his Answer now was in a peremtory Manner to the said Clerk Viz^t Do they think I have nothing to do but to come after them, let them come here if they have amind. Whereupon the President and Assistants proceeded to make due Enquiry, and sending for Thomas Bailey a Smith they took his Affidavit as follows, As likewise the Affidavit of William Russel, which also follows.

Thomas Bailey of the Town of Savannah being duly sworn deposed that about three Weeks agoe as near as he can remember a Boy came from M^r Jones to his House (he being from Home) and acquainted his Wife that M^r Jones desired to speak with him at the Stores, accordingly as soon as he came home, he went to the Store where he did not see M^r Jones, but was told by Francis Harris that he must open a Box, which Box this Deponent now sees and averrs to be the same Box, and farther saith that he was directed by M^r Harris aforesaid to take the said Box home with him and open both the Locks, to mend one Key and make a new one to the other, That accordingly he did take the said Box home with him and M^r Francis Harris and M^r William Russel were

then in Company with him at his Shop, but he meeting with some Difficulties could not open it while they staid but in a little while after they were gone he did so; and finding in the said Box a Bundle of written Papers, together with several Loose Papers and a large Pockett Book, he carried them all to M^r Jones's Dwelling House, where he found William Russel aforesaid and delivered all the Writings and Papers with the Book aforesaid to him, and about four or five oClock in the Afternoon, he carried the said Box with the Locks so mended, as he was ordered to the Stores, and setting it down, acquainted Francis Harris and William Russel therewith and then went about his Business And, this Deponent farther saith That about ten Days agoe as near as he can remember he carried in his Bill for Work done to the Stores, where he was paid in full of the said Bill, and wherein he had charged two Shillings and six Pence for what Work he had done about the aforesaid Box, and furthermore this Deponent saith not.

Sworn before the President and Assistants above mentioned the Thomas + Bailey Mark

Mark

William Russell Clerk to M^r Jones being duly sworn, deposed, That some time about three Weeks agoe he this Deponent with M^r Francis Harris delivered by order of M^r Jones a Box with two Locks containing written Papers in Relation to the Estates of Persons deceased to Thomas Baily a Smith in Order to have the same broke open; who meeting with some Difficulty in the Store to do it, carried it home to his Shop and after he had broke it open, he carried the Papers to M^r Jones's House and delivered them to this Deponent and afterwards brought the Box to the Store with a new Key made to one of the Locks, and farther this Deponent saith not

Sworn before the President and Assistants the 11th of November 1741. Signed William Russell

P. M. The above named Gentlemen being again met and Mr Jones not appearing, they sent to the Store for another Box containing the Orphans Accot to which three Locks had been affixed,

the Keys of which Locks were understood to be, one in the Hands of Henry Parker, one in the Hands of Thomas Jones, and one in the Hands of Edward Jenkins, which said Keys being called for Two were produced Namely one from Henry Parker and one from William Ewen Attorney to Edward Jenkins in his Absence, but the third which was expected from M^r Jones, (it being many Months under his Custody at the Store) being demanded, he denied to have ever had it, which created some Suspicition least

this Box should have met with foul Play in the Opening as the other had, whereupon sending again for a Smith, to open this Box, and finding some Difficulty in opening, it was observ'd that that Lock which Mr Jones was supposed to have the Key of, was unlock'd: and William Ewen Attorney to Edward Jenkins being present and asked what Books or Papers he had in his Custody of Edward Jenkins's relating to the Orphans, he produced one Book containing several Sheets of Paper, said to be written by Henry Garret, but the Originals from whence Henry Garret got them, were not to be found in the Box, where it was apprehended they might be, nor could we yet discern how or which Way they came to be missing. The Clerk was again sent to Mr Jones at the Stores to demand of him all Papers which he knew of to be in his Custody that had been taken out of the first Box, to whom William Russell by Mr Jones's Order delivered a Bundle of Papers of various kinds with the Pockett Book, all which we were told were the same entire Papers which were taken out by the Smith when he opened the Box as aforesaid.

M^r Causton being sent for and examined (but not upon Oath) said upon Perusal of some of those Papers, that he believ'd there were several other Acco¹⁸ of Effects of deceased Persons ought to have been found which he now saw missing.

Mr Jones was sent for who now came and produced some Papers in Relation to the Estate of William Wise, and being farther asked, if he knew of any Papers relating to the Estate of Thomas Fawsett deceased, his Answer was that they were delivered to Fawsetts Creditors by Order of the Court, which made it needfull to referr to the Record Book of the Court, to look for the said Order, when the Chest wherein the said Book was kept at the Stores, was found locked with two Locks, but one of the Keys lost, whereupon the Smith was again sent for, to open the said Chest, which he did: And Mr Causton now attending by Appointment, Mr Jones was desired to withdraw during Mr Causton's delivering what he had to say: who repeated in a great Measure what he said yesterday, persisting in the same Opinion, that there must be divers Accounts missing of the Accounts of the Deceased, and likewise some Books and Papers and an Account of the Orphans, (but he was not upon Oath).

Pursuant to the General Instructions to the President and Assistants, that the Sum of one hundred Pounds be imprest to the Presidents sole Disposal It is hereby ordered that the said Sum

be imprest to the said President, for which he is to account in the manner directed in the said Instructions.

Upon reading over the above named general Instructions, for the President and Assistants of the County of Savannah, and particular Notice being taken now at this Time, as well as at former Meetings, by several Gentlemen, of two Clauses relating to the Issuing or disposing of publick Money, which Clauses are in the Words following.

"No publick Money whatever shall be issued or otherwise "disposed of than by Warrant under the Hand and Seal of the "President by and with the Advice and Consent of the Assistants "in Councill assembled or the Major Part, and the President to "send Monthly Accounts of such Issues and for what particular "Services.

"No public Debts to be incurred, no Encouragement promised "that may create Expence, no Exceedings of the Estimate suf"fered, or diverting of appropriated Sums to particular Uses, ex"cept by Direction of the Trustees first obtained, on Pain of their being liable to repay or make good the Same who shall sign such "Warrant excepting in such Cases as shall be hereafter specified."

From whence some Difficulties do arise about the true Intent and Meaning of the Honourable the Trustees; It is therefore recommended to the President to represent the same to their Honours, and to desire their Explanation thereof, to prevent any Mistakes that may arise for want of being thoroughly informed.

In farther Pursuance of the above named Instructions It is hereby appointed that the four Days hereafter named, be the certain Days whereon four general Courts only shall meet within the Space of one Year for dispatch of Publick Business (to wit) The seventh Day of July (being the Anniversary of opening the first Court at Savannah) the twentieth of October, the twenty eight of January, and the first of May.

A Petition of James Anderson was some time since presented to this Board, desiring to have a Grant of five hundred Acres of Land lying South East from the Farm Lotts adjoining to Thunderbolt, which Farm Lotts belong to the Township of Savannah; and knowing the said James Anderson to be an industrious Man

and well disposed to cultivate Land and withal a Man of Substance We do as farr as in us lies grant him his Request in order to be confirmed by the Trustees, and a Grant made thereof under the same Conditions with others.

The Petition of Samuel Lyon and his Wife, and John Erinxman and his Wife, which were presented at a Meeting on the 5th of this Month, were now taken again into Consideration and it appearing that John Erinxman and his Wife, and the Wife of Samuel Lyon had been indented Servants to the Trustees and served out their Times whereby they were entitled to a certain Donation order'd by the Trust It is therefore determined that they be supplied in due time with what the Trustees have been pleased to order, particularly a Sum not exceeding twenty Shilling for working Tools for each Family.

The Proposals of Thomas Ellis ascertaining the Cost of surveying Land, for such as have settled, or are inclinable to settle, within the County of Savannah, being duly considered, are agreed to.

A Petition of Elizabeth Bowling Widow which was presented to this Board on the 11th Instant (was now again considered) setting forth her bad State of Health, which requires the whole Attendance of her Daughter upon her, & therefore deprives her said Daughter of the means of getting any thing towards her own or her Mothers Support Therefore 'tis ordered that the Sum of twenty Shillings be allowed her, including the two Shillings and six Pence already given her for her Support, for a Month commencing the 12th Instant.

Thomas Morris having applied to this Board for a Town Lott,

and desiring the Lott N° 3 in the third Tything in the Lower New Ward It is agreed to under the same Conditions with others.

A Motion being made in Relation to issuing of Money for the Publick Service (now in the Presidents Hands) some Doubts arising thereupon, It was deferr'd for a farther Consideration till to Morrow Morning.

John Clark having petitioned this Board for a Town Lott, and it appearing that He and his Wife were both aged People, and infirm, and more likely to become a Charge to the Colony than a Benefit, It was rejected: But upon Consideration of his several Days Attendance and importunate Desire to settle here (in Order to which he had voluntarily taken on himself to begin a little Clearance of Ground) and withall being a very poor Man and necessitous, It was thought proper to order him the Sum of Twenty Shillings as an Act of Charity.

The Consideration of the Motion that was made yesterday relating to the issuing of Money was reasumed and being now fully

satisfied, from a Letter which the President lately receiv'd from the Trustees of their true Intent and Meaning in a certain Clause in the Instructions given by Them to the President and Assistants, which Clause we apprehend had a doubtfull Interpretation at the Time of the President and Assistants in Council met on the 19th of November last, We do therefore now order and appoint that the Sum of fifty Pounds be immediately issued for and towards the Expence of the Current Service, more particularly relating to the Beacon now erecting at Tybee, the Expence of M^r Averys carrying on his Survey, the Weekly Pay of the Trusts Servants,

and divers other incident Expences in pursuance of the last Estimate And it is likewise ordered that the Sum of twenty five Pounds more be issued in Sola Bills for the Payment of M^r Vigera pursuant to the Trustees Orders, and also the farther Sum of twenty five Pounds towards defraying the Charges of landing and conveying the Several Passengers and Goods brought over by Capⁿ Lemon as ordered.

The President recommended Thomas Salter to be Constable in the Room of Andrew Duchee, who formerly was in that Office, but none appointed since, and the said Salter was very well approved of.

The President acquainting the Board that he had received a

Letter from General Oglethorpe signifying his Pleasure that the Lott late M^r Kellaways should be granted to the youngest Son of James Papott a Minor under the Age of two Years, for that the said Kellaway, as M^r Papott inform'd his Excellence, died without any Heirs, The Gentlemen now present did inform the said President that they were well assured the said Kellaway had Heirs both Male and Female, whereupon it would be advisable that the President should acquaint his Excellency therewith.

The President having also communicated to this Board, the Contents of another Letter receiv'd by him from General Oglethorpe signifying his Pleasure that the Money ordered by the Trustees to be paid the Switzers on their Arrival should be delivered unto Mr Frederick Holzendroff (whom the General had

sent hither for that Purpose from Frederica) in order that he the said M^r Holzendroff might pay the same to the People, and thereby be the better enabled to prevail with them to leave this Place and go to Frederica It is the Opinion of this Board that the President do pursue his first Orders received from the Trust without Variation therefrom.

Simon Cary and Christian Levenburgh Planters having informed this Board that there are among the Switzers lately arrived, two Children (Orphans) whose Parents died in the Passage, that are now sick and in a very weak Condition, having no Body to take Care of or relieve them, therefore the said Cary and Levenburgh are desirous and willing, to take Care of and provide for them as if they were their own Children untill they arrive at such an Age as shall be judged proper. It is ordered that Levenburgh takes the Boy; and Cary the Girl, and that an Inventory be forthwith taken of the Goods contained in a Chest belonging to the said Orphans by one of the Tythingmen.

M^r Causton having requested that the Sum of thirty six Pounds and eleven Shillings remaining unpaid to him of the Bounty on Corn ordered by General Oglethorpe in the Year 1739 might be paid him in Order to enable him to go on in Planting, and it appearing to this Board that his Demand for the said Bounty, as also the Demands of several others in this Colony, for

the same Bounty are not yet satisfied to the Amount of £257..
15..2, and there being no Provision made for the Payment of these Claims, It is thought proper that the President do lay the Matter before the Trustees for their Direction therein.

A Petition was presented by Edward Bush, Peter Morelle, Joseph Wardrobe, John Penrose, Andrew Duchee, and Thomas Ormston, requesting that 500 Acres of Land each on Hutchinson's Island, be granted them, they promising to clear and cultivate the same, We are of Opinion that the Trustees having reserved that Island for peculiar Uses, therefore it would not be proper for us, to grant any Land upon the said Island, without particular Instruction from the said Trustees.

A Petition of Samuel Clee (of November the 5th was again taken into Consideration) for the Town Lott No 2 in the first Tything of the Lower New Ward; which is agreed to and he is to take Possession of the same.

A Petition of the German Inhabitants of the Town of Savannah was presented, requesting that they might be allow'd to have M^r Bartholomew Zoubebiller to be their Minister to preach unto

and instruct them in the Christian Faith, the same was approved of, and consented to, they satisfying him for his Time and Trouble therein: We having no Power from the Trustees, to allow him any Stipend or Salary.

The Petition of John Milledge and John Norton Wright (was again taken into Consideration) requesting to have each 500 Acres of Land on an Island call'd Whitmarsh The Board was of Opinion that they being both young Men and having no visible Substance wherewith to cultivate the Same at present, we apprehend they would be better employ'd in cultivating the Lands belonging to their Town Lotts yet awhile until they had required a better Competency for such an Undertaking.

Thomas Salter having petition'd this Board for a Grant of 500 Acres of Land lying on the South Side of Savannah River about three Miles below the Town call'd Dawbuss's Island, It is granted that Possession be given him of the said Island so as it does

not exceed 500 Acres to hold the same upon Lease or on such other Terms, as the Trustees shall direct.

The President proposing John Norton Wright to be Tythingman of Moores and Hucks Tything Percival Ward in the Room of Thomas Salter, who is lately made Constable, It is agreed to.

It was agreed that the Sum of two hundred Pounds be issued to pay the Salaries and other Expences ending the 25th of December being one Quarter.

Whereas there appears to be several Arrears due by the Estimate to Persons in the Southern Division of the Colony and that M^r Jones is going to Frederica, It is agreed that the Sum of two hundred Pounds be issued and delivered to M^r Jones in order to make Payment to such Persons whose Salaries remain unpaid, And that he as soon as conveniently, do transmit an Account to this Board of what Payments he shall make, and render an Account of what farther Sums may be due to compleat the Estimate to Christmas next.

David Cunningham having petitioned this Board to have the Charge and take Care of the Ship Cæsar in the Room of Walter Fox deceased It was ordered that the said Cunningham do take Care of and look after the said Ship, As also take Care of and

Proposals of James Dormer (Pilot at Tybee) being Presented to this Board Setting forth the Terms & Conditions on which he was Content to Proceed as Pilot hereafter He haveing for some time past Acted as such by Permission without any Establish'd Allowance by Reason of no Boat being Yet Provided (by the

Trust) proper and Sufficient for such Service which has Render'd the Execution of that Office more Expencive in Divers particulars than otherwise it Might be Expected—

It is therefore Recommended to the president to procure & Buy with what Convenient Speed may be a Boat of such Dimentions as shall be Advis'd by Skilfull Persons, will be thought Needfull and fit for such Employment. And whereas the Proposalls now made by the said James Dormer are somewhat Exceeding the Estimate made by the Honoble the Trustees for Defraying that Expence.— It is therefore further Recommended to the President to Lay the same before the Trustees for their further Direction, And in the Mean time till such Directions shall be Receiv'd from the Trust tis thought Highly Adviseable that the said Dormer should Continute to Act as Pilot in the manner he has hith-

erto done for the Safety of such Vessels as are desirous to put in to the River Savannah more Espetially in this time of Warr.

A Petition of Christopher Ortman being Presented to this Board Setting forth that by an Accident happening up this River near Ebenezer the Widow Langford together with a Young Child being on their Passage to Augusta were Oversett, whereby they Remaind many Hours in the River & were taken up by a Boat passing by & carryed to the House of Christopher Ortman where she continued sometime very ill and at Length Dyed, & leaveing no Effects to defray the said Expence & also to Maintain the Child, which Charges Amounts to upwards of £6 therefore the petitioner humbly hopes this Board will Order Payment of the same he being himself in Mean Circumstances;— It is therefore Order'd that the said Ortman bring the Child and his whole demands by the next Meeting of this Board, when he will be paid.

The president haveing Communicated to this Board a Letter from Generall Oglethorpe Dated the 1st of Ap¹ 1742 in Answer to a Minute of this Board made December the 17th 1741. wherein he is Pleas'd to Signifye his Opinion that Notwithstanding there may be heirs to Succeed to M^r Kellaways Lott Yett that M^r Papot Might and Ought to be put in Possession thereof till the heirs Appear & the Trustees Pleasure thereon be known. This Board is of Opinion that they can not in Justice Comply with his Excellency's Directions for the severall Reasons following

- 1st . . . That the said Kellaway undoubtedly has severall Heirs Brothers Sisters &c.
- 2^{dly} . . . That the said Papot Claims a Right of Possession as a Creditor to the Effects of the said Kellaway Deceas'd, when there are many other Creditors that have larger Demands on the Effects of the Deceas'd than the said Papot And Letters of Administration have been Granted to John Burton in behalf of himself & all other the Creditors to Receive Sue for and Recover the Effects of the said Deceas'd & Pay the same where it shall be Justly Due and owing.
- 3^{dly} . . . That the said Papot together with his Wife & Children are Already posses'd of two Town Lotts whereon little Improvem^{ta} have been made any more than two Houses Built in

the Town (the said Papot being a Carpenter;) One of them being Built by his Wifes former Husband Austin Weddall.

Therefore we are apprehensive it is destroying the Trustees Good Intentions to Suffer any Lotts within the Town to be Monopoliz'd.

This Meeting was occasioned by the Appearance of great Murmuring and Discontent among the common People, which (it was apprehended) might be attended with very ill Consequence; many People in the Country having left their Plantations (after sending away their Wives and Children to such Places of safe Retreat, as they could find up the River) and being necessitous,

having little or nothing, either for themselves or Families to subsist on, they assembled together at the Presidents, making a joint Complaint of the Distress they were in, and declared that if some Method was not immediately found out for their Subsistance they must quickly withdraw to a neighbouring Province, The Fear of the Enemys Approach not making it safe for them to return to their respective Homes. In this Complaint several Inhabitants of the Town also joining, the same became general; insomuch that a total Dissolution of Government and Disobedience of all Authority seemed to threaten us: For these Reasons it appeared absolutely necessary that something should forthwith be done to aid the poor helpless Women and Children who had been permitted to go up the River, and have taken up their Abode in the Woods as well as those Men who were willing to stay in the Place till the Enemy's Approach: And no Relief being to be had from the common Store at Savannah, That having been for some time past shut up by express Orders from the Trustees (which at this Juncture would have been of particular Service, and singular Advantage) We were convinced some other Expedient must be thought on; And after Consultation; It was mutually resolved and at all Events agreed, that such Provisions should be bought as could most readily be obtained for that purpose, and that £100 be signed and issued to defray the said Expence.

It being thought also necessary that some of Us, should go up the River to direct and see that a proper Distribution be made among the People; M^r Jones offered himself to go; which was readily approved of and accepted; And he was desired and directed to call upon and order Joseph Barker at the Cow Pen to kill such Beef, as he the said M^r Jones should think necessary for their future Support and Maintainance.

This Board being informed that there were not Persons in the Several Tythings to perform the Guard Duty, the Time of most that remained being chiefly taken up in removing their Effects, and providing for their Families at a Distance: It was thought necessary some Care should be taken to supply the Defect which could no otherwise be remedied than by hiring Persons for that Purpose, Therefore Orders were given that such Persons should

be hired as would undertake it to be under the Direction of a proper Officer of the Town.

A Letter from Gen¹ Oglethorpe of the 10th Instant was read wherein he directed that we should send what Indians and other Men we could to his Assistance at Frederica: Whereupon (there being no Indians here) it was resolved that if any Inhabitants of the Town of Savannah or Places adjacent could be prevailed on to go on this Occasion, they should have all the Encouragement possible from Us, by being provided with Boats, and other Necessaries for that purpose, and should also be paid ten Shillings a Piece in Money, And publick Notice is ordered to be given of this our Resolution. And we being informed that the General is at present in Want of more Guns, occasion'd by his bursting many upon his Retreat from Fort S¹ Simons. It is therefore agreed that two of the best we have, be sent him with all convenient Speed.

This Board having taken into Consideration the late Actions and Behaviour of John Pye their Clerk, do resolve that the said Pye be discharged and he is hereby discharged from the Office and Benefit of Clerk; He having deserted the Colony upon the first Advice of the Spaniards attacking Frederica, and not having attended this Board since that Time, And it is ordered that no Salary be paid him as Clerk from the 30th Day of June last.

There having been lately a more than ordinary Expence of Cash in providing for the Necessities of the poor and helpless People fled from their Homes and the President acquainting the Board that the Money already signed was expended, and that the Books of Sola Bills had been sent to Ebenezer as a Place of more Safety, and could not be come at without his personally going for them; It would be esteemed doing the publick Service, if he went with as little Loss of Time as possible to Ebenezer, and brought with him such Books of Bills, as he shall think necessary for the farther Support of the said poor People, and other contingent Services.

A Letter of this Days Date from James Lewis Camuse was read, directed to this Board, and desiring that an Account of Monies due to him from the Honble Trustees might be adjusted. Mr Camuse being present was told that her Husbands Accot (together with other Requests made by him) had been transmitted to England by the President, for the Trustees Approbation and Directions ever since January last, being a few Days after he had the same brought to him for that Purpose; and that no final Answer could be given therein 'till the Trustees Pleasure could be known, which as yet was not. But that, in the Interim, Mr Camuse might take such Sums of Money on Accot as his and his Family's Necessity might call for, We being very unwilling, that they should be put to any Difficulty by the Presidents having not yet received an Answer from the Trustees thereto.

An Account being delivered in by the Rev^d M^r Orton deceased (before his Death) of sundry Sums advanced M^r John Terry Recorder of Frederica, upon Credit of a Bill drawn by him on the President for half a Years Salary, Recourse was had to what

passed at a Meeting of this Board the 3^d of July last (as \$\pm\$) Minute) But this Board now taking the same into farther Consideration, it appeared that M^r Orton would be a Looser of £11.. 1.. 8 paid by him for M^r Terry, unless the same was reimbursed him on the Credit of the said Terry's Bill; Wherefore it is ordered that the Said Sum of £11.. 1.. 8 be paid the Executor of the said deceased M^r Orton who we think it reasonable should receive the same; Notwithstanding the Order heretofore referr'd to of the 3^d of July last.

The President acquainting the Board that he had two Bills drawn on him one by M^r Thomas Hawkins for £11..11..6 due to him as Magistrate in Frederica and for Rejoicings; And the other Bill from M^{re} Harrison for £5, for her officiating as Mid Wife at Frederica, both which Bills were made payable to M^r John Brownfield; It is the Opinion of this Board unanimously that we do adhere to the Observance of the Trustees Orders, and to the Minute thereon made of the 3^d of July last; that no Remittances of any kind be made to Frederica untill such Time as the Trustees Orders before mention'd are fulfilled.

The Highlanders who arrived in Capⁿ Lemons Ship, and settled at Darien having lately applied to M^r Thomas Jones for the Payment of the Remainder of the Moneys ordered them by the

Trustees which Sum amounts to £173.. 7.. 6; It is now ordered that the like Sum be indorsed for that purpose; and M^r Jones being soon going to the Southward is requested to pay the said Sum to the respective Persons, taking their Receipts for the Same.

And it appearing that the Money last issued for Current Service is expended, therefore £100 is ordered to be issued for such Purposes.

The President informing this Board that the Money last issued was near expended and that more was wanting for publick Service, It is ordered that £100 be indorsed for that purpose.

M^r Thomas Bosomworth Executor of the last Will and Testament of M^r Christopher Orton deceased, applied to this Board for a Quarters Salary and Servants Allowance due to the deceased and on searching the Acco^{ta} it appeared that the deceased had received in full all his Salary to the 14th of June last, and that

he died on the 12th of August which is but two Months. What M^r Bosomworth alleged was; that in England if a Curate serves but a Week of his Quarter, and is taken off by Death, the whole Quarters Salary becomes due; but that Assertion being not sufficient (as we thought) to justify our Payment of it. M^r Bosomworth has consented to leave it to the Opinion of the Hon^{ble} Trustees.

The Body of Dutch Servants (some of them now free and the Rest being so at Christmas next) applying to this Board that they might have Lands granted them at a Place now called the White Bluff on Vernon River; were told that the Person lately employ'd in running out Lands, was ill, but that as soon as he was able, or some other Person could be found, a Town on the said White Bluff should be immediately laid out and each Man should take

his equal Chance by Lott; And the Farm Lotts or Lands thereunto belonging should also as soon as possible be laid out, wherein Care should be taken of their having good Land, and that if any Quantity of barren Land should intervene, the Same should be set by for future Purpose.

Isaac Gibbs of Abercorne having suffered very much by the Women and Children of this Town being sent thither during the late Commotion; among whom some unruly Men thought fit to retire without Leave; whose Horses broke into his Plantation, and did him great Damage in destroying his Corn &c; And moreover having lost divers working Tools during the same Time, and being himself old and infirm, whereby he is reduced less capable of Labour than he has been, and is inclined to; He now applies to this Board for some small Assistance to purchase Tools, and enable him to go on with his usual Industry And he is accordingly ordered thirty Shillings for the said Purposes.

The Widow Harts a Servant of the Trustees being disabled in her Limbs and having great Misfortune in the Loss of her Cattle, and no Subsistance from the Trustees by Reason of her Incapacity to labour; And being now reduced to great Necessity by Sickness and otherwise It is ordered that twenty Shillings be given her for Relief.

John Brown petitioning this Board in Behalf of himself and sick Wife, setting forth the Distress they were in for Want of necessary Support (thô he himself was well known to this Board for an idle disorderly Person, meriting no Favour from the Trustees, yet in Consideration of his Wife, who is an industrious, sober Woman and at present very ill) It is ordered that twenty Shillings be issued to Tho Salter one of the Constables with our Request that he would take upon him to enquire into their Condition and purchase such Necessaries as they may most stand in Need of (the Husband not being to be trusted with such a Sum).

It appearing to this Board that the Money last issued for publick Service is near expended, and the Quarters Salaries being now due, the Sum of two hundred Pounds is ordered to be indorsed for the Purposes aforesaid.

It having been represented to this Board by Doctor Hunter

that Landrey and his Wife at Highgate, are both dead in the late Sickness, leaving a Family of five Children behind them, Two only of which are able to do any Thing towards their own Support; whereby it becomes necessary that some Assistance should be afforded them: Therefore it is ordered that two Shillings and six Pence be Weekly laid out for fresh Meat for the said Family 'till farther Order (they having Bread Kind of their own).

Joseph Barker at the Trustees Cowpen applying to this Board for the Payment of Servants Wages produced an Order under the Hand Mark of John Matthews drawn on the President and payable to the said Barker for £13.. 4.. o being the Sum mention'd therein due to the said Matthews for six Months and seventeen Day Service of himself and Horse at the said Cowpen ending this Day. William Russell the Clerk at the Store being present inform'd the Board, that the Sum claimed by the said Order he look'd upon extravagant for that the said Matthews was a young Lad; whereupon he being then in Town was sent for, and examined touching his signing the said Order, and in what Capacity he had lived with the said Barker; and the said Matthews answer'd, that the said Order he had so as aforesaid signed, he knew was for Money, but did not know for what Sum the Same not being read over to him at the Time of signing; that he was an indented Servant of the said Barkers for four Years at the Rate of £1.. 5.. 0 a Year; He was farther asked what Age he was of, and whether he kept a Horse of his own to do the Trustees Business with; to which he replied that he thought himself about sixteen Years of Age, that indeed there was a Horse that went by the Name of his, which his Master had appointed for him to ride, but that occasionally he rode sometimes one and sometimes another (all which Horses were understood to belong to the Trust). This Information we were startled at, Barker having before told us, that the said Matthews was an able Man and that the Horse he had (which Barker asserted to be the said Matthews's Property) was much the best of any in the Service, and that was it not for the said Matthews and his Horse, he the said Barker should not be able to perform the Trustees Service. Hereupon it was thought necessary to look back on what had formerly been paid the said Barker on the said Matthews's Account, whereby it appear'd that on the 29th of Sept 1741 the said Barker was paid the Sum of £17.. 6.. 8 for eight Months and twenty one Days Service of the said Matthews and Horse; and on the eight Day of March following the said Barker also receiv'd the farther Sum of £10.. 10.. 8 for five Months and eight Days Service of the said Matthews and Horse: Upon the Whole we concluded that all the said Barkers Proceedings relating to this Affair were notoriously fraudulent to the Injury of the Trust as to what had before passed, and his Intention of continuing the same Course of Villany (had he not been detected) much aggravated his former Offences; and called for the Interposition of the Civil Power to punish so notorious an Offender, and obtain such a Satisfaction for the Trust as the Nature of this Case required: Therefore the Bayliffs then present committed the said Barker to Prison, untill he should find sufficient Sureties for his personal Appearance at the next Court, or be thence forth discharged by due Course of Law.

The Petition of Jacob Danner and Johannes Turtler (in Right of their Wives) was presented desiring Allowance of Provisions. Working Tools &c, pursuant to the Trustees Orders (their said Wives having been indented Servants to the Trustees and served out their Times). It is thereupon determin'd that they (being now settling Plantations) shall be supplied with what the Trustees have been pleas'd to order, particularly a Sum not exceeding twenty Shillings for working Tools, And also three Shillings a Week each Family for one Year next coming, in like manner as

Lyon (in Right of his Wife) was allow'd at a Meeting of the Board on the 19th of Nov^r last.

Thomas Ellis Tythingman and also employ'd in surveying Lands having been long in a very sickly weak Condition which has reduced him to great Want, and having some Demands on the Trust, not yet settled, It is therefore ordered that the Sum of forty Shillings be paid him on Account.

David Cunningham having suffered greatly by an Accident in firing a great Gun on the Ist of July last, when he was cleaning them in Order to be ready for Use against the Enemy, whereby he was for long Time after render'd incapable of doing any Thing towards the Support of his Family, And withall at the same time having his Apparel burnt and spoiled He now applies to the Board for some Allowance towards his Loss It is ordered that the Sum of thirty Shillings be paid him.

The helpless and distressed State that Joseph Fitzwalter and his Family have been reduced to for a long Time past being such as cannot with any Certainty be relieved, It is recommended to the President to give such occasional Aid as he may judge necessary for their Support.

Whereas Application was formerly made by Numbers of the Inhabitants after their Return to Savannah from their Places of Retreat during the late Commotions, when a grievous Sickness began to spread among 'em; that they were destitute of all Help, for Want of proper Medicines being applied (there being none in the Stores); whereupon we did then engage Mr Hunter Surgeon & Apothecary belonging to the Orphan House to visit & relieve such Persons; (he giving at the same Time an Accot to this Board of their respective Names, whereby we might judge of their Necessity, or Ability to help themselves); the said Mr Hunter now delivered sundry Bills containing the Expence of Medicines, & his Care thereon, amounting in the Whole to £43.. 17.. 0 which there being no Objection to, the Same was ordered to be paid.

John Fowlds applying to this Board for a Town Lott to be granted him, the Same is ordered (knowing to be a diligent laborious Man) in such convenient Place as the President shall appoint.

John Gionovali petitioning this Board to be restored to the Care of the Trustees Gardens, (from which he was some Time since for good Reasons removed) And Joseph Fitzwalter who had undertaken the Care of the Gardens, since the said Gionovali's Removal being lately dead; It is recommended to the President to make Experiment, whether the said Gionovali's Behaviour will merit his farther Continuance in that Service.

The Office of the Wharfinger being vacant by the Death of the aforesaid Fitzwalter, his Widow makes humble Request (her Husband having left her in low Circumstances) that we would continue the Same to her, She having a Son (who is one of the present Tythingmen) capable of taking proper Care therein; Which Request upon the aforesaid Considerations is granted.

It appearing to this Board that the Monies last issued for publick Service is expended. It is ordered the Sum of £100 be indorsed for such Service.

Whereas Complaint has been made to this Board by Tho[®] Salter Constable, of Will[®] Mears Tythingman of Belitha & Vernon Tythings in Heathcotte Ward; having been very negligent in getting together the Guard last Night (of which he was the proper Officer) and that no more than three Persons then appeared to perform the Duty, & those without the said Mears, or any Person by him appointed to act as Officer on his Behalf, Which Proceedings of the said Mears being of a Piece with many former Ones; this Board was unanimous in Opinion, that the said Mears should be removed from the said Office of Tythingman; And that Tho[®] Trip (who by the Constables Appointment acted that Night as Officer) should be commission'd by the President as Tythingman in the Place of the said Mears.

Hugh Rose applying himself to this Board for Satisfaction to

be made him for a Disappointment which he alledges was befallen him to his Prejudice, for that on the 22nd of the last Month, he had agreed with Us to undertake the Running out a large Quantity of Land, & laying down a Plan of a Town, for the Use of the Dutch Servants now near out of their Time, And that he had in Order thereto provided several Men whom he had brought with him from Purysburgh for carrying on their Work: But Capⁿ Avery being arrived with an Appointment from the Trust, to be Surveyor of all the Lands in this Colony; therefore insisted to take upon himself the aforesaid Work; which had occasion'd a great Charge to fall upon the said Rose, by Payment of such Men as he had brought with him, & also nine Days loss of Time to himself, for which he expected to be reimbursed: We thought it reasonable that a proper Allowance should be made him, in Consideration of his said Expence, & Loss of Time: But his Demands appearing extraordinary, we reduced it to what we thought just: & agreed upon the Sum of £4.. 8.. o to be paid him in full of that Demand, which he thought was hard dealing, but accepted of the Same, & it was ordered to be paid.

Information being brought to this Board, that Andrew Duchee went off in the Night last past in a clandestine Manner, in a Boat laden with divers Chests, Casks, & other Effects, designing to put himself & said Goods, on board a Sloop lying at Cockspur, which came lately from New York, & was now bound for Burmudas: And the said And Duchee having taken no Permit for so doing; moreover it appearing to Us, that he had other secret Designs in View, which might be of evil Tendency in Respect to the Interest of the Trust: for these Reasons it was the unanimous Opinion of this Board, that a Boat should immediately be sent with all possible Speed, & that an Officer or two should be put on Board the said Boat, with a Warrant from the Magistrate, to go on Board the said Sloop, (if happily they might find her not yet sailed) & there to apprehend the said Duchee, & bring him before them, that Examination might be duly made into the Premises.

In the Evening the Boat return'd with the Officers sent, & the said Duchee in their Custody; when upon strict Enquiry into

the Said Duchee's Proceedings, it was judged necessary that he should find Sureties to be answerable to the Trustees, for such Sums of Money as he stood charged with in their Books, & not to depart the Colony 'till the Trustees Pleasure could be known therein: But he not readily finding such Security, it was determin'd that he should remain in the Officers Custody, 'till Monday Morning.

A Report having been made to the President, that one Will^m Hambleton residing on this River, near Pallachocola's Fort, hath lately made a Practice of crossing the River into this Province, making a Spoil, & destroying Cattle, that are strayed from their respective Owners; And sufficient Evidence being wanted to form a Prosecution against him; this Board being informed that one Josiah Lowell at or near Mount Pleasant can give farther Light into the said Practices: It is therefore thought proper that the said Lowell be sent for at the Trustees Expence, that such Methods may be taken as are necessary to prevent such illicit Practices.

Whereas several People whose Times are expired, have applied to this Board, that they might have Encouragement given them, to go upon & cultivate Land: We thereupon had Recourse to the Trustees Letter (by their Secretary M^r Martyn) of the 24th of April 1741: wherein we find the following Directions. "To take Care that a sufficient Quantity of good Land be im-"mediately survey'd of Lotts of 50 Acres each, that all Servants "newly out of their Time, may be put in Possession thereof; As "likewise that the Trust Servants, at the taking up their Lotts, "shall have an Allowance for 12 Months at the Rate of 8^d a Day

"each Man, & 6^a a Day each Woman, with a Cow, Calf, & Sow "to each Man, & the usual working Tools." From whence some Doubts have arisen, how farr the Trust's Intentions were to be extended (Viz^t) whether those Words are meant restrictively to such Servants only, as came hither indented to the Trust, or whether any other Servants, & of what Kind, may be intitled to the Benefit: There having been several other foreign Servants (as also English) imported; particularly a certain Number of German Servants by Capⁿ Thomson in the Year 1738, of which those few remaining in this Part of the Colony, appear to be industrious People, & are desirous to go upon Land, but want Ability: It is therefore recommended to the President forthwith to lay the Same before the Trustees, that their Directions may be had therein.

Joseph Barker having at this late Court been found guilty of the Fraud which he was charged with, for which he had paid the Fine then imposed; & now appearing before this Board; he was allowed and ordered to return Home, & to deliver in to us on or before the first Week of March next, an Acco^t of all Cattle receiv'd by him from the first Settling of the Cowpen to this Day, and likewise their Increase; & what Number & to what Uses any of the said Cattle or Horses had been disposed of: that thereby we might be enabled to render an Acco^t to the Trust, & judge how well qualified he was to continue longer in their Service.

The late Pilot Boat under the Care of James Dormer having been unhappily lost, & a due Enquiry made how it came to pass; it was found to be occasioned by a violent Storm of Wind, whereby she dragged her Anchors, drove ashore bulged & sunk. Whereupon we had Recourse to James Dormer; who readily acquiesced in resolving to provide another at his own Expense, that should be equally capable of performing the Service: but hoped the Trust would allow him some Consideration, when he had so done; the Accident that befell him, not being thrô any Neglect or Fault of his.

being well known to be a laborious carefull Woman, with two small Children; whom together with herself she has supported without any Assistance from the Trust; but being now reduced to the last Extremity, & her Children quite destitute of Cloathing; She was thought a great Object of Charity: wherefore 'twas thought proper to order her forty Shillings for the Cloathing of herself & Children.

The President making Report to us, that since the last Meeting several of the Dutch Servants, now settled at Vernonburgh, had made Application to him to be supplied with Potatoes for Seed as a Gift; which he thought was unreasonable after having been so plentifully supplied with whatever they demanded, at the Time of the Expiration of their Service; & moreover the Benefit which they were yet to reap of their Years Pay to come; the

Gentlemen now met were of like Opinion with the Answer that had been given them, "That there was no End in satisfying their Cravings" Therefore 'twas judged necessary to put a Stop to it.

Resolved that forty Cows & Calves be provided for the afore-said Dutch Servants settled at Vernonburgh And that Orders be given to the Trustees Cowpen Keeper at Ebenezer to get up such a Quantity as soon as possible. And forasmuch as Hoggs are of Difficulty to be got It is thought expedient to allow each Family fourteen Shillings to provide themselves with a Sow, Cock & Hen pursuant to the Trustees Directions.

This Board taking again into Consideration the Affair of Joseph Barker at the Cowpen, & finding that there has been hitherto a general Neglect in bringing up the Cattle (whereof many are gone wild) partly occasion'd by Want of sufficient Hands and Horses to do the Work effectually: It is therefore resolved that for the future the following Regulations be observ'd (Vizt) That six new Horses be bought & added to those already there which are in a great Measure worn out; That four Men be hired to assist, in hunting, driving, marking, branding, &c, for six Months in every Year; & to be reduced to two the remaining part of the Year: That a proper Person who can be confided in, be sought for, & employ'd to spend at least one Week in every Month at the said Cowpen during the Hunting Season, to oversee what is & has been done; with Power to check or displace any Person found negligent in his Duty; to prevent any Infringments or Embezlements of the Trustees Rights; & to render an Accot of those Matters when thereto required: that Saddles, Bridles, & Cordage necessary be provided; As also Provisions, for Barker, his Wife, & others assisting, in such Manner as from Time to Time shall be thought proper.

Mr Watson making Application to this Board for a Tract of five hundred Acres of Land to be run out for him, at the Head of little Ogeechy River, in order to obtain a Grant thereof from the honble Trustees; It was thought advisable that he should petition the Trustees: But that in the mean Time the Surveyor might run it out and wait the Trustees Confirmation.

Information being given us by Mr Hunter, who visited the poor Lad that had his Limbs broken, that during the present Extremities he lay under, 'twas needfull some extraordinary Care should be taken that he might not want proper Assistance to move him on Occasion, & be frequently helpfull otherwise; which was more than his Father or Mother could do, without giving up their Plantation Work, to their future irrevocable Loss; It is judg'd thereupon reasonable that ten Shillings Week should be allow'd, during a few Weeks, in Order to procure such Assistance as is absolutely needfull; & that whatever is wanting proper for him to take, whilst he is in so great Misery & Danger, shall be directed by the Doctor to be provided; & paid for out of the publick Money, on his certifying it so to be.

After looking over carefully the last Issues of Sola Bills, & Disbursements therewith made: we were next to make a Computation of what farther Sums would be needfull to be issued forthwith; and finding that the Demands at this Time were higher than common, by Reason of a Months Pay immediately growing due to the Trusts late Servants, together with the Cost of providing Swine and Poultry for their Use, as Porder, now they are settled; moreover the Quarters Salaries in few Days more becoming also payable; less than £200 would not answer those Ends, & be sufficient also for other Current Services, & incidental Charges; Wherefore 'tis order'd that the Sum of £200 be issued for the Purposes aforesaid.

Whereas at a Meeting on the 22^d of March last the Sum of ten Shillings Week was order'd for the Relief of a poor Lad who had his Limbs broken, & was in great Danger of his Life by the falling of a Tree at Vernonburgh, he now lying in a fair Way of Recovery (as the Doctor reports to us) & requiring the less Assistance to help him It is judg'd that five Shillings Week for a few Weeks to come may be sufficient.

Daniel Deigler having formerly drawn a Lott N° 2 in the Township of Vernonburgh, & afterwards the Lott N° 18 being undrawn & Vacant; at the Request of the said Dan¹ Deigler to this Board, for good Reasons then appearing to us, He the said Dan¹ Deigler was allow'd to occupy & take Possession of the said Lott N° 18 instead of the aforesaid Lott N° 2, which was thought proper to be now enter'd, being casually ommitted at the Time of the Exchange.

Nicholas Haner petitioning this Board for Relief, having had the Misfortune some time since of breaking his Leg, which has reduced him to great Necessities, & having clear'd & planted (as we are inform'd) about 12 Acres of Ground, which must run to Ruin unless it can be kept clean & duly look'd after, which he is not able to do, if he is oblig'd to earn his Bread elsewhere by Hire; This Board therefore is of Opinion that he is a worthy Object of Compassion, & for his Encouragement to carry on his Plantation They do order him twenty Shillings for his present Relief, besides paying the Surgeons Bill.

Thomas Lee petitioning this Board for the Freehold Lott N° 1 in Holland Tything Percival Ward; Upon his promising that he would immediately improve the Same It is ordered that a Warrant be issued to the Constable to deliver him Possession thereof.

Whereas at a Meeting of the President and Assistants on the 5th of March last It was resolved (among other Things) that a proper Person, who could be confided in should be sought for and employ'd to visit the Trustees Cowpen at Ebenezer once a Month, during the Season of hunting up the Cattle to oversee what should be doing there in managing the Trusts Affairs, with Power to check or displace any Person or Persons found negligent or unfaithfull in his or their Duty, to prevent any Infringement or Embezlements of the Trustees Rights, which Person should render an Account of all Matters within his Observation to this Board; And Mr Samuel Marcer (who at the Request of this Board had lately undertaken to see a sufficient Number of Cows and Calves brought from the said Cowpen for the Use of the New Settlers at Vernonburgh and Acton as # Minute of the last Board) having on that Occasion seen in some Measure after what manner those employ'd there went on with their Business; does now signify to this Board his being willing and ready to undertake what was judg'd needfull on the 5th of March last aforesaid And We having full Assurance of his Capacity and good Judgment therein, do therefore approve of his taking the said Charge upon him, which we promise ourselves will be greatly to the Advantage of the Honorable Trustees And it is hereby ordered that Coppy of the said Minute of the 5th of March last be delivered to M^r Marcer for his Instruction As also Coppy of this Minute whereby all Persons concerned are required to pay due Obedience thereto.

The Board taking into Consideration the dangerous State the Wharf is at present in and the likelyhood of its falling to Decay without timely Care taken to prevent it, and Complaint being made by the present Wharfinger that he is incapable of either repairing or paying Rent for the Same without Regulations being made in Respect of Wharfage, many Boats from Carolina and the adjacent Parts frequently coming with Provisions hither, and refusing to unload their Goods or sell the Same otherwise than in their Boats, whereby the Wharfinger is deprived of the Benefit of Wharfage It is therefore order'd by this Board, that all Canoes coming to Markett with any Sort of Goods whatever (not the Produce of this Colony) shall be oblig'd to come to at the Wharf, in Order for a publick Markett being made of the Goods, and that the Owner or Owners of the said Boat or Boats shall be oblig'd to pay the Wharfinger for the time Being One Shilling Sterling for such lying at the Wharf exclusive of other Charges heretofore allow'd the Wharfinger, and which he is entitled to for landing of Goods. An Account being given in to this Board by Capⁿ Richard Kent of three Pounds Sterling which he had disbursed in taking a Felon pursuant to Instructions which he received from M^r Thomas Jones by a Letter of the 25th of August 1741 And it appearing that he had really disbursed the Same It was ordered to be paid.

The Reverend M^r Bolzius petitioning this Board to allow him a Quantity of Boards, Planks, and Scantling, which are lying at the decayed Saw Mill at Old Ebenezer towards building an Infirmary for the Maintainance and Relief of poor sick People in and near the Saltzburghers Settlement at New Ebenezer; We taking the said Petition into Consideration are of Opinion that we have no Power to make a Gift of any Thing belonging to the Trust without their speciall directions; But forasmuch as it may take Damage by lying too long exposed to the Weather and being very handy for M^r Bolzius's Use in the aforesaid Purpose, We apprehend M^r Bolzius may take such Quantities of the Same, as he may want (it being first measured) and leave it to the Trust (upon its being represented to them by Us) whether they will set any and what Value upon it.

Pursuant to an Order given the Trusts Cowpen Keeper at Ebenezer to provide a Quantity of Cows and Calves for Acton, Vernonburgh, and Ebenezer as noted the third of May last; Mr

Marcer who had the Inspection of it, now reports that the said Order had been complied with, and that the ten Head therein ordered for Ebenezer had been accordingly delivered; And also one Cow and Calf over and above, there having been a Mistake in the former Order.

M' Marcer farther reports to Us that He finds it necessary that another Hand ought to be hired for the Service of the Trustees Cowpen at Ebenezer over and above the four Hands already hired pursuant to a Resolution of this Board at a Meeting of the 5th of March last, And that for Want of such a Hand the Trustees Business at the said Cowpen may greatly suffer Therefore the Same is ordered.

The Petition of Capⁿ John Linder of Purysburgh desiring a a ((ate)) Freehold Lott in this Town being presented to this Board and read, The same was rejected on Account of the said Linders being known to be a troublesome Man, But the Board thought fit to give Leave for his taking up fifty Acres of Land among the Swiss his Country Men at Acton if he thinks fit.

The Money last issued being near expended as appears by the Accounts now inspected The Sum of one hundred Pounds more is thought necessary to be issued for the Current Service.

The Board observing that several Accounts brought in by M^r Avery appear'd very intricate and M^r Avery being sent for and not giving a satisfactory Account; the Board adjourn'd the farther Consideration of it till to Morrow Morning.

July the 28th 1743.

The Board again resum'd the Affair relating to Mr Avery, who appear'd according to last Nights Appointment in Order to clear up several Particulars in the said Accounts, which with a good deal of Difficulty We in some Measure unravell'd, wherein there appear'd no wilfull Fraud but the Intricacy chiefly arose from his having blended his Surveying with the other publick Accots. Therefore putting the Accots past in the best Light we could We recommended it to Mr Avery to be more distinct in his Accounts for the future or otherwise we could not look upon ourselves justified in ordering Payment.

The Widow Bowling being disabled in her Limbs & reduced to a very low Condition, whereby she is render'd unable to gain her Living by Labour It is therefore ordered that the Sum of twenty Shillings be given her towards her future Support. Lieu^t Coll¹ Heron having applied some time since to the President for a Freehold Lott in this Town, and the Same being now imparted to the Board, N° 6 in Heathcotte Tything in Deckers Ward was granted to Him, being the Lott which he desired, and which he design'd immediately to make Improvements upon.

Mr John Dobell appearing at this Board and producing a Letter from the Honourable Trustees wherein was signified that the Office of Register was in him and desiring Assistance thereupon agreeable to the Contents of the aforesaid Letter; He was told that he should provide Such as he thought sufficient acquainting Us therewith, and We should be ready to concurr in forwarding the Same.

A Letter with an Account from M^{ro} Mathews being delivered to the President whilst this Board was sitting, wherein was a Demand of sundry Sums to the Amount of about nineteen or twenty Pounds Part whereof was for the Support of Indians at her House and likewise on their Passage to Frederica to Warr Other Part thereof being for Damages done about her House and Plantation by the said Indians; It is the Opinion of this Board that the Damages ought to be set forth and proved at the next Court, and there to be determined; As to the Expence of entertaining the Indians going to Warr, such Charge must regularly be laid before the General, the Trustees having enjoined Us not to pay such Expence, the Same being properly for the Kings Service.

The Money last issued being duly expended as appears upon looking into the Accounts It is thought needfull that the Sum of fifty Pounds more be issued for the Current Service.

Letter from the Reverend Mr Bolzius was delivered to this Board wherein he craves a Support for the Maintainance of Mr Philo the Physician at Ebenezer referring to a Letter from Mr Verelst of the 2^d of August 1742 Coppy of which We had recourse to; But as the Trustees have since sent an Estimate wherein no such Support is mentioned This Board is of Opinion that they cannot comply with the aforesaid Request, nor any of the like Nature, which We find no Provision made for in the present Estimate sent.

And M^r Bolzius farther in his said Letter desiring that the Boards, Scantlin, and Planks, at Old Ebenezer, which he formerly applied for to build an Infirmary as P Minute of the 23^d of June last He now applied for a Grant of the Same with an Intent, as he sets forth to build a House for raising Silk; Whereupon the Board after mature Consideration were of Opinion to adhere to their former Resolutions of the 23^d of June aforesaid Upon which Terms if he thinks proper to take them, he might have them.

The Doctor who has been employ'd in taking Care of the Sick during the Year past, having according to Order brought in his Bill to Mid-Summer last amounting to the Sum of twenty seven Pounds, ten Shillings, and five Pence; It is observ'd that in the aforesaid Bill there are several Persons mentioned, who receive Weekly Allowances from the Trustees to enable them to cultivate their Lands, Some of which we think are well able to pay for themselves: It is therefore ordered that the Clerk at the Store demands the Same of the People, the Whole amounting to upwards of three Pounds, which upon Refusal he is to stop the Same out of their respective Allowances. But as for the other

Part We look upon it as a great Deed of Charity to pay it, the Persons being in no Ways capable of it.

John Browne appearing unto Us to be in a very indigent State of Life, and having frequently applied to this Board for Relief, which sometimes has been granted, and sometimes refused; for-asmuch as the said Browne is not to be trusted with Money to purchase the Necessaries of Life; but squanders away what he gets in Debauchery; It is thought expedient by this Board that an Allowance of a two Pound Loaf of Bread daily be given him in Specie towards the Support of himself and Wife; And 'twill be expected that by their joint Endeavours added thereto they may be able to provide other Food sufficient for their Maintain-ance.

Mr Marcer having been to inspect the Trusts Cowpen at Ebenezer and now returned, reports to this Board, that there has been very ill Management during the three last Months whilst he was confined from going there by a long Sickness; That at his first coming there He was apprehensive least the Mortality, that has gone thrô most part of the Province, might be among the Cattle as it was lately reported at Savannah; for that he saw six Head that had been sick but were upon Recovery, but had not yet heard of any being dead, from whence 'tis to be hoped, that the Cold Weather coming on might put a Stop to it, as it has done for two or three Years past.

The Examinations of Christopher Rylander and George Heldt relating to the Trusts Cowpen at Old Ebenezer, where they were hired Servants, are as follows, Viz:

Christopher Rylander declares to this Board that the Corn bought for the Support of the Trustees Cowpen was disposed of by Barker in feeding his own Hoggs which ought to have been applied in feeding the Trusts Horses; And whenever such Corn began to grow short He of 'times hid it for his own private Use, and denied the Trustees Horses any; And that He the said Barker very frequently fed Strangers as also his own Horses with such Corn; And Rylander farther saith, That the Rice sent up

for Provisions for the Men was frequently and mostly given to the Hoggs both raw and boiled; And that the said Barkers Fowls of which he had a large Number also partaked of both Corn and Rice; And that all Strangers who pass'd that Way used the said Barkers House as a publick House, and what Provisions the said Barker supplied 'em with He made them pay for at an extravagant Rate, althô the Same were the Trustees Store; And the said Rylander really thinks that had the Horses had their Due of the Corn provided for them, they would have been in a much better Case, their Poverty proceeding more from the Scantiness of Provisions, than hard Riding; And Lastly the said Rylander declares, That had the Steers (which from time to time were hunted up) been kept together, he verily believes there might have been above a Hundred fit for Slaughter.

George Heldt declares, That Barker disposed of the Corn, and Rice sent up for the Use of the Trustees Cowpen to his Fowls whereof there were supposed to have been about six Hundred, but at this present time he believes to be three Hundred, And also his Hoggs of Which there were Seventeen in Number, were constantly fed therewith in so extravagant a Manner, that he has often picked it off the Ground after they had eat as long as they could; And likewise that he has been ordered to turn out the Trustees Horses without Corn, and that Strangers Horses were fed with that Corn, for which Barker receiv'd Payment, as also for what Provisions such Strangers themselves eat; And the said Heldt confidently believes that the said Hoggs and Fowls eat as much as, or more Corn than the Trustees Horses; And also sais that notwithstanding the Trustees Horses had been with-

out Corn for three Weeks or a Month past, the said Barker conceal'd Corn in private Places for his Hoggs and Fowls; And farther that the said Barker sold Provisions to sundry Persons to carry them on their Journeys, as likewise to Indians by Way of Exchange for other Things.

This Board deferr'd the farther Consideration of this Affair to another Meeting.

M^{rs} Camuse attending this Board by Order, the President read to her the Paragraph of the Secretarys Letter relating to

the Silk Manufacture, and it being thought Matter of Consequence; A Coppy of the Same was ordered to be deliver'd her for her farther Consideration; that She might be enabled to give a proper Answer thereto.

Simon Morris petitioning this Board for a Town Lott in Lieu of his Lott at Hampstead, which is all Pine Barren and unfit for Cultivation; the Lott N° 2 in Vernon Tything in Heathcotte Ward is hereby ordered him.

The President now acquaints this Board that he had appointed James Anderson Tythingman in the Room of Thomas Ellis lately discharged from that Office.

The Board resumed the Affair relating to Barker at the Cowpen, and took the Examinations of Christian Rump and Henry Miers two other Servants belonging to the said Cowpen; which are as follows; Viz.

The said Christian Rump declares, That the Corn sent up for the Trustees Horses was frequently disposed of by Barker in feeding his Hoggs and Fowls, and whenever the Corn grew short, He concealed it for feeding such Hoggs and Fowls; and left the Trustees Horses to shift for themselves, which by Degrees reduced them to such Poverty as rendered them incapable of any Service; And the said Rump farther saith, That he verily believes, if the Steers (which from Time to Time were hunted up) had been kept together, that there would have been near four hundred fit for Slaughter.

The said Rump being also examined touching the Number of Cattle the said Barker might have or claim to have at the said Cowpen; declares, That the said Barker claims four breeding Mares, but that he has bought only One, since this Examinant lived with him, being nigh four Years: That the said Barker some Time agoe bought two Mares for himself; but M^r Thomas Jones hearing of it, paid Barker the Money for them, and ordered them to be branded with the Trustees Brand, notwithstanding which, Barker has branded a Colt of one of those Mares with (G L) being one of the Brands he has for his own private Use; That the said Barker formerly bought a Cow of one William Clay, which Cow was never brought up nor any of its Increase, but that Barker last Year branded two Calves of the Trustees in Lieu of the Increase the said Cow was supposed to have had.

Henry Miers declared, That the Corn provided for the Trustees Horses was frequently given to feed Fowls of which there were in Number about three hundred, as also the Hoggs in Number seventeen, And whenever the Corn grew short, He privately concealed it, and denied the Trustees Horses their Food, whilst Barkers Fowls and Hoggs never missed being fed; The said Henry

Miers farther deposeth, that the Rice which has been sent up for Provisions for the People was oftentimes and generally given to the Fowls and Hoggs, especially when the Corn fell short. Strangers also that pass'd that Way were supplied with Provisions whilst they staid there, and likewise took some with them at their Departure to carry them on their Journeys, for which Barker receiv'd Payment; And this Examinant farther saith, that Strangers have usually rode the Trustees Horses to Ebenezer, and other Places; And that He with the Rest of the Men there, have lain idle so long that they have been weary of it, and have requested the said Barker that they might go out after the Cattle, but that Barker would not let them under Pretence of his having no Orders; And lastly this Examinant saith, that had the Steers been kept together, which from Time to Time had been hunted up, there would have been three or four hundred fit for Slaughter.

The said Miers being also examined touching Barkers Claim of Cattle on the said Cowpen, declares, That the said Barker told him this Summer that he had upwards of thirty Head of Cattle.

After having gone thrô the several Examinations aforesaid, Barker himself was sent for, to hear what he could say in his own Defence, as also what Reason he could give for keeping a Stock of Cattle of his own upon the said Cowpen, knowing it to be contrary to Express Orders given him when he enter'd on that Service: The Whole of what he could say was either so equivocating or notoriously false, that no Regard was to be had to it: But it was the unanimous Opinion of all present, that the said Barker should be immediately discharg'd from any farther Service relating to the Cowpen, that he might have no Opportunity of doing the Trust any farther Damage, and that neither He nor his Wife should presume to return back to the said Cowpen, 'till a proper Person was appointed to be there to take Care he took Nothing off the Premises, but such Household Goods only, as it might appear he had an unquestionable Right to. And whereas the said Barker had divers Times petitioned for a Grant of five hundred Acres of Land to settle upon near to the said Cowpen, which had been refused him: It was now farther resolved that the said

Barker should no Lands whatever in this Colony within the Distance of one hundred Miles of the Trustees Cowpen.

Whereas the Honble Trustees by their Secretarys Letter dated the 10th of May last, have resolved that the Allowance of a Cow. Calf, and Sow to each Man, and the usual Working Tools, and eight Pence a Day to each Man, and six Pence a Day to each Woman for twelve Months be granted to all Servants in the Colony indented for four Years and not under, at the Expiration of their Service, and upon its appearing to the President and Assistants that the Terms of their Service were performed; provided they be diligent in the Cultivation of their Lands. And the Trustees in their said Letter farther signify "That least the Improvements "which have been made on the Trusts Forms should run back-"ward or be wholly lost, They think that in Consideration of "twelve Months Allowance being made to Servants (not in the "Service of the Trust) it is reasonable, and should be stipulated, "that such Servants should give the Labour of one or two Days "in the Week, as the President and Assistants should think prop-"er, to keep up the said Improvements 'till the Farms are other-"wise disposed of." And whereas several Servants who have faithfully served their full Time of four Years in this Colony (thô not in the Service of the Trust,) have now petitioned this Board, that the said Allowance be granted to them in like Manner as to the Trusts Servants; But the Condition on which they are to receive the Same, appearing to Us to be impracticable by Reason of their distant and various Situations from the Trusts Farms; And We being also apprehensive their Number will exceed the present Run of Cash; (the Allowance now paid to Servants amounting to upwards of forty Pounds \(\mathbb{P} \) Month;) Therefore We think it incumbent on Us (of how great Utility soever We know such Allowance will be to the Colony) to postpone putting such Directions in Execution, 'till We can be more fully enabled and instructed therein.

Whereas at a Meeting of this Board on the 30th Day of September last M^{rs} Camuse was sent for and the Paragraph of the Trustees Letter (from the Secretary of 10th May last) relating to the Silk Manufacture read to her and a Copy thereof ordered to be made out that She might be enabled to give a regular Answer thereto. Now at this Board the said M^{rs} Camuse being again Sent for came and delivered the following Answer in Writing (Viz^t)

To the President and Assistants of the Colony of Georgia.

Gentlemen

I sometime ago delivered in my Proposals for carrying on the Silk Manufacture to the President in Order to be transmitted to the Honble Trustees but have not yet received any Answer to the same As to the Trustees having Estimated only £60 P Ann for carrying on the Silk Manufacture I apprehend that to have been done before my Proposals reached their Hands and therefore don't think it necessary to trouble them any farther until I have their Answer to the said Proposals.

I am Gent Your most Obed^t and Humble Serv^t.

(Signed) GIACOMO LOVIGIO CAMUSO

Whereupon we came to a Resolution to ask her the following Questions

1st Whether She would Accept of the estimated Salary of Sixty Pounds a Year 'till an Answer can be recd from the Trustees to her Proposals?

To which Question She Answered, That the General (being one of the Trustees) had allowed her in Mony and Provisions to the Amount of One Hundred Pounds a Year, and therefore She would Accept of nothing less.

She then was Ask't, Whether She would Undertake and proceed in Instructing in the Silk Manufacture such as Should be put to her by the President and Assistants and receive Mony on Account (as heretofore) till an Answer could be had from the Trustees?

To which She Answered; That she would take two or Three such as We should send and teach them the Art of Manufacturing Silk, but that She would Accept of no pay for Instructing them 'till She had an Answer from the Trustees to her former Proposals, And that She would receive Mony on Account (as heretofore) and no otherwise

And We maturely Consulting how much the Silk Manufacture might possibly suffer by her Obstinacy, And knowing the Trustees had the Success of it very much at Heart, and deservedly so, Thought it the least Injurious to the Trust that we complied with her at present althô we thereby gave way to her perverse Temper Rather than hazard the loss of a Manufacture always designed by their Honours as a Staple of the Country.

At this Board a Petition was presented by John Williams Setting forth that he purposed forthwith to bring from Virginia Sundry Families to Settle in this Colony, and being desirous to Settle them on Lands on the South Side of great Ogechee River, Therefore humbly requested that we would please to Grant Six Thousand Acres of Land for that purpose lying in manner following (to wit) Four Thousand Acres from a Small Creek above the Elbow of the said River and to run down the same, the other Two Thousand Acres joining to Lands called Sterlings and to run from thence up the said River Ogechee, And We taking into Consideration the contents of the said Petition and knowing that General Oglethorpe had long since engaged with the said Williams to Settle a Quantity of Lands on the South Side of the said River Ogechee Came to a Resolution that Six Thousand Acres of Land should be reserved on that place for the said Williams and such Families as he shall bring over to be run out from time to time as they shall want to Settle the same.

The Rev^d M^r Bolzius petitioning this Board for Some Assistance for Doc^r Thilo the Physician at Ebenezer who he inform us is in a very low Condition of Life, And We having recourse to a Letter from the Trustees Accountant to the said M^r Bolzius of the 2^d August 1742. wherein the Trustees express their desire of allowing the said Thilo Something towards purchasing Provisions, Did Order that the Sum of Five Pounds Sterling should be paid to the said Doc^r Thilo for his present Subsistance until the Trustees shall be pleased to Allow him a Stipulated Maintenance or give us their further Directions therein.

Whereas at a Meeting of this Board on the 11th Day of October last Joseph Barker the Trustees late Cowpen keeper was for many notorious Misdemeanours therein Set forth discharged from all further Service at the said Cowpen, And it being evident to Us as well from the report of Mr Marcer as our own knowledge that unless some discreet Person capable of such Business should be forthwith found out willing to enter thereon The Trustees must be great Sufferers by such Neglect who otherways might find more than an Equivalent Benefit to be Set against their past Expences, And one Christopher Hopkins a Man personally known to Us, and reported to be perfectly well Skilled in such Affairs, being Sent for now offered himself to this Board, And expressed great willingness to serve the Hon^{ble} Trustees at their said Cow-

pen We were Unanimous in Opinion that It was incumbent on us to embrace so good an Opportunity of Showing how much We had the Trust's Interest at Heart by preventing (as far as in Us lay) any future detriment to them by Abuse or Neglect in so important An Affair We therefore after mature Consideration came to an Agreement with the said Christopher Hopkins that he and his Wife should Live at the said Cowpen (in the Same Capacity Barker heretofore did) for One Year Commencing at Christmas next and to receive for such Service the Sum of Twenty five Pounds as the Trustees last Estimate Stipulates, And also to be Allowed during such time for himself and Wife Provisions in the Same manner as Barker had in the last Year of his time; And likewise that such Servants and other Necessaries for the use of the said Cowpen should be provided as from time to time should be reported to be wanting and judged needfull.

The petition of John Pye and John Dobell for Each a five Hundred Acre Tract of land between the Two Ogechee Rivers being presented to this Board Upon due Consideration being had to the Same and finding (Upon Recourse had to the former proceedings) that John Pye One of the present petitioners, did (in Conjunction with three Other persons) heretofore petition the Honble Trustees for a Tract of land On the Same point, which petition was then Rejected, We are of Opinion That it doth not become Us to grant them Such a Tract of land (Especially On that point) as well for the Reasons aforesaid as because it does not appear to Us that either of them are Capacitated to Cultivate and Settle such a Quantity of Land Therefore in pursuance of their Own Request We Refer the Said petition to the Honble Trustees Consideration.

Solomon Addie and ffrederic Nett applying to this Board for the Allowance given by the Trustees to all Servants Who have faithfully Served their Times by Indention in the Colony (tho not in the Service of the Trust) And it being Certified to Us that the aforesaid persons had duly Served their Times of four Years; Upon referring to the Minute of the 12th of October last It appears that we are not Yet enabled to grant their petition, but that they must Stand On the Same ffooting with Others in the like Circumstance till further Order from the Trust.

Joseph Barker the Trust's late Cowpen Keeper at Ebenezer petitioning this Board for leave to take from off the Range Sundry Horses and Cattle Which he claims to be his property but great Intricacy arising in the Affair it is postponed to the 25th Day of Jan⁷⁷ Next, When the Same is to be again resumed, and

a peremtory Answer given thereto; of Which We acquainted the Said Barker Ordering him to Attend and he promised so to do

Peter Beeler Who has for Some time past been in possession of a fifty Acre Tract of Land in the Village of Abercorn now petitioning this Board that the running out of the same might be compleated (Which has not Yet been done) An Order was accordingly sent to M^r Avery for that purpose.

It appearing by the Monthly Accounts that the Mony last issued is Expended, And the Quarters Salaries now becoming due; It is therefore Ordered that One Hundred and fifty pounds be issued for that and Other current Services.

The petition of Richard Cooper of Carolina for a Grant of five Hundred Acres of Land Near Abercorn being presented to this Board; He having Married Joseph Barkers Daughter we had reason to Suspect it was a Contrivance to Settle that ffamily there, and Elude the Resolutions of this Board, not to Suffer the Said Barker to have an Habitation in that Neighbourhood whereby he Might have Opportunity to annoy the Trust in their Intrest; Therefore it was thought advisable Cooper Should be aquainted that when he returned to this Colony with his ffamily in Order to Settle he Should be accommodated to Satisfaction.

It appearing by the Accounts that the Money last issued is Near Expended Therefore One Hundred pounds is issued for current Service (viz) fifty pounds for the Southward, and fifty pounds for this part of the province. Some farther Disputes arising between the Inhabitants of Acton relating to the Boundaries of their Lands The same were now brought before Us and easily adjusted forasmuch as they had been misinformed that they were likely to be injured in their Properties It being made appear to them that the Complaint was groundless they went to their Homes in Appearance well satisfied.

At a Meeting of the President and Assistants for the Colony of Georgia on Saturday the fourth Day of February in the Year of our Lord 1743/4.

Mra Camuse having presented to this Board a Bill due to the Apothecary for Medicines &c on her and her Family's Account requesting that we would order the Payment thereof The same was taken into Consideration and We, observing that her frequent Demands for Money were so extraordinary, were of Opinion that out of so much publick Money as She was constantly in Receipt of, She was much better enabled to pay such small Sums

than most People on the Town Therefore we thought it incumbent on Us to postpone such Payment untill we should receive the Trustees farther Orders relating to her and her Family.

At a Meeting of the President and Assistants for the Colony of Georgia on Monday the sixth Day of February in the Year of our Lord 17434

Whereas at a Meeting of this Board on the twenty third Day of December last Joseph Barker petitioned for Leave to take from off the Trustees Range at Ebenezer sundry Horses and Cattle which he laid Claim to as his own Property And we then came to a Resolution to give him a peremtory Answer thereto on the twenty fifth of last Month but other Business intervening the same could not be considered again before this Day When we met and took into Consideration the Justness of his Claim, and upon mature Deliberation and Inquiry into the several Circumstances attending it It was resolved that he had a just Pretence to one Cow, three Heifers, one Bull, three Mares and three Colts, but there were many more to which we judged his Claim was not sufficiently supported, Wherefore Orders were given to the present Cowpen Keeper to deliver the above and no other.

The Widow Keelor petitioning this Board for Relief She being in a very weak deplorable Condition and having a large Family of young Children We thought her a real Object of Charity and therefore ordered the three Shillings Week heretofore allowed Belligout's Son in Law (he being now able to do something for himself) be taken from Him and paid to Her till We shall direct the Contrary.

David Mountaigut petitioning this Board setting forth that in and before the Month of August last He did advance unto John Penrose of this Town Freeholder sundry Merchandize and Money to the Amount of two hundred Pounds Sterling to enable him to finish and compleatly fit out for Sea a Schooner he was then building in this River.

That for securing the Payment of the said Sum with Interest at ten 7 Cent the said John Penrose gave his Bond and also a Bill of Sale of the said Schooner upon Condition of Payment of the said Sum on the eight Day of August 1744 That the said Penrose regardless of the Bill of Sale so given is now loading the said Vessell with Rice in this Port for the Province of New York.

Therefore prays that this Board would issue their Warrants to stop the said Schooner from proceeding on this or any other Voyage untill Payment of the said Debt or Security Given.

Having heard all Parties concerned We were of Opinion forasmuch as the Intent of advancing that Money was to enable the said Penrose to proceed in the Way of Traffick with the said Schooner which gave Encouragement to him to employ his utmost Endeavours that no Time should be lost in fitting the said Schooner for the purpose designed And he having now brought that to Perfection and taken in her Loading to the Port mentioned in the said Petition And moreover offering (as a collateral Security) to mortgage his improved Lott in Savannah now lett at twenty Pounds Annum That should we so farr interpose as to stop the Vessell from proceeding on her Voyage it would be a manifest Injury both to the said Penrose and the Shipper of the Cargoe between whom there is a Charter Party dated the seventh of January last Whereas it yet remains a Doubt with Us what Damage could accrue thereby to the Petitioner in lessening his Security already given the aforesaid Sum of two hundred Pounds Sterling not becoming due till August next But it appears evident to Us that to stop the Vessell here till the two hundred Pounds became due (had She not a Loading on Board) would be oppressing the said Penrose in the most affecting manner by depriving him of the only means he has now left of getting his Bread Wherefore we judged it to be an Affair wherein we could not justly interpose so farr as to put any Stop to the Vessell's proceeding on her Voyage.

At a Meeting of the President and Assistants for the Colony of Georgia on Friday the twenty fourth Day of February in the Year of our Lord 17434.

The Petition of M^r John Barnard Commander of Mount Pleasant Garrison for the Town Lott N° 4 in the third Tything in the Lower New Ward (heretofore granted to Thomas Wiggin deceased) was presented to this Board And the said Petition was granted on Assurance that the Petitioner designed speedily to build upon and improve the same.

Whereas M^r William Parker on the fourth Day of March 1741 did petition the President and Assistants for five hundred Acres of Land lying contiguous to Lands of James Anderson the same was laid before the Honble Trustees for their Approval, but for Reasons then given, their Honours thought fit to deferr the Confirmation of it And the said M^r Parker having now again applied to Us for Liberty to settle thereon We having duly considered all Circumstances do condescend to his Request he being impatient to be upon it and make Improvements Which we know he is now much better enabled to carry on than heretofore.

The Reverend Mr Bolzius presented a Petition to this Board setting forth that he expected a great many of his Countrymen would flock to this Colony upon Invitation given them from Ebenezer and the Encouragement of the Trustees, and that they could not be settled there on Account that those already at Ebenezer were straitned for good Land Therefore prays that a large Tract on the Western Branch of Little Ogeechee River might be reserved and allowed as a Settlement for his People and their Brethren Which Petition appearing to be somewhat extraordinary he having therein set forth no certain Quantity of Land to be provided nor any Number of Families he expected to occupy the Same We were apprehensive it would be going a greater Length in disposing of the Lands in this Colony than became

Us to do either in Prudence or Equity But that Mr Bolzius should be acquainted that as soon as we were well informed of any of his Country Men being on their Way hither timely Care should be taken that such Lands should be provided for them as neither He nor they should have any Cause to object against either as to Situation or Quality And that in the mean Time the Trustees should be applied to for their farther Directions therein.

Mⁿ Camuse being sent for that we might inform ourselves in what manner She designed to proceed and whether or not She would accept of any young Women to be recommended to her pursuant to the Trusts Orders to be instructed in the Silk Manufacture on the Conditions by them proposed She appeared with a seeming Indifference about it, and after some Pause, said that she would be content to take two for that Purpose, but thought more would be rather an Incumbrance than of any Service to her or the Trust And as for what other Hands were wanting they would be such only as would be employed in gathering of Leaves; The two before mentioned being designed solely for attending the Care and feeding of the Worms and spinning the Silk till the whole Operation was gone through.

M' John Dobell delivering in a Paper to this Board wherein was set forth that he had been informed Mr Avery the Land Surveyor had taken upon him to resurvey the Village of Abercorn and altered the Original Lines thereof both in Side and Front and made a Road through the Middle thereof where before there was none And that the said Avery had also taken away a part of the Lands of one Person and given or assigned them to another Not having proper Orders for so doing. We sent for the said Dobell and Avery to enquire into the Truth of the said Allegations And after a long Hearing and examining into the Plan which Avery had some Days before delivered in to Us We could discover no Injury done to any Person who had Right or Property to any Lands of that Village As to Mr Averys not being appointed to survey the Same as alledged, Mr Dobell was mistaken, for such Orders had been given more than a Month since. And it further appeared to Us that the said Avery in his Re-Survey thereof had taken Notice of all the old Marks he could discover

whereof there were few extant by Reason that (two or three of the old Occupiers having deserted their Lotts for Years since) one Brodie arriving here from Scotland with a Number of Servants and no Lands then granted him to employ his Servants on, was permitted by Mr Causton to sit down for the present at Abercorn where he might find Room to plant a considerable Number of Acres joining together which had been formerly cleared but then lay Waste, which Offer Brodie accepted of and without any Regard to Fences or Boundaries planted those deserted Lotts in what Manner he pleased from whence arose the Necessity of the Re-Survey we had directed; which Avery took from the Original Center Stake yet standing in the Front of the Village And as for having made a New Road where there was none before It appeared to Us it could not be, for that without such Road being made there was no going to or coming from the Village but by Water. Upon the Whole we thought Avery justified in what he had done and that Dobell had troubled himself with what no Ways belonged to him, and which rather proceeded from an Enmity subsisting between them both.

PROCEEDINGS of the President and Assistants from the 24th of February 1743 Exclusive to the 28th of April 1744 Inclusive

At a Meeting of the President and Assistants for the Colony of Georgia on Thursday the Twenty Ninth Day of March in the Year of our Lord 1744.

After several Attempts to enquire into those Matters which the Trustees had directed us to inform them of relating to M^r Joseph Watson The Board met this Day principally on that Affair which We found so abstruse in every part of it that the Truth could not

easily be come at But having Recourse to the Trustees Resolution of the Sixth Day of September 1743. whereby we were directed "to examine if the ffive Hundred Acre Lott is possessed by "any Person for the said Joseph Watson and to send over a Copy "of the Survey and Register thereof and of what Appears to relate "to the perpetual Bayliffship And if the half of the Trust Lott "adjoining be possed by any Person and whom" As to the first part of the said Resolution We, upon the Strictest Inquiry cant' find that any Person whomsoever either on the said Watson's or their own Account have been in possession of the said Land for many Years last past but the same has been generally deemed and went by the Name of Watson's Land. Upon this Occasion We also sent for the Register Book where We could find no ffootsteps of any Entry made relating thereto Mr Dobel being asked what Information he could give Us therein, Said that he had heard of the said Watson's having such a Claim and Therefore Sent his Name to the Trustees in the List amongst other Claimants And whether or not the said Land had been Surveyed we could not positively inform our Selves, Mr Jones the former Surveyor not being at present in the way to be Spoke with by whom We apprehend it may have been done, As to the perpetual Bayliffship which he pretends to We could find no Grounds for any Such Title or Priviledge more than from his own extravigant way of talking which was generally esteemed the Effects of a disordered Brain And as to his further pretence of Claim to Two Hundred and Fifty Acres We do not find any Right in him thereto And it is to be Observed, altho' said by him to be Two Hundred and ffifty Acres part of a Trust Lott, It can be no more than One Hundred Acres, the whole Lott which was sometime since possessed and Occupied by one William Cooksey but by what Title we yet know not. As to the said Watson's Account amounting to Five Hundred and Eight Pounds Two Shillings Set forth in his Petition so far as we have been hitherto enabled to discover, it Appears beyond Measure extravagant; But we are preparing to give a full Answer to each Article of the same which can't at this time be done, the Persons by whom We must inform our Selves being at the Southward.

7 c r-vol 6

Mr Dobel the Register being sent for by Us relating to Watson's Affair made great Hesitation whether or not it was incumbant on him to lay any thing in his Custody as Register before this Board, putting the Question to the President "Whether he might not be blame-worthy for so doing? who, with the Approbation of the Board, gave him for Answer, That We thought our Selves intitled, when Sitting in Council, to demand the Sight of any Books or Papers relating to the Publick in whose Hands soever they were. His Unwillingness seemed chiefly to be founder on the Letter sent him by the Trustees Accountant dated the (1810)

Twentieth Day of May 1743. which he had in his Hand and especially referred to, wherein he is told "That proper fforms are to be sent him from England," And Therefore takes the Negative of those Words to be, that he is not to produce any of his proceedings to this Board nor consult with any except the Trustees themselves. Though (pursuant to another part of the said Letter) the said Dobel owned he expected the President to give him all the Assistance therein he could which at the same time he acknowledged had never been refused by him. Mr Dobel at taking Leave desiring a Minute might be made of what past relating to him We were obliged to make a full Narration of the whole which is the Occasion of extending the Entry to such a Length.

The Day being Spent all further Business was Adjourned till to Morrow Morning.

At a Meeting of the President and Assistants for the Colony of Georgia on Friday the Thirtieth Day of March in the Year of our Lord 1744.

Mr Joseph Watson not being Yesterday to be found came and appeared before the Board this Day when being desired to ex-

plain divers of those Articles recommended to our Consideration by the Trust and which had taken up our time Yesterday He said very little to support so many Claims as We had before Us for being particularly asked what Vouchers he could produce for such large Sums of Money as he had set forth (in his Account delivered in, to the Trustees in England) to have been expended by Him in Improvements &c. He very plainly Answered that he believed he could find many in the Colony who could Support it but he should not give himself that trouble for that he would Swear to the Truth of it himself to the best of his Knowledge; and who could contradict him?- And being further asked what Grounds he had for his Claim of the perpetual Bayliffship of Grantham and what he meant thereby, He answered that he looked upon it to be an Honorary Title which (in his Grant particularly, by his Request to General Oglethorpe) was to descend to the ffemale Heirs as well as Male in Vertue whereof he and his Heirs had the Authority of a Justice of Peace within the County And that should the said Place become a Town the intire Jurisdiction of such Town would be Absolutely Vested in his ffamily and not Subject to any other Jurisdiction This is the furthest we could go at this time in our Inquiry without getting the Information We are Seeking which (for the Reasons given in our Minute of Yesterday) must be deferred to another Opportunity.

A Letter from Mr Bolzius to the President dated the Twenty Seventh Day of this Month was read wherein he recommended a Man for a Licence to keep a Publick House in Ebenezer and also in the same Letter desired that we would appoint a Constable for the said place (which We our Selves had been of Opinion for some time past would be requisite for preserving the Peace &c.) both which Requests we readily concurred in upon his Recommendation of the Persons Sobriety and Capacity. But Mr Bolzius in the latter part of his Letter making the following Request We thought proper to recite it Verbatim "I beg humbly to know "whether I have any power at our place to prevent Disorders and "Wickedness which indeed will increase if the People under my "Care are imbibed with that Notion that my Self and Mr Gronau

"have nothing to Say or to decide in Secular Affairs and that any "complaint against me would be heard by our Superiours. I can "assure you I am at Nothing else but at the True Spiritual and "Temporal Welfare of our Inhabitants which I will endeavor to "promote as long as the Honourable Trustees are pleased to let "me have power in Hand necessary for Obtaining the said end "as they have generously done in the past Time. I beg the honble "Boards Resolution in this matter as soon as it stands with their "Conveniency and you will Oblige him who is &c.—

We looked upon this Request of M^r Bolzius to be a very Weighty Affair And therefore thought it a Duty incumbent on Us to refer it (as we do) to the Honourable Trustees.

In pursuance of M^r Bolzius's Recommendation of Thomas Bichler's Sobriety and Capacity of Executing the Office of Constable the said Thomas Bichler is hereby Approved Off and Appointed.

At a Meeting of the President and Assistants for the Colony of Georgia on Friday the Thirteenth Day of April in the Year of our Lord 1744.

Gilbert Fyffe Practitioner in Physick petitioning this Board for a ffifty Acre Lott in Augusta now vacant and being recommended by Captain Richard Kent as a useful Man in that place The same is Granted to him.

M^r Joseph Watson attended this Board when Copies of his Accounts with the Store were delivered him other Copies whereof will be transmitted to the Trustees by the next Packett.

This Board receiving a Letter from the Reverend Mr Bolzius setting forth (amongst other things) that the Twenty ffamilies of Saltzburghers who came over in December 1741 were to be Supplyed by the Trustees Orders with a Cow and Calf each And

that only Six of the said ffamilies had received them Therefore requesting that the other ffourteen ffamilies might be Supplyed in like manner Whereupon We thought proper that M^r Bolzius be wrote to, to inform Us the Names of those Twenty ffamilies and who are the Six provided with the said Cows and Calfs.

Whereas at a Meeting of this Board on the Twenty fourth Day of ffebruary 1742 a Young Lad Apprentice to Thomas Bayley was appointed to Set the Psalm Tunes in Divine Service for which he was Allowed Ten Shillings a Quarter during the Absence of Thomas Lee the late Clerk who was then in Publick Service at the Southward But the said Thomas Bayley has since Sent Word to the President that unless his Apprentice was Allowed the whole Salary of ffive Pounds a Year he would not let him officiate any longer And the said Thomas Lee being returned to this place Married and Setled on a Lott lately Granted him and requested to be reinstated in the said Office We thought it would be doing a greater Good to Grant his Request who is a Sober hard Working Man than to give the Salary to the said Bayley's Apprentice which We well knew the Lad himself would have no Good of the Master taking, what was Allowed before, to himself Whereupon the said Thomas Lee was again appointed into the Office of Clerk and injoined to do all Duties thereto Appertaining.

At a Meeting of the President and Assistants for the Colony of Georgia on Friday the 27th day of April 1744

Whilst this Board was Sitting Information was brought that Joseph Watson had for some Days past carried on a Trade with the Indians not having a Licence for so doing contrary to the Act for maintaining Peace with the Indians And Mr Watson soon after Appearing here was then cautioned and forbid by the Presi-

dent (being Commissioner for Granting Licences within the said Colony) to Attempt any thing of that kind for that by his persisting therein he would lay himself lyable to the Penalties inflicted by the said Act and that it Appeared to Us not improbable but that the Person who laid this Information before Us might (for what Watson had already done) insist on having an Action against him for the Penalty.

Adjourned till to Morrow Morning.

Saturday 28th April 1744.

The Board again met upon an Affair of Mr Joseph Watson which had taken up most of their time Yesterday and related particularly to his Accounts with the Trustees Store Copies whereof had been some time before made out and delivered him pursuant to the Trustees directions against which Watson now delivered a Copy of his Demands on the Trustee It would be too tedious here to enter into a Detail of the whole that past So that We have Ordered Copies of all Accounts as well Debtor as Creditor between the Trustees and said Watson to be made out together with like Copies of some other Proceedings that the same may be laid before their Honours whereby We Apprehend they will be throughly enabled to determine the Justness of Watson's De-

mands upon them.

At a Meeting of the President and Assistants for the Colony of Georgia on Tuesday the Twenty Ninth Day of May in the Year of our Lord 1744.

The Board met this Day when Several Affairs of the greatest Consequence fell under their Consideration more especially relating to the Distress this Colony was at present in which ended in fruitless Debates and would Admit of no immediate Determination Wherefore the further proceedings therein was Adjourned to another Meeting.

At a Meeting of the President and Assistants for the Colony of Georgia on Saturday the Ninth Day of June in the Year of our Lord 1744.

The Petition of James Grant praying a Fifty Acre Lott at a Place called Half Moon Bluff on the Island Skidoway being presented to this Board was taken into Consideration And We knowing the Petitioner to be an industrious hard Working Man and having also Served his Time in this Province with the President the same was Granted him.

The President having received Notice of Appeal from the

Clerk of this Board (who through Illness was unable to Attend in Person) in a Cause Tryed at a Court held on the first Day of this Instant June between Abraham Minis Plantiff and Samuel Clee Defendant in an Action of Debt wherein a Verdict was given for the Defendant And the said Abraham Minis now Attending and Entering into Bond with Two Sureties to Answer all Costs and Damages that may Attend such his Appeal The same was Allowed of pursuant to the Trustees Instructions.

At a Meeting of the President and Assistants for the Colony of Georgia on the Sixteenth Day of June in the Year of our Lord 1744.

A Petition was Delivered to this Board by Samuel Clee Defendant in the Cause wherein Abraham Minis is Plaintiff desiring a Copy of the Record in the Said Cause and Several other things in the said Petition Set forth which could not be at this Time fully Answered And the said Clee being going out of Town Acquainted us that he had Appointed William Woodrooffe his Attorney to receive (for him) our further Sentiments upon the Matters contained in the said Petition.

M^r Bolzius applyed to this Board Setting forth that the Trustees prsented their Congregation with a Dutch ffamily consisting (810)

of a Man whose Name is Hans Michael Sneider his Wife and Two Boys That the Man being ffree took his Eldest Son to him And now has also taken the other Son And desiring our Opinion whether it is Lawfull for him to do it And upon our Consulting thereon and finding that the Trustees had made a present of the ffamily without its Appearing to Us that any Consideration had been paid whereby the Trustees property was altered We were of Opinion that those Two Boys were equally intituled (with the

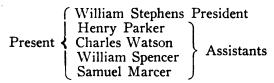

rest of the Trustees Servants) to their ffreedom with their Parents pursuant to the Trustees Direction for Encouragement of the German Settlers.

At a Meeting of the President and Assistants for the Colony of Georgia on ffriday the Twenty Second Day of June in the Year of our Lord 1744.

The Widow Sturtz applying to this Board for Relief She having a large ffamily and nothing to Support her 'till her Harvest is Ripe We perceiving her to be in great want and an Object of Charity And Whereas the Colony has been for some Months past without Money and entirely Supported on the Credit of the Estimate by Retailers of Stores within the Place Ordered that Provisions to the Amount of Twenty Shillings be given her on the aforesaid Credit.

M' Habersham Merchant of this Place Acquainting this Board that he intended to remove his Stores to Charles Town for the Satisfaction of his Creditors and for the better Security of the said Goods from the Enemy in the time of Danger And he having a Quantity of Provisions by him which We judged might be very necessary for the Support of this Place in Case of Necessity Upon his Offer it was agreed with him to take so much into the Trustees Stores as we conceived might answer the Distress of the Inhabitants in Case the present designed Invasion Should take Effect And William Russell the Clerk of the Stores was directed to Enter down the particulars of Stores so delivered and lay the same before Us at our next Meeting.

At a Meeting of the President and Assistants for the Colony of Georgia on Saturday the Thirtyeth Day of June 1744.

Whereas on Thursday Morning last between two and Three of the Clock John Wright (one of the Tythingmen) David Snook and John Bond (an hired Servant to the Widow Emery) coming to the Guard House, the said John Wright and John Bond being in Disguise and not then known, did intrude themselves on the Guard and pretended to be an Express come from Charles Town and that they had brought Letters of Importance for the President: Which passed as a current Truth, and, had not the Cheat been timely discovered, had certainly been a means of Sowing such Jealosies and Discontent amongst the Inhabitants as might have been of the most destructive Consequence We being at this time in Daily Apprehension of the Enemy's Approach; for it began immediately to be buzzed among them that the President had received an Express in the Night the Contents whereof were too bad to be Communicated And that he had Sent the Messenger back immediately least the same should be blown by him. But the said Snook, being known to the Century, on Examination dis-

covered the Whole And ffriday Morning being Muster Day the said Wright was Ordered into Custody by Mr Stephens (the Commanding Officer) at the Head of the Ranks, and like Orders were given for Apprehending the said Snook and Bond.— In the Afternoon there was a Meeting when Depositions were taken concerning the ffact before the Magistrates; The Delinquents who were all there, in their Defence, did not pretend to deny the Charge, only said that they had no ill Design in what they did. The said Wright (who Appeared to be the principal Contriver and Actor in this Affair) during the whole Examination behaved

with the utmost Impudence and Insult to every one present, And being told by the Magistrates, that what he had been guilty of was so notorious in him as an Officer of the place, that they should request M^r Stephens to take his Commission of Tythingman from him; He replyed, he wished he had spared them the Trouble, and immediately produced and resigned it.

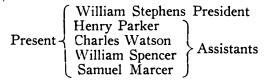

On this Day the President and Assistants Meeting in Council the said Wright was again Sent for, and Asked Whether he had got Sureties for his Appearance at Court and good behaviour in the mean time; He replyed No, neither did he think he had been guilty of any thing to require it; His Behaviour here also was so Monstrously impudent that the Board came to a Resolution; in Case he should be found guilty of the said Misdemeanour by the Grand Jury at the next Court, to dispossess him of the Office of Goal Keeper and Messenger of this Board (both which places he likewise holds under the Honourable Trustees) which he was informed of and seemed little to regard. Herein We doubt not their Honours Approbation for sure no one can be thought worthy of their Commission who is capable of so violently insulting their Authority: And the Magistrates moreover were obliged to commit the said Wright to Prison he peremptorily refusing to give Sureties as aforesaid, which the said Snook and Bond complied with.

PROCEEDINGS of the President and Assistants for the Colony of Georgia from the thirtieth Day of June 1744 exclusive to the fourteenth Day of August 1744 inclusive.

At a meeting of the President and Assistants for the Colony of Georgia on Thursday the twelfth Day of July in the Year of our Lord 1744.

John Wright having been found guilty of the Misdemeanours mentioned in the Minute of our last Meeting by the Grand Jury for this Town and County, the President and Assistants now met in Order to appoint a Goal Keeper in his Stead when Thomas Young One of the most antient Inhabitants and Freeholders of this Town and an industrious hard working Man petitioned for and was proposed as a Person deserving the said Office And the said Young being sent for, the Duty of Goal Keeper was strongly set forth to him, who promised faithfully and carefully to discharge his Office and desired the Continuance of it on no other Terms than his strict Performance Whereupon it was thought fit to commit the Care of the Prison to him, hoping the Trustees will approve and ratify the Same.

At a Meeting of the President and Assistants for the Colony of Georgia on Friday the twenty seventh Day of July in the Year of our Lord 1744.

James Papot complaining to this Board that some few Days ago he went to Mr Dobell the Register to search for the Entry of his Claim to Lands (Viz) the House wherein he now lives in Sloper Tything Percival Ward with the Garden Lott and Farm Lott thereto belonging, but that the said Register informed him no Registry had been made thereof And the said Mr Dobell being sent for to answer the Complaint, informed Us that he had no Book wherein he had registered the Claims of any Person whatever and that the Original Draft of Persons Claims which he had lately sent to the honourable Trustees he had by him only on broken Pieces of Paper. This Information of Mr Dobells could not but give Us great Uneasiness having long known how anxious People in general are to have their Proporties registred and ascertained Though we could not expect any regular Proceedings would be produced by him before Us He having from the first of his being appointed to that Office carried on the same in a shy secret and clandestine Manner without ever consulting the President thereon (altho expressly recommended to it by the Trust) nor any other of this Board either separately or jointly who were ever ready and willing on Application to give him all the Assistance they could. What Views or Designs M^r Dobell may have it is not for Us to determine but even now and at other Times being seriously talkt to on this Subject he has always discover'd a great Indifference to every Thing we could say.

At a Meeting of the President and Assistants for the Colony of Georgia on Tuesday the fourteenth Day of August in the Year of our Lord 1744.

The President having communicated to this Board a Letter received on the eleventh Instant from the Trustees and dated the eleventh of February last, with which he received five hundred Pounds in Sola Bills; The Board thereupon was of Opinion That were the Whole to be now immediately issued it would not be more than sufficient to discharge the Salaries to Mid Summer last; wherefore They thought it best to order only two hundred and fifty Pounds to be issued at this Time to discharge all Salaries in this part of the Province to Lady Day last, hoping that e're Occasion may oblidge them to issue the Residue of the five hundred Pounds; a farther Supply may enable them to discharge all Salaries and Accounts to this present Time.

The President also communicating to this Board a Letter received from Mr Secretary Martyn dated the eleventh of February 174¾ wherein He says "The Trustees are of Opinion a Licence "should be granted Joseph Watson to trade with the Indians at "Yamacraw if no material Objection thereto and if any Objections such must be sent over for the Trustees Consideration" And the Commissioner taking Occasion from the Meeting of this Board to advise with the Assistants relating thereto The following were thought sufficient Reasons for at least postponing the granting a Licence 'till the Trustees Answer could be had.

Firstly. That the Place he desires to trade in is no Settlement of Indians as it was when he traded there before.

Secondly. It being so very nigh the Town (not half a Mile Distance therefrom) that great Disturbances and Annoyances happen to the Inhabitants from the Indians getting drunk and break-

ing open Houses and other Enormities as have been too frequent Also that the Situation being so nigh the Trustees Store, the Indians are continually haunting and thereby are of greater Expence to the public than otherwise would be.

Thirdly. That 'tis not two Months ago since the Indians in a drunken Frolick knockt out the Brains of One of their own People in the publick Streets and We are fearfull such Mischief and violent Proceedings may encrease by their being suffered so nigh the Town to the Terrour of the Inhabitants.

Fourthly. That from the well known Disposition of Watson and his former Proceeding He is looked upon as One of the most improper Persons in the Colony to carry on a Trade with the Indians, his Life being in Danger to this Day for Disturbances he has formerly made among them.

Fifthly. That the said Watson in Defiance of all Power does now carry on an Illicit Trade with the Indians at his Plantation called Grantham althô strictly forbid particularly at a Meeting of this Board on the twenty seventh of April last.

Sixthly. That should a Licence be granted for Watson to trade any where near this Town, the Same will clash with the Licence granted by James Oglethorpe Esq^r the other Commissioner to John Musgrove deceased which Licence is now enjoyed by M^{re} Bosomworth late the Widow Mathews before that the Widow Musgrove And by rekindling the Animossities that have always subsisted between Her and the said Watson may occasion perpetual Uneasiness among the Indians from whence fatal Consequences may be apprehended.

Which Reasons are humbly submitted to the Honourable Trustees.

It appearing by the said Letter from M^r Secretary Martyn that the Trustees have removed John Pye from the Office of Clerk to this Board and appointed Nicholas Rigbye in his Stead; the said Nicholas Rigbye took his Place this Day as Clerk. PROCEEDINGS of the President and Assistants for the Colony of Georgia from the fourteenth Day of August exclusive to the first Day of October inclusive in the Year of our Lord 1744.

At a Meeting of the President and Assistants for the Colony of Georgia on Tuesday the twenty eight Day of August in the Year of our Lord 1744.

The Money lately issued being applied to the Purposes mentioned at our last Meeting We find it necessary that one hundred and fifty Pounds more should be issued to bring up the Estimated Expences to the same Time.

Whereas for the Ease and upon the Petition of the Inhabitants of Augusta, the Magistrates of Savannah did heretofore (so farr as in them lay) invest Captain Richard Kent of Augusta aforesaid with Power to grant Warrants there for any Sums whatever He returning to Savannah Court all such as he should grant for above the Sum of forty Shillings Sterling to be here determined and all such granted for forty Shillings or under were to be determined at Augusta by himself and two or three of the principal People in the Place according to the Custom of other Parts of America And the said Richard Kent now acquainting this Board That the aforesaid Power was not sufficient to answer the Intent for which it was granted the Same being limited to so small a Sum as forty Shillings Whereas the Distance between Augusta and Savannah being at least one hundred and fifty Miles, no Person could pretend to come to Savannah to prosecute their Suit, althô the Debt should amount to ten Pounds Sterling: And the said Richard Kent requesting that we would enlarge the aforesaid Power and that he might hear and determine to the Amount of forty Pounds Sterling He was answered That no such Authority was vested in Us but in Regard that the aforesaid Power had been of some Years standing amongst them and the Inhabitants might be detrimented by its now ceasing: We so farr as in Us lay, consented to continue the Same till the Trustees Pleasure can be therein known but that it would be entirely left to their Honours either to enlarge, continue or abrogate it: Though we are very sensible that the People would be in a wretched Condition could they not get Redress without coming to Savannah on every Occasion: therefore humbly recommend it as worthy the Honourable Trustees Consideration.

At a Meeting of the President and Assistants for the Colony of Georgia on Friday the fourteenth Day of September in the Year of our Lord 1744.

Isaac Brabant and bettieve the Latter.

Petitioning this Board to have each of them a Lott in this Town N° 5 in La Roche Tything Heathcotte Ward is granted to the former And N° 7 in the second Tything in the Lower New Ward is granted the Latter.

The Money last issued being expended Twenty Pounds more is now ordered to be issued to defray sundry petty Expences.

At a Meeting of the President and Assistants for the Colony of Georgia on Saturday the twenty ninth Day of September in the Year of our Lord 1744.

The President communicating to this Board a Letter which he received from Mr John Calwell One of the Magistrates of Frederica dated the fourteenth of this Instant, wherein the said Mr Calwell makes a Computation of a certain Sum of Money due to him for Salary for near three Years past and demanding Payment of the Same upon Sight to Captain Patrick Mackay or Order; the Board thought it an extraordinary Proceeding in him to make such a peremptory Demand without first at least consulting Mr John Terry appointed by the Trustees to correspond with this Board, and to adjust all Accounts relating to the Trust at Frederica; moreover the said Demand exceeding the Time to which all Payments were made at Savannah during the present Scarceness of Cash; It was thought proper to postpone it and that Mr Calwell should be acquainted that 'twas their Intention to discharge all Salaries in that Part of the Province as soon as they are enabled so to do.

Captain Adam Mackdonald petitioning this Board for a five hundred Acres Tract of Vacant Land upon the Island Wilmington The Board was of Opinion that such a Tract may be granted and run out for his Use hoping the Trustees will ratify the Same.

There being a present urgent Occasion for some Bills to be issued for Publick Service It is resolved that the Sum of thirty Pounds be issued being as much as could be well spared at this Juncture.

At a Meeting of the President and Assistants for the Colony of Georgia on Monday the first Day of October in the Year of our Lord 1744.

Mr Joseph Avery petitioning this Board setting forth that the Trustees had granted him five hundred Acres of Land on the South Side of Great Ogeechee River, and desiring that he might have a Warrant from this Board for running out the Same according to the Trustees Order and Directions to him as Surveyor for running out all Lands in the Province; Upon which we had Recourse to the Trustees Letter from their Secretary of the tenth of May 1743 wherein are the following Words "That he (Mr "Avery) desires a Grant of five hundred Acres of Land on Great "Ogeechee River which the Trustees will have no Objection to "if the President and Assistants shall find that he performs the "Duty of his Office and will be willing and able to cultivate the "Same." Whereby we find the Trustees did not give him Leave to have Lands particularly on the South Side of Ogeechee neither did they give the said Avery any Directions (as Surveyor) for running out the Same: And as there are several Conditions uncomply'd with contained in the said Letter on which only we apprehend he was to have the Lands: Therefore we are oblidged to referr it untill we can have a satisfactory Account how the Lands so petitioned for by the said Avery are bounded; there having lately been a Reserve made of six thousand Acres of Land on the same Side of the River for divers Persons, of whom several are now settling.

M^r John Barnard petitioning this Board for five hundred Acres of Land upon Wilmington Island In Consideration of his having been long settled in the Province and looked upon to be a Man of good Qualifications The Board consents to his Request hoping the Trustees will confirm the Same.

John Browne applying to the President for some Wearing Ap-

parel for the Winter: The Board now met, In Consideration of his Poverty, do order the Sum of forty Shillings to be laid out for him in Cloathing.

The President informing this Board that the Rev^d M^r Bolzius had made frequent Application to Him for sundry Iron Work and Tools belonging to the Saw Mill formerly built at Old Ebenezer: The Board now met taking the same into Consideration are of Opinion (That forasmuch as the said Saw Mill has lain in a ruinous Condition for some Years, and there is no Prospect of its being rebuilt there any more whereby the said Iron Work and Tools are subject to great Decay by Rust and otherways And the said Mr Bolzius with his People being intent upon erecting a Saw Mill on a commodious Creek within the Precincts of New Ebenezer which they are now actually at Work upon but under insuperable Difficulties how to provide proper Materials in Iron Work for Building & such other Utensils as are necessary for working the said Mill when built) it will be a saving to the Trust to dispose of the said Iron Work &c belonging to the said Saw Mill rather than let it lye in the wasting Condition that it now is, for which Reason we think it may be put to very good Use by disposing of the Same to Mr Bolzius for the present Purpose it may be converted to in the Saw Mill He is now building On this

Condition That all the Iron Work consisting of Solid Parts be taken an Account of by Weight And all Saws, Tools, & other Implements thereunto belonging be taken an Account of by Inventory specifying the several Uses they are for. And Mr Bolzius having signified to Us that he had applied to the Honble Trustees for a Grant of the Same: We conceived that upon our laying an Account of the said Materials before their Honours they would be enabled thereby to make some Estimate of the Contents of the Whole, and from thence determine whether they will set any and what Value upon them.

Thomas Ellis petitioning this Board That he might officiate as Surveyor (that Office being now Vacant by the Death of M^r Joseph Avery) until the Trustees should be pleased to appoint another We are of Opinion That forasmuch as the said Thomas Ellis has been an old Settler in the Colony and formerly usefull to the Trust on divers Occasions in the Way of Surveying before M^r Avery's Appoinment, it would be just in Us to make Use of him occasionally as Need requires in the said Service during the Trustees Pleasure as aforesaid.

At a Meeting of the President and Assistants for the Colony of Georgia on Tuesday the thirtieth Day of October in the Year of our Lord 1744.

The President having communicated to this Board sundry Letters &c received from the Honble Trustees Accomptant the twenty seventh Instant among which was the Value of eight hundred Pounds and Sola Bills: We found that by Reason of the long Arrears due there was an indispensable Necessity to issue at least one half of the said eight Hundred Pounds immediately for the Satisfaction of many People who are grown very importunate with Us for their Due It is therefore ordered that the Sum of

four hundred Pounds be issued towards defraying the Salaries & other Expences to Mid Summer last.

Mr Joseph Hunter petitioning this Board for One of the fifty Acres Lotts lately occupied by the Trusts Servants for their Use The Same is referred for farther Consideration Being apprehensive least it should appear that they have been designed for other Uses.

At a Meeting of the President and Assistants for the Colony of Georgia on Tuesday the sixth Day of November in the Year of our Lord 1744.

The President and Mr Spencer making Report to this Board That they had been a few Days since to visit M^{rs} Avery after her Husbands Death they took Occasion to demand of her the Delivery of such Plans and all other Papers and Materials whatsoever as were in her Hands the Property of the Trust and in particular that Plan which her Husband had lately made of a large Tract which included great part of the Country from the River Ogeeche in the South, Northward as farr as the Lands belonging to the Town of Savannah and Westward as farr as Ebenezer, but they were very much surprized to meet with a Refusal from her; who after all the Perswasions they could use declared positively that She would take due Care of it herself and keep it safe in her own Custody or in some Friends of Hers, She farther said that She had already wrote to the Trustees thereon acquainting them with her mournfull State hoping they would consider it and be so good to make her a Present that might be of Service to Her and her Family for that the Warr being likely to continue She had little Prospect of receiving any Benefit of printing it yet a long while, and in the mean while She must suffer Hardship for the Want of it, She was then asked if it was not reasonable for the Trustees to expect that the Plan should be delivered into the Custody of the President and Council here and whether or not she thought it would be as safe with them for the Uses intended as with any other Person whom She confided in To all which She gave no other Reply but that She was resolved not to part with it to *thcm* 'till such Time She had received Orders from the Trust for so doing.

Upon this Report the Board sent a Messuage to Mrs Avery to

come and speak with Them, who accordingly came, and the same Arguments being used as had been before by the Gentlemen that last saw her She persisted obstinately in refusing to comply on any other Terms than what she before declared altho She was told in the most oblidging Manner that the surest way for her to attain her Ends with the Trust We apprehended would be by yielding to our Advice and upon her doing the Trust that Justice She might depend upon our representing her Case to their Honours in the most favourable Terms we could: But all that could be said to her from the Board appear'd to be Words to no Purpose and so she left Us Whereupon the Board came to this Resolution (They having good Reason to believe that there is (when Accounts are settled) a considerable Sum remaining due from the Trust to the late Mr Avery for Service done) immediate Stoppage should be made of any farther Payments 'till his Widow should comply with our Demands or such Orders as the Trust shall be pleased to send thereupon. The Board being of Opinion that all possible means should be used to compel her to do that Justice to the Trust, fearing least some crafty Persons in this part of the World, should prevail with her to make Sale of it which if published during these dangerous Times might be of fatal Consequence.

It appearing to the Board that the Money last issued being not sufficient to bring up the Salaries & other Expences to Mid Summer last The Sum of one hundred Pounds is ordered to be issued for that Purpose.

At a Meeting of the President and Assistants for the Colony of Georgia on Thursday the twenty second Day of November in the Year of our Lord 1744.

The Clerk at the Store now laying several Accounts and Papers before Us (as by Order) from the End of August last to be perused and considered of: The Same was carefully examined, and upon a Computation how much Cash would be sufficient to compleat the Years Account: It appeared that a Sum not less than three hundred and fifty Pounds would answer that Purpose: Therefore the said Sum of three hundred and fifty Pounds is ordered to be issued for the said Service.

Adjourned till to Morrow Morning.

Friday November the twenty third 1744.

The Board being again met They went to Mⁿ Averys to demand the Plans &c that were in her Custody; the Plans in particular She obstinately persisted in the Refusal of; They then desired to see the Plans which She also refused a Sight of, and declared She would deliver them to None without an especial Order from the Trustees for so doing: At the same Time she desired to know whether the Board would allow her to receive any Payment of Money on her late Husbands Account To which she was answered that the Board conceived themselves not warranted to pay Money on any Account where the Service was not fulfilled as demanded Therefore such Payment should continue suspended 'till they likewise had Orders from the Trust thereupon. Lastly it was demanded of her to deliver up the Trusts Surveying Instruments which were in her late Husbands Hands, which She had no Objection to, and accordingly they were delivered but some of them much damaged.

Frederick Keifer Jacob Berrier and

petitioned the Board desiring Each of them a Lott at Vernonburgh which Matthias Rheinstetler / was promised to them at the first Settlement of that Place when they attained to full Age; And the Board being now fully satisfied therein and withall that they were seeking them Wives; their Petition was granted, upon which they drew Lotts which fell N° I to Frederick Keifer N° 2 to Matthias Rheinstetler and N° 3 to Jacob Berrier which are the three first Lotts on the South Side of the Road.

PROCEEDINGS of the President and Assistants for the Colony of Georgia from Friday the twenty third Day of November 1744
Exclusive, to Saturday the twenty third Day of February 1744 Inclusive

At a Meeting of the President and Assistants for the Colony of Georgia on Friday the fourteenth Day of December in the Year of our Lord 1744.

A Petition of Christopher Ortman being read, wherein He greatly complains of hard Dealings being used which has occasioned his being discharged by the Society from his Office of Schoolmaster at Ebenezer: The Board taking the same into Consideration are of Opinion, that the said Christopher Ortman has been misrepresented to the said Society, And by that means he is reduced to great Poverty, both He and his Wife being uncapable by Reason of their old Age and Infirmities for any Labour; and They never hearing any otherwise of Him than that He was an honest, sober and inoffensive Man Do therefore in Charity appoint him Schoolmaster for the Village of Vernonburgh and Acton (the Inhabitants there having often complained for Want of Such) And for the Subsistance of Himself and Wife, the Board doth allow him at the Rate of twenty Shillings per Month, till the Trustees Pleasure is therein known: And they also think

'twill be a Saving to the Trust for his being so placed, rather than to be oblidged to maintain him otherwise for doing of Nothing: And whereas five Pounds a Year has been by the Trustees Order paid to the said Christopher Ortman as Schoolmaster at Ebenezer We think it reasonable that the said five Pounds be paid towards defraying the said Expences

Adjourned till to Morrow Morning.

Saturday the fifteenth Day of December 1744.

The Board being again met A Petition of John Milledge was read requesting a five hundred Acres Tract of Land on the North Side of the Great Ogeechee River Which was referred for farther Consideration till He himself appeared in Person to explain the Nature of his said Petition.

At a Meeting of the President and Assistants for the Colony of Georgia on Wednesday the ninth Day of January in the Year of our Lord 17445.

Mr Spencer acquainting the Board That Mr Avery upon farther Consideration of the Demands that were made upon Her to deliver up those Plans which her late Husband had prepared for the Use of the Trust, She was convinced of the Reasonableness of her Compliance in so doing: Notice thereupon was now sent to her That the Board were ready to hear what She had to offer on that Occasion, She came accordingly and produced four Plans. (Viz).

One large Plan of the North Part of the Province, being a true Survey of the Inland Passage extending from the Town of Savannah Northward to the North Point of Saint Catherine's Island Southward.

One Plan of the Town and Township of Ebenezer.

One Plan of the Island of Hope with the Main Land and the Islands adjacent.

And one Plan of a Tract of Land extending from the Boundaries of the Orphan House to Vernon River.

All which She was now ready to deliver, upon Condition that She had a Certificate from the Board of her having so done And also that they should remain in our Custody till the Trustees Pleasure was farther known Which likewise on our Part was agreed to: She farther desiring that We would recommend her Case favourably to the Trustees, and that also was promised her.

Our Clerk applying to Us for some Compensation to be made him for a long Piece of Extra Service early and late upwards of twenty Days in Copying Vouchers and assisting the Clerk at the Stores in making up such Accounts as the Trust had required to be done with the utmost Diligence and Dispatch The Board think it but reasonable that he should be considered for his Pains And therefore have ordered the Sum of fifty Shillings to be paid him for such Service.

At a Meeting of the President and Assistants for the Colony of Georgia on Tuesday the fifteenth Day of January in the Year of our Lord 17445.

The Widow Avery having fulfilled her Engagements to this Board in delivering up the Plans &c, and settled her Accounts with the Store, Now made Application to this Board, That they would order him the Sum of twelve Pounds in Part of the Ballance due to Her, in Order to enable Her and her Children to remove to Charles Town, where they intend to make their Abode; It was agreed that the Sum of twelve Pounds be issued for the said Purpose.

At a Meeting of the President and Assistants for the Colony of Georgia on Wednesday the thirtieth Day of January in the Year of our Lord 17445.

A Petition of Jacob Metzger being presented to this Board, wherein he craves the Allowance given to the Trusts Servants, his Wife being a Daughter of one Swartzwelder who was a Trusts Servant: The Board were of opinion That her Parents having already received the Years Allowance, besides Cattle, Tools &c; as allowed by the Trust; It was therefore looked upon that the said Allowance to that Family was fulfilled, and that it was not the Trusts Intention to extend the Same to all their Children, after having been so generously treated by the Trust on their Children being set free in order to enable their Parents the better to improve their Lands.

The aforesaid Metzger was no sooner retired before divers others both Males and Females, Children of the Trusts late Servants, petitioned for the said Allowance; Which confirmed the Board in their Opinion, that there would be no End of such Petitioners there being near a hundred Children that may have equal Claim to them.

Adjourned till to Morrow Morning.

Thursday the thirty first Day of January 1741/5.

The Board being again met, Christopher Hopkins the Trusts Cowpen Keeper attended and acquainted the Board, that the Term of his Agreement was expired on the twenty fifth Day of last Month, and except there was an Advance of three Pounds to his yearly Wages he could not serve the Trustees in that Capacity any longer; Which the Board taking into serious Consideration, and having found no Cause of Blame during his Service hitherto, more than what Providence allotted him by a long Fit of Sickness at the Time when his Service was most important in bringing

up Steers, which in a great Measure occasioned the Miscarriage of the intended Slaughter: He being now restored to his perfect Health and well acquainted with the Range; They have Hopes that that Loss will be made up by his future Industry and Capacity, which could not be well expected from any other Person unacquainted with that part of the Woods, therefore We thought it would conduce to the Benefits of the Trustees to employ the said Hopkins another Year upon the Terms required as above.

Mr John Milledge appearing and renewing his Request as per Minute on the fifteenth of December last and conferring with him thereupon We understood that during the Time of his having Command of a Garrison called Fort Argyle, he had made considerable Improvements on a Tract of Land about a Mile below the said Fort on the North Side of the River Ogeechee, and being inclined to to continue to make farther Improvements, was de-

sirous of having five hundred Acres of Land granted him in that Place: We taking the Same into Consideration, and knowing him to have always been an industrious young Man; We were inclinable to grant as farr as in Us lay the said Land; but finding that the said Milledge is possessed of a Town Lott and fifty Acres of Land in the Town and Township of Savannah; We therefore judged it inconsistent that He should possess five hundred Acres of Land together with what He already had; But as he had already began to make good Improvements, for his farther Encouragement to proceed in so doing; We promised to recommend him to the Trustees, and in the mean Time that he should not be molested in what he had or shall do; But submit it to their Honours what Quantity they will be pleased to grant him.

Captain John Barnard appeared before this Board and in Consideration of having had five hundred Acres of Land granted him the first of October last on Wilmington Island Did surrender and yield up into the Hands and to the Use of the Trustees for Establishing this Colony all that Town Lott N° 4 in the third Tything in the Lower New Ward with the Garden Lott and Farm Lott heretofore granted to Thomas Wiggins since deceased, and granted to him the said John Barnard at a Meeting

of the President and Assistants on the twenty fourth Day of February 1743 It being contrary to the Express Orders of the said Trustees, That any One in the Colony should possess (by Grant) more than five hundred Acres of Land.

At a Meeting of the President and Assistants for the Colony of Georgia on Saturday the twenty third Day of February in the Year of our Lord 1744.

The President having communicated to this Board a Letter from The Reverend Mr Bolzius dated the thirteenth of this Instant February, wherein he craves that this Board, would give him some Assistance to enable him to bring up the old and young Cattle belonging to the Inhabitants of Ebenezer, which he says is impossible for his People to do (many of which Cattle M^r Bolzius acquaints Us are neither Marked nor Branded): The Board took the same into Consideration, and are of Opinion, that it is in a great Measure impracticable, We having neither Men nor Horses that can be found to be employed for that Use, unless we were to take the Servants and Horses from the Trustees Cowpen, which would be greatly to their Detriment, the Cowpen Keeper having more Work upon his Hands, than he can well perform to the Satisfaction of his Masters; But the Board will send to him, to be ready to do any good Offices that lies in his Power to serve them, where it is not inconsistent with his Duty to the Trust.

Thomas Ellis having since the Death of M^r Avery been employed by this Board to finish the dividing Lines between the several Lotts at Vernonburgh, and also for running three fifty Acres Tracts at Acton, and other Services of the like Sort, and delivering Plans of the Same (which appear'd to the Satisfaction of the Board): The Whole of which according to Agreement at four Pence per Acre (He finding Hands to Work) amounts to the

Sum of nineteen Pounds and eight Pence: It is ordered the Same be paid in due Course.

PROCEEDINGS of the President and Assistants for the Colony of Georgia from Saturday the twenty third Day of February 1744 exclusive to Thursday the eighteenth Day of April 1745 inclusive.

At a Meeting of the President and Assistants for the Colony of Georgia on Friday the eight Day of March in the Year of our Lord 1744.

On the twenty eight Day of April last Captain William Horton applied to this Board in Behalf of the Salvors of the Ship David of Bourdeaux John Peter Daignans Commander, which Ship was drove ashore near the Island Sapola in this Colony and stranded, but happily was got off by a Party of Marines and Soldiers of the Garrison of Frederica and there brought to Anchor; whereupon Salvage was adjudged; but the Salvors complaining of the exorbitant and unjust Demands of Mr John Terry Recorder of Frederica, Which are as follows.

(Viz^t)		
To Court Fees by Act of Parliament£	15	0 0
To a Coppy of the Proceedings for the French Cap ⁿ	4	0 0
To translating French into English and English		
into French	3	0 0
To Interpreting	5	10 O
Paid Samuel Lee for going twice with Letters to		
Saint Simons	О	100
In all £	28	0 0

The Board then took the same into Consideration and upon mature Deliberation thereon desired the President to answer the

said Complaint, which accordingly was done on the second of May last in the following Words to Capⁿ Horton (Viz). "That "'twas the Opinion of the Board, the Recorder could find no "Act whatever, wherein Court Fees are settled in Case of Salvage, "neither could he plead any stated Fees or Custom of this Prov-"ince to support such Charge: As to the Proceedings they were "certainly very long, but surely one third of the four Pounds He "demands would be sufficient Pay for a Coppy thô of the Re-"corders own Writing: As to his Charge for translating 'tis "much of the same Kind; for the Board thinks that merely to "translate Daignans Plea and two or three French Letters fifteen "Shillings would be good Pay: And for his Charge for inter-"preting, 'tis judg'd as an uncommon Article, and if complied "with, 'tis apprehended others may claim Payment for the like "Assistance upon all Occasions: And Lastly as to Sam: Lees "Journeys 'twas left to Cap" Horton and the Salvors to judge of "themselves. Notwithstanding the Board does not mean by the "above Reductions to withhold any farther Bounty the Salvors "should judge proper to give him."

On the fifteenth of the said Month of May Messieurs Calwell and Terry applied to the President and Assistants, desiring their Opinion of the Charge as sett forth above: To which they were answered much to the same Effect as Captain Horton was before. The same Affair coming now before the Board again by a Letter from Captain Horton of the twenty seventh of February last directed to the President and Assistants; wherein He acquaints Them, that an Attachment was served some time past on Captain James Mackay (as One of the Salvors) for the Sum of twenty eight Pounds, by Thomas Hird one of the Constables at Frederica That He the said Captain James Mackay with others of the Salvors offered to pay thirteen Pounds (which was Mr Terry's whole Demand exclusive of the fifteen Pounds for Court Fees) but it was not accepted. Therefore the Board was, and still are of Opinion, that one third part of the said thirteen Pounds was fully as much as Mr Terry could justly demand And as for the fifteen Pounds for Court Fees, and five Pounds ten Shillings for Interpretation We could not, or can, yet see any Grounds for;

nevertheless still leaving it to the Salvors Generosity to extend their Bounty farther as they should judge proper.

Ordered That a Coppy of the above Minute be sent to Capⁿ Horton by the Clerk of this Board.

The Widow Stutz having a large Family of Children and with much hard Labour made Shift to maintain themselves in Food, but are now totally destitute of Cloathing, making Application for Relief This Board having taken the same into Consideration do think it most expedient to help them principally in Cloathing And in Consideration that they have not hitherto been chargeable, but have done their utmost to maintain themselves, Do order the Sum of forty Shillings to be laid out in Oznabrigs and other necessary Cloathing for the Summer.

"Sir

"I suppose you will be surprized when I tell you I am going "for England by the Hector Snow Capt" Rogers; but I really "find it so absolutely necessary, that the Suddainess of my De-"parture, however the Malevolent World may construe it, would "not admit of my giving you a more early Notice. I shall be "glad if in my Power to oblidge you in anything while there, and "if Inclination or Business should procure Me a Letter from you, "please to direct it as M" Tisdeale will inform you

His Departure in so unexpected a Manner was very surprizing to the Board They having no previous Notice of his Intentions. The President having received a Letter from Captain Horton of the twenty second Instant, which he desired should be communicated to the Magistrates; and accordingly was so done; relating to divers Felonies lately committed in the County of Frederica; One particularly charged on Mr John Terry for committing a Rape on the Body of his Servant Maid, the Depositions of which were Sent, whereupon the Magistrates issued their Warrant, and held him to sufficient Bail for his Appearance at the next Quarterly Court: Three or four others, who are Soldiers and now in Custody at Frederica, are charged with feloniously stealing the King's Arms, Ammunitions and Accoutrements, together with a Canoe with Design of deserting to the Enemy: All which Captain Horton desired might be tried at the next Court to be holden in and for the Town and County of Savannah for the said Felonies: Thereupon the Magistrates, who made no Scruple to issue their Warrant to apprehend Mr Terry and hold him to Bail, were doubtfull whether or not they could legally proceed to the Trial of either the said John Terry or those others in Custody at Frederica; the Felonies not being committed withii: this County: Wherefore upon Application to the President, a Board was called to consult on what was proper to be done in such an Exigence; who, upon mature Deliberation, were of Opinion, That as there was no Court existing at Frederica where those Causes should regularly be tried, it was thought expedient to take the Opinion of some able Lawyer thereupon, and as We understand, that Captain Horton frequently advises with Mr Rutledge, by Direction from General Oglethorpe, in Intricacies of this Nature; it would be most prudent to leave it to Captain Horton to lay the Case before Him; and his Advice should be a

Rule for the Magistrates to proceed by; rather than such notorious Crimes should go unpunished. Upon which Resolution the following Letter was wrote to Captain Horton (Viz)...

Sir

"The President communicated your Letter of the twenty second "Instant to the Magistrates, together with an Affidavit relating "to Mr John Terry, upon which a Warrant was immediately "granted to apprehend him, and He is now under Bail, Himself in "two Hundred Pounds, and two Sureties in one hundred Pounds "each, for his Appearance at the next Court, which will be held "on the twenty eight Day of January next: But a Doubt arising "in the Magistrates, that they are not sufficiently authorized to "try Felonies or other Crimes not committed within the County "of Savannah; They thought proper to consult the President & "Assistants farther thereon who having Recourse to Mr Secre-"tary Martyn's Letter of the sixth of February last, Extract of "which was sent you by the President in his Letter of the twen-"tieth of J last: It was the Opinion of the Board that in a Mat-

"ter of so great Consequence, it would be highly needfull to con"sult some able Lawyer how farr they might safely proceed:
"We having no such Gentleman to advise with, and knowing
"that you sometimes advise with Mr Rutledge, in Cases wherein
"the Law is not clear; They are very ready to submit it to his
"Opinion, if you think proper to lay the Case before him; and
"whatever Advice he is pleased to give therein will be a Guide to
"the Magistrates: The Board are also of Opinion to referr it to
"You, whether you do not think it proper that the following
"Paragraph, which was formerly sent you, should be laid before
"Mr Rutledge together with a State of the Case, as it appears to
"You; forasmuch as by the said Paragraph, it appears to Us, that
"no Court of Judicature is at present existing in the County of
"Frederica.

By Order of the Board in Council assembled the thirty first Day of December 1745

To Captⁿ William Horton

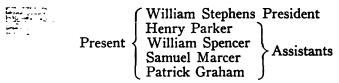

Extract from a Letter from M^r Secretary Martyn to William Stephens Esq^r dated the sixth of February 1745

PROCEEDINGS of the President and Assistants for the Colony of Georgia from Tuesday the thirty first Day of December 1745 Exclusive to Monday the thirty first Day of March 1746 Inclusive.

At a Meeting of the President and Assistants for the Colony of Georgia on Tuesday the Seventh Day of January in the Year of our Lord 1745%.

M' Bolzius having often complained to this Board That the Lands belonging to the Township of Ebenezer were not compleatly run; The Board formerly sent up Mr Avery (the late Surveyor) to inspect the Same, who did so and returned a perfect Plan thereof, and withall reported the great Scarcity of good Land, which occasioned Mr Bolzius to put two or three Families on a Lott where the Lands were good, which created an Uneasiness in the first Possessors of the said Lotts; And now making Application to the Board again in Person Requesting that They would assist him with an additional Quantity of good Land over Ebenezer Creek commonly called the Uchee Land; Which the Trustees in their Letter of the twenty fourth of April 1741 to the President, desired him to make Enquiry about, whether the Indians were still in Possession of them, and if they were, and it could be got without dissatisfying them, to learn upon what Terms they would be willing to part with it: Thereupon the President advised with General Oglethorpe who sent him the following Paragraph in his Letter of the twenty fifth of September 1741.

"I shall very freely give my Advice in the Difficulty you men-"tioned relating to the Saltzburghers or any other Matter I can "advise in: First you will remark that the Red Hill which is "spoke of by the Trustees is Land belonging to the Uchee In-"dians, affectionate Subjects to his Majesty, that a large Party "of them under their King came to assist his Majesty's Troops "at the Siege of Augustine, in which Siege twenty or thirty of "them were killed fighting bravely, Several were taken Prison-"ers and the Spaniards had such a Reverence for their brave Be-"haviour that they gave some of them Presents and set them at "Liberty and desired them to make propositions to their Country "Men to join the Spaniards and they would give them great Pres-"ents; these Men were so faithfull that they brought me the "Letters that the Governour of Augustine had given them for the "Commander of Saint Marks, and did carry his Message to the "People but at the same time declared their Abhorrence (as the "whole Nation did) of the Spaniards Propositions: Now if we "should attempt to take or purchase their Lands it is probable "they will go to the Spaniards, for when they have no Lands "how should they stay, what should maintain them, Some may "fancy that because their Land is not planted, therefore there is "no Hurt in taking it from them, but the Indian Nations have "as much Right to their Woods as an English Gentleman has to "a Forest or a Chace, and they are more necessary to them since "the Venison is the Flesh that chiefly feeds them, and the Skins "of the Deer is what enables them to pay the English for their "Goods I think therefore it would not only be unjust but very "Impolitick at this Time to attempt buying Lands from the In-"dians especially the Uchees who have lately suffered so much "for the Sake of the English and are always ready to come out to "Warr."

Upon mature Consideration of what has been premised the Board were of Opinion that the Trustees should be acquainted with the whole Affair and wait their Direction thereupon: And forasmuch as the Lands called the Uchee Lands reaching from Ebenezer River to Briar Creek is computed to be upwards of one hundred Miles in Length along the River Savannah, and the Body of Indians said to claim those Lands are of late very much impaired in Number and Strength and reduced to a low State, very few of them only remaining at present, who reside near Briar Creek being the outmost Boundaries of the said Lands Therefore We conceive that the aforesaid Indians would be easily perswaded to part with such a Tract of Land as would answer Mr Bolzius's Purpose in Case the Trustees should be of that Opinion.

Adjourned till to Morrow Morning at 9 oClock.

Wednesday the eight Day of January 1745%.

Pursuant to a Minute of the twenty second Day of November last M^r John Williams attended the Board and produced a rough Sketch of Lands settled on the River Ogeechee according to his Promise; which gave the Board some Light into what was doing there: But they thought proper to direct that (in Time coming) upon any Persons seeking for a Grant of any Tract of Land there, They expected that a Plan of it should be first laid before Them that they might the better judge of the Expediency of such a Grant.

Agreeable to an Order of the twenty third of last Month the

several Workmen employed in building the Church attended, when their Accounts were fully adjusted to the Satisfaction of all Parties.

At a Meeting of the President and Assistants for the Colony of Georgia on Tuesday the thirty first Day of January in the Year of our Lord 1745%.

John Ross Trader in the Creek Nation having for some Time past been very desirous to settle in or near the Township of Augusta upon a Tract of Land called the Coats Neck where he desires three hundred Acres butting and bounding upon Lands belonging to Rowland Pritchet: The Board taking the same into serious Consideration, and He (the said Ross) being recommended to Us as a Man of Substance and Capacity to cultivate the Same, do as farr as in Us lies grant him his Petition making no Doubt but that the Trustees will confirm the Same.

The Reverend M^r Bolzius representing in a Letter to this Board the several deplorable and necessitous Circumstances of sundry poor Widows and others, Inhabitants of Ebenezer that are disabled and uncapable of Labour, desiring that they may be assisted and relieved by some Weekly or other Allowance as We should judge proper: The Board having well considered of the Same, and that the Necessities of the Colony at this Time do largely exceed the Trustees Estimate for defraying the said Expences, therefore it required the utmost Frugality to distribute the Same, in Consideration of which, It was thought proper to allow the Sum of five Pounds to be disposed of as the Reverend M^r Bolzius should see fit to answer the present Purposes.

Frederick Helvingstine petitioning this Board, Setting forth that his Father was in Possession of a Lott at Ebenezer, but soon after died (leaving his Mother a Widow and several Children) after which an unhappy Difference began between his Mother and the Reverend Mr Bolzius, which at length occasioned the Family to leave Ebenezer with Design to retire to Pensylvania, but Want of a ready Passage occasioning their Stay some time in Savannah, gave them a different Idea of this Colony from what they before had, which induced them to petition for Lands at Abercorn, where they find it convenient for their Trade being Leather Dressers, designing to carry on That as well as to improve Lands: Whereupon the Board being desirous to encourage all such as are inclinable to cultivate Lands, were unwilling that a small Difference with Mr Bolzius should occasion the Loss of so promising a Family; Therefore it was thought proper (upon the Resigning of all their Right and Title of the Lott which they formerly had in Possession at Ebenezer, which They did now before Us) to grant him (the said Frederick) the Lott lately resigned by Isaac Gibbs Senior believing the Trustees will ratifie the Same.

At a Meeting of the President and Assistants for the Colony of Georgia on Saturday the first Day of February in the Year of our Lord 174%.

The President laying before the Board a Letter from the Reverend M^r Bolzius dated the twenty second Ultimo wherein he craves Relief for sundry poor sick People at Ebenezer: The Board taking the Same into Consideration, and having ordered the Sum of five Pounds to be paid the Reverend M^r Bolzius for the present Exigence so lately as the twenty first of last Month, judged it improper to make any farther Allowances on that Head; being at present in no Capacity to make Payments of any Kind till we knew what our future Estimates would warrant Us to do.

The Widow Nongazer petitioning this Board for Relief, She being very old and infirm We thought it necessary to grant her the Sum of twelve Shillings to help her under her present Necessities.

'The Widow Bowling petitioning this Board for Relief the Sum of twenty Shillings is now ordered her She having received None since the sixth of November last.

At a Meeting of the President and Assistants for the Colony of Georgia on Wednesday the Twelvth Day of February in the Year of our Lord 174%.

The President laying before this Board a Letter from Mr Secretary Martyn of the twenty eight Day of October last, wherein he acquaints him that James Billinghurst desired a Grant of the little Island opposite to Captain Noble Jones Fort; desiring him to acquaint the Trustees whether any Grant had been made of the said Island to any other Person, and whether there was any Objection of their Granting the Same to Billinghurst, or whether it is proper or not for them from the Situation of the Place to part with it out of their Hands: The Opinion of the Board thereupon was That they saw no Objection to Billinghurst having a Grant of the said Island either with Regard to its Situation, or its ever being granted to any Person.

M^r John Smith of Frederica petitioning this Board for five hundred Acres of Land on an Island called Dickinsons not farr from Darien: He being of very sufficient Ability and desirous to improve the Same We therefore humbly recommend him to the Trustees for a Grant of the said Lands.

The President having communicated to this Board sundry Letters Papers &c together with five hundred Pounds in Sola Bills which he lately received from the Trustees by the Ship Judith (late Captain Quarme) After perusing the Letters and Papers relating to our future Conduct, which took up great part of the Day, and finding ourselves at a Loss what to determine on so weighty an Affair relating to the issuing of Money We therefore adjourned till to Morrow Morning for a farther Consideration thereof.

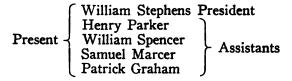

Thursday the thirteenth Day of February 1745%.

The Board being again met, and having well and duly considered the Necessities of the Inhabitants and Scarcity of Money thought proper to order the Sum of four hundred Pounds to be immediately issued to pay one Quarters Salaries and other incidental Expences from Lady Day last to Mid Summer following.

At a Meeting of the President and Assistants for the Colony of Georgia on Thursday the twentieth Day of February in the Year of our Lord 1745%.

Daniel Dourouzeaux petitioning this Board for five hundred Acres of Land near Augusta, Part of which is an Island called New Savanah where by Permission of Captain Kent He has been settled for upwards of three Years and made considerable Improvements thereon The Board being well informed of the Justice of his Request, very willingly consented to his Petition not doubting but that the Trustees will confirm the Same.

At a Meeting of the President and Assistants for the Colony of Georgia on Wednesday the fifth Day of March in the Year of our Lord 1745/6

The Board being informed that John Browne late of Highgate had made Complaint to the Trustees of the great Streights he was in to support himself under the present Allowance granted to him by this Board as per Minute of the thirteenth of September 1743 We having Recourse therefore to the said Minute and finding that the Allowance then given was two Pounds of Bread per Day which has been continued to this Time And whereas the said Browne is still the same Man as mentioned in the said Minute The Board were of Opinion that the Allowance of Bread which amounts to two Shillings and a half penny per Week should be continued being the surest Means to prevent his Starving And also that the Sum of three Pounds be allowed him to be laid out in Cloathing for himself and Wife They being in a mean Condition.

Mr Samuel Marcer and Thomas Young both of the Town of Savannah having mutually agreed to exchange with Each other their Garden or five Acre Lotts appertaining to their respective Town Lotts, and desiring the Approbation of this Board to the said Exchange The Same is hereby approved of, in Hopes the Trustees will confirm it.

At a Meeting of the President and Assistants for the Colony of Georgia on Tuesday the twenty fifth Day of March in the Year of our Lord 1746.

John Dobell petitioning this Board for the Lott N° 1 in the first Tything of the Lower New Ward (late Thomas Mansor Causton) together with the Garden and Farm Lotts thereunto belonging: The Same is hereby granted him hoping the Trustees will confirm it.

At a Meeting of the President and Assistants for the Colony of Georgia on Monday the thirty first Day of March in the Year of our Lord 1746.

A Petition from the Inhabitants of Ebenezer was presented to this Board, complaining of the great Difficulties they were under in hunting up their wild Cattle for Want of sufficient Strength both of Men and Horses, and that they conceived the Trusts Cowpen Keeper at Ebenezer did not act according to the Orders formerly given him by this Board in their Favour: And the said Cowpen Keeper having been ordered to appear, now attended, when the whole Affair was enquired into; and after a long Examination and hearing both Parties (Viz Three of the Inhabitants of Ebenezer and the said Christopher Hopkins) the Matter appeared unto us thus, That the Inhabitants of Ebenezer having frequently for more than two Years past required that the Trusts Servants at the Cowpen should bring up all their wild and out

lying Cattle, which is in itself impracticable; the Board having as often well considered the Same, and divers times given Orders to the said Cowpen Keeper, that all Cattle belonging to Ebenezer that he found ranging with those of the Trust should be drove up together, and then inform the People of Ebenezer of such Cattle of theirs being penn'd that they might fetch them away, which Orders have always been obeyed except in the Instance of one Cow lately, which Cow he could not hold by Reason that part of his Pen was by Accident the Day before burnt: Whereupon the Board could not help observing that there was no Foundation for fresh Complaint, but found that the Inhabitants of Ebenezer were now more urgent than they had formerly been, being possessed in Opinion by a Letter Mr Bolzius lately receiv'd from Mr Verelst that the Trustees were willing to be at the Expence in hunting up all their wild Cattle, which would be an inconceivable Charge farr beyond what can be imagined and what by our Duty to the Trust we could not comply with; But we renewed our Charge in the strictest Manner to the Cowpen Keeper to assist them as formerly he had done, and to make it his Study to live Neighbourly and peaceably with them. It may not be improper farther to observe that most of the Ebenezer People are as well if not better provided with Horses than most of their Neighbours who keep Cowpens.

A Petition from Captain Noble Jones in Behalf of his Second Son Innigo Jones was read, Setting forth his Desire of his having five hundred Acres of Land granted his said Son on the South part of the Island Skeedaway, promising that he will immediately cultivate and stock it in Behalf of his said Son; But notwith-standing We are well assured of the Captains Abilities to perform what he promises We are in some Doubt whether 'twould be agreeable to the Trustees to give Possession of the said Lands, the said Innigo Jones being a Minor Therefore our Duty oblidges Us to leave the Whole to their Honours.

Pursuant to the Trustees Orders it was thought proper to order the Sum of one hundred and thirty eight Pounds towards discharging the Bounty due at Christmas 1742.

Mr. John Browne Setting forth in a Petition to this Board that

He was in great Streights having nothing to eat but the Bread which is allowed him daily, and that the Apparel wherewith he was lately cloathed having exhausted that Benevolence which was then allowed him: To make Experiment how farr he has the Government of himself The Board thought proper to allow him the Sum of twenty Shillings for his farther Support.

PROCEEDINGS of the President and Assistants for the Colony of Georgia from Tuesday the twentieth Day of May 1746 Exclusive to Monday the twenty first Day of July 1746 Inclusive.

At a Meeting of the President and Assistants for the Colony of Georgia on Wednesday the Eighteenth Day of June in the Year of our Lord 1746.

The Trustees having (through the great Disturbances lately raised in Britain) been it is presumed diverted from sending the usual Supplies in Time to discharge their Estimate, by which means many Persons employed in the Publick Service, as well as divers others of honest Repute, have been driven to the Necessity of seeking Credit for such Goods as were needfull for themselves and Families. And whereas among the few Store Keepers here, Messieurs Harris and Habersham have been the principal Dealers who have given those Credits, but took Care always that the Value of their Goods so disposed of, did not exceed the Demands which such Persons respectively had on the Estimate: Nevertheless the said Harris and Habersham having lately come to a Resolution for some sinister Views of their own to deny all Credit in General, even to the Trustees themselves;

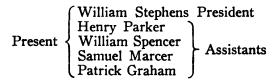

Which has raised an universal Distraction among all Ranks of People in this part of the Colony; there being very few that have any Cash in Specie wherewith to go to Markett. And also during this Distress the aforesaid Keepers of Stores, hoping to take a farther Advantage of our Necessities, have with an uncommon Assurance demanded that this Board should draw Bills of Exchange upon the Trustees in their Favour, for what Money is owing to them on Account of the Estimate, well knowing at the same Time that it is directly contrary to the Trustees Orders, who have stricktly forbid Bills of any Kind to be drawn on them from hence. These Things of so great Moment were the Subject of our Conversation most part of the Day, and the farther Consideration of it was adjourned till to Morrow.

Thursday the nineteenth Day of June 1746.

The Board being met pursuant to yesterdays Adjournment and a fresh Debate arising what Method to use for preventing the Scheme taking Effect which seemed to be carrying on by Harris and Habersham; and was supposed to be first moulded in Charles Town (where they have lately been) And appears to Us calculated for no better Design than to cause an universal Clamour among all People of this part of the Colony and stir them up to an Insurrection. All which being fully considered We thought it our indispensable Duty to loose no Time in endeavouring to find Means for preventing such dangerous Designs taking Effect And in Order thereto the first Step that was thought requisite was to procure a Quantity of Bread Kind for a good Foundation; Upon which it was judged proper to send to Carolina to purchase a Quantity of Rice, sufficient to answer the present Occasion: And Mr Graham, One of the Board offering his Service, it was kindly and readily accepted of, with this Proviso not to exceed such a Quantity as he well knew we were capable of paying for, out of the small Funds remaining in our Hands: In Consequence of which the Sum of fifty Pounds was ordered to be issued to Mr Patrick Graham for the Purpose aforesaid.

At a Meeting of the President and Assistants for the Colony of Georgia on Friday the twenty seventh Day of June in the Year of our Lord 1746.

Whereas at a Meeting of this Board the twenty fifth Day of March last, a Petition of John Dobell was read desiring a Grant of the Lott No I in the first Tything of the Lower New Ward (late Thomas Mansor Causton deceased) Which Petition upon his Assurance of his effectual Improvement of it, was granted him so farr as to recommend it to be ratified by the Honourable Trustees: But forasmuch as the said John Dobell has since declared his Intention of speedily quitting the Colony and giving up the several valuable Imployments which he holds under the Trust And moreover seeming to cast a Contempt on those Favours, which he has so signally received, resolving, without such previous Notice given as might reasonably be expected from a Person so highly favoured, to have no farther Regard to any of his Imployments. But it so happening that no Possession having been given of the said Lott to him by Virtue of a Warrant from this Board directed to the proper Officer; for these Reasons We now thought fit to forbid such Officer or any other to give Possession to the said John Dobell of the aforesaid Lott, untill the Trustees can be acquainted with the Same, and their Pleasure therein known: It being the Opinion of this Board that such Use as probably might be of Use to this Colony ought to be kindly received and encouraged, preferable to all others who are leaving it, possibly with no other View than to sell and make Money of it. At a Meeting of the President and Assistants for the Colony of Georgia on Monday the twenty first Day of July in the Year of our Lord 1746.

Several Bills being laid before this Board by sundry Workmen employed in the Publick Service; after having well examined them, and cutting off what was thought unreasonable They were ordered to stand in due Course of Payment.

A Petition of the Widow Bowling being read, Setting forth the great Stress she was in, by Reason of the House wherein she dwells being greatly exposed to the Weather And whereas She is in a very deplorable Condition, being for some Time past supported by the Charity of the Honourable Trustees: It was judged necessary that the said House should be refitted so as to keep her from the Inclemency of the Weather.

Mr John Dobell attended the President some Days agoe, and offered to deliver him the Key of the School, which he refused to receive in that manner but ordered him to attend when the Board next met: whereupon he now did so, and delivered up the Key of the School together with a List of the Scholars, declaring that he was leaving the Colony and the Trustees Service: He was thereupon asked what Books, Papers, &c he had of the Trustees in his Custody; The Board acquainting him that it was proper as he was quitting the Colony to deliver all Things relating to the Trust to the Presidents Order: And being farther asked what Progress he had made relating to his Office of Register, He frankly confessed that he had made no Entry of any Kind in any Book, but had sent to the Trustees an Account of all he had done, except a List of Grants which he now delivered contained in several Sheets of Paper, which had been lately put into his Hands by Order from the Trustees for him to make perfect, and when so perfected by Him, the Seal of the Province was directed by their Honours to be affixed to it. Mr Dobell's leaving the Colony so abruptly lais Us under some Difficulties in providing a Master sufficiently qualified for the School to take upon him the present Charge and to be recommended to the Trust; Which would require a few Days Deliberation.

Thomas Salter petitioning this Board for a Spot of Ground on Hutchinsons Island, which lies convenient for making of Bricks: Setting forth in his said Petition that by having such a Spot it would enable him to sell Bricks much cheaper than what he could hitherto afford them at, and likewise much better, the Clay being of a superiour Quality. The Board after considering the Same, sent to Mr Salter to attend, and know upon what Conditions he intended to sell his Bricks, when he agreed to deliver them into a Boat at seventeen Shillings and six Pence per Thousand, being one Eight part less than the lowest Price that hitherto they have been sold at, besides a great Saving in the Carriage which in the Whole will reduce the Price to one third less. It was then agreed to grant him a Lease of ten Acres of Land on the said Island for the Term of seven Years to commence from Michaelmas next; He paying an Acknowledgment of two Shillings and six Pence per Annum to the Honourable Trustees: We making no Doubt but that their Honours will encourage so good an Undertaking.

PROCEEDINGS of the President and Assistants for the Colony of Georgia from Monday the twenty first Day of July 1746 Exclusive to Thursday the twenty eight Day of August 1746 Inclusive.

At a Meeting of the President and Assistants for the Colony of Georgia on Wednesday the thirteenth Day of August in the Year of our Lord 1746.

Five of the Inhabitants of Vernonburgh petitioning this Board for Leave to exchange their Lotts (which they have now been possessed of near four Years past) for other Lands in a different part of the Country: The Board taking the Same into Consideration Do find that the Lands they are now possess'd of are very good, therefore can not avoid taking Notice that it proceeds from a litigious and troublesome Humour, which they generally shewn,

and if complied with, would occasion great Uneasiness among others whose Lands are well known not to be near so good; As also it would give an ill Example to all other Settlers Therefore the said Petition is rejected.

A Letter from M^r John Brown was delivered to the Board wherein he setts forth, That since a Recommendation from M^r Verelst in his Favour, there had been the following Vacancies, Namely, Overseer of the Gardens, Schoolmaster, Register and Secretary to the Indian Affairs: As to the First there was no Vacancy since M^r Brown's Recommendation, which he well knew; The Second he declared and acknowledged himself unfit to take the Charge of; The Third (being Register) we thought to be so weighty a Concern, that the Board did not think proper to appoint any Person to officiate in that Office but wait the Trus-

tees Appointment; And the Fourth being an Office that occasions frequent Conversation with the Indian Traders, who are generally Men of loose Morals and given to much Contention, The Board were very apprehensive from his being so much addicted to strong Liquors and of a wrangling ungovernable Disposition That they conveived him to be uncapable of executing such an Office even with common Decency, but in Regard to the Recommendation that he had: The Board are willing and readily inclined to put him into such Employment as he shall be capable of Executing whenever such can be found.

At a Meeting of the President and Assistants for the Colony of Georgia on Thursday the twenty eight Day of August in the Year of our Lord 1746.

The President informed the Board that Mr John Pye had delivered him two Setts of Bills of Exchange drawn by Major William Horton on Major General Oglethorpe for the Sum of four hundred eleven Pounds seventeen Shillings and one penny half penny; And Eight Pounds two Shillings and ten Pence half penny in Cash; which makes four Hundred and twenty Pounds, being for three Setts of Bills of Exchange drawn by Mr. John Tuckwell on Mr. John Pye Attorney for Mr John Brownfield, Namely, One Sett for three hundred Pounds payable to William Stephens Esqr &c, to defray the Current Expences of the Colony; One Ditto for one hundred Pounds for the Use of Nicholas Rigby, And one Ditto for twenty Pounds to be replaced in the Room of the like Sum paid the said Nicholas Rigby by Mr Verelsts Order: Which Bills as soon as they can conveniently be changed into Specie, the Board will consider the properous Use to apply

the Same towards the Support of the Colony.

A Petition of John Lawrence of Frederica was read, Setting forth his having made Purchase of the Lott N° 2 in the first Tything of the Lower New Ward of Samuel Clee, desiring this Board to give their Assent to the said Purchase: Which Request the Board are of Opinion that the Purchase might be of Benefit to the Colony (Lawrence being by farr the preferabless Man)

But must referr it to the Trustees to approve or disapprove of the said Purchase.

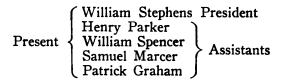

PROCEEDINGS of the President and Assistants for the Colony of Georgia from Thursday the twenty eight Day of August 1746 Exclusive to the tenth Day of December 1746 Inclusive.

At a Meeting of the President and Assistants for the Colony of Georgia on Tuesday the twenty third Day of September in the Year of our Lord 1746.

Anthony Camuse petitioning this Board for a Tract of Land on Wilmington Island; But not being in Person it was referred till the Board met again.

Frederick Nett formerly a Servant, but now an Inhabitant at Ebenezer, petitioning this Board for a Cow, Calf &c, as had formerly been given to the Trusts Servants; It appears to Us that the said Nett was not at any Time a Servant to the Trustees, but had faithfully served four Years in Ebenezer, and as he falls under the same Denomination with a great Number of others The Board could not comply with his Request without bringing a heavy Charge on the Trust, as They will find by a Minute of the twelvth Day of October 1743, to which this Board have as yet had no Answer.

At a Meeting of the President & Assistants for the Colony of Georgia on Thursday the twenty third Day of October in the Year of our Lord 1746.

Anthony Camuse now attending this Board in Order to support his Petition delivered at the last Meeting, was told, That He could not hold the Lands he petitioned for, together with his Garden, Farm, and Town Lotts he was already possessed of in the Township of Savannah, where he had made considerable Improvements; Upon which He declared that he did resign his Town, Garden and Farm Lotts in the Township aforesaid in favour of his younger Brother Joseph to succeed him Upon which Resignation the Board being thoroughly sensible of his Merits and Industry, were desirous for his Encouragement to allow of his said Petition by granting him five hundred Acres of Land on Wilmington Island lying North East of Lands belonging to Mr John Barnard, well knowing that the Trustees will encourage those that are inclined to cultivate and improve Lands.

John Mackintosh Son of Benjamin Mackintosh late of Darian deceased petitioning this Board for a Tract of Land lying about ten Miles up Sapola River being the Second Bluff on the North East Side of the said River; He being of Ability and recommended to Us as an industrious Person, and desirous to settle the Same forthwith: We therefore humbly recommend him to the Trustees for a Grant of the said Lands at the same Time allowing him to begin his Improvements.

Thomas Young the late Goal Keeper having been charged with divers Crimes and Misdemeanours in the Execution of his Office, by suffering sundry Prisoners to escape out of his Custody; which Charge appears to Us too notorious to be passed by It was resolved by this Board that the said Thomas Young be dismissed from the said Office. And

Whereas James Baillou, Freeholder of this Town, having acquired a good Character, as a sober diligent and industrious Man: It was thought proper to appoint him the said Office of Goal Keeper, expecting by his past Behaviour that he will be very carefull and diligent in the Execution thereof.

At a Meeting of the President and Assistants for the Colony of Georgia on Saturday the Eight Day of November in the Year of our Lord 1746.

Lauchlan MacBean petitioning this Board for two hundred Acres of Lands in Behalf of his two natural Sons William and John, at a Place called Tinkers Creek within the District of Augusta; They being both very industrious young Men; The Board thought proper to grant unto the youngest Son John one hundred Acres at the Place abovementioned; presuming that the Eldest may inherit his Fathers Lands after his Death.

Captain Davis having made a repeated Demand of fifty six Pounds and thirteen Shillings for bringing the German Servants and their Baggage from Frederica: The Board were of Opinion that the Same is very extravagant and what they could not justifie the Payment of; forasmuch as the Customary Freight either from Frederica or Charles Town has always been at ten Shillings and six Pence; and the whole Freights which he brought being sixty four amounting to thirty three Pounds and twelve Shillings, the Board are willing to pay him.

Nicholas Rigby petitioning this Board for some Allowance to be made him on Account of sundry Extra Services by recopying several Packetts that were taken by the Enemy, some of which thrice, which took up a great Deal of his Time both early and late; The Board considering the Same, referred it to the President to make him such a Present as he thought him deserving.

Thomas Young petitioning this Board for Relief; He having a large Family of Children, and both He and his Wife being very infirm thrô old Age and Sickness, wherein She now lies in a deplorable Condition; for the present Exigence the Board thought fit to allow him four Shillings per Week, till the saw farther.

The general Complaint of the Inhabitants of this Town for Want of Rice and Indian Corn by Reason of no Stores either Publick or Private to have Recourse to for those Commodities, and Credit growing every Day more and more precarious, which without timely Care to obviate, might prove of fatal Consequence Moreover Mr Hugh Brian having lately in Conference with the President, made Offer to supply us with what was needfull of that Kind under our present Exigence at a very reasonable Rate, in full Confidence of getting Payment in due Course of Time; It is the Opinion of this Board that the Offer made by Mr Hugh Brian should be accepted, and that the President do send him Notice thereof; Signifying that about forty Barrells of Rice and a proportionate Quantity of Corn will be acceptable.

At a Meeting of the President and Assistants for the Colony of Georgia on Friday the twenty first Day of November in the Year of our Lord 1746.

The Board taking into Consideration the necessitous Condition of the Widow Anderson who was left by the Death of her Husband with two small Children and who by her carefull Management has provided for them these three Years past; but now Business failing and Times growing hard with her for Want of Employment, of which the Board are very sensible, They therefore do order the Sum of forty Shillings to be paid Her under this Exigence, hoping thereby She will be enabled to surmount her present Necessities.

Saturday the twenty second Day of November 1746.

William Bearfutt and Anthony Groobs petitioning this Board for Lands near Augusta; The Same being recommended to Us by Captain Kent; They were deferred till the Captains Return from Frederica, which was soon expected.

Several Workmen's Bills being laid before the Board were carefully examined, and such as appeared just were ordered to stand in due Course of Payment; Some others that appeared unreasonable, were deferred till farther Enquiry was made concerning them.

At a Meeting of the President and Assistants for the Colony of Georgia on Wednesday the third Day of December in the Year of our Lord 1746.

The Board being informed that Mr Charles Watson newly arrived from England, had in Charge with him a Packett from the Trustees, which he had not yet delivered or taken any Notice of to Us, though 'tis more than a Fortnight since he landed at Frederica, where he yet continues; It was therefore thought proper that a Letter should be wrote him enquiring after the the Same, (810)

and in Case he had not yet forwarded it, desiring to deliver it to Captain Noble Jones, who intended to set out to Morrow for Frederica, and promised to take due Care of it, and send it to Us without farther Delay.

At a Meeting of the President and Assistants for the Colony of Georgia on Tuesday the ninth Day of December in the Year of our Lord 1746.

The President communicating to this Board sundry Letters and Papers together with four hundred Pounds in Sola Bills which he had lately received by the Ship Success Captain Thomson containing Matters of great Importance; after some Hours spent in perusing of the Same, the Board thought proper to adjourn till to Morrow Morning at nine of the Clock to consider farther of it.

Wednesday the tenth Day of December 1746.

The Board being met according to their Adjournment and having duly considered the great Necessities of the Colony, thought it necessary to issue out of the Money now received, and what was formerly in hand the Sum of four hundred Pounds to pay one Quarters Salaries and other Expences commencing at Mid Summer 1745 and ending at Michaelmas following, in Order to settle that Years Account under its proper Heads, that it might be transmitted to the Trustees to shew them what Ballance remained in our Hands.

The President communicating to this Board a Letter which he received yesterday from Mr Hopton at Charles Town in which was enclosed a Bill of Loading bearing Date at Portsmouth April the twelvth 1746 which was given for a Box directed to William Stephens Esqr to be kept dry, and shipped on Board the Loyal Catherine Richard White Master, which Vessell Mr Hopton acquaints the President is not arrived, and has great Reason to believe is foundered at Sea, there being no Account of her having been taken by the Enemy, therefore He is of Opinion that we cannot expect ever to receive that Box. The Loss of which

at this Time gives Us great Uneasiness, and will be (We fear) very detrimental to the Colony, being apprehensive the Sum of five hundred Pounds in Sola Bills was contained in the said Box, agreeable to a Letter from Mr Verelst dated the first of March 1745, wherein he informs Us that the Sum of five hundred Pounds would be sent Us by the first safe Conveyance. Such a Disappointment renders Us uncapable of carrying on the Accounts in so regular a Manner as we would wish to do, not being able to make proper Payments as the Service duly requires, which occasions a great Stop to Credit, whereby some ill designing People have made a Handle to distress the Inhabitants; which has oblidged this Board to make Use of some part of the Cash, to purchase necessary Provisions such as our Store Keepers here have not lately chose to deal in (well knowing that it is the most effectual Way to bring the Colony to Destruction); Which Sums so expended cannot be properly brought to Account, but in the Quarters wherein such Provisions were issued as Cash, and no Advantages taken of their Necessities: For the better Information of what is above recited Vide Minute of the eighteenth and nineteenth Day of June last; Which Method we are again driven to make Use of.

PROCEEDINGS of the President and Assistants for the Colony of Georgia from Wednesday the tenth Day of December 1746 Exclusive to Monday the twenty fifth Day of May 1747 Inclusive.

At a Meeting of the President and Assistants for the Colony of Georgia on Saturday the twentieth Day of December in the Year of our Lord 1746.

The Board read a Letter from Mr Secretary Martyn of the

eighteenth Day of July 1746 wherein was a Paragraph particularly relating to the Saltzburghers who had petitioned the Trustees to obtain for them a Tract of Land said to belong to the Uchee Indians almost adjoining to the Town of Ebenezer, which if it could be procured, was intended for their Use and to be annexed to that Township: Whereupon the Board referred to a former Minute of the seventh Day of January last, wherein it will appear that this Affair was thoroughly considered of, and our Opinions transmitted to the Trustees; but being lately informed the Packett in which *That* Minute was contained, having been shipped on Board the Hector Snow Capⁿ Rodger was taken some time in June last by the Enemy, as many others had been before; The whole Duplicates of what was then lost will be sent forthwith.

The Board had also under their Consideration what Mr Martyn writes concerning the Cowpen, and are unanimously of Opinion That it would be much to the Trustees Advantage to dispose of their Stock of Cattle and Horses, if a proper Method can be found for effectuating the Same, which shall not be wanting in Us, We having found by Experience for some time past that the Trustees must be great Sums of Money out of Pockett, especially since the great Numbers of Cattle that were lost in the late Mortality which continued three Years, if yet entirely over, many having been lost this last Summer; the great Numbers so lost is impossible to be accounted for; otherwise than by judging what was lost among tame Stocks which was computed at three fourths at least; which was the unhappy Case of most of the Inhabitants of this part of the Province.

The Board taking into Consideration the necessitous Condition of the Inhabitants for Want of Rice and Corn Do order the Sum of sixty Pounds to be issued to purchase such Commodities; the former Necessities as mentioned in a Minute of the nineteenth Day of June last still subsisting.

At a Meeting of the President and Assistants for the Colony of Georgia on Saturday the seventeenth Day of January in the Year of our Lord 1746/7

The Board spent most part of this Day in examining and looking into the Annual Accounts from Michaelmas 1744 to Michaelmas 1745 in Order that they might be sent to the Trust by the next Packett.

At a Meeting of the President and Assistants for the Colony of Georgia on Monday the twenty sixth Day of January in the Year of our Lord 1746/7.

Peter Baillou petitioned this Board for four hundred and fifty Acres of Land at the North End of White Marsh Island; But whereas he is already possessed of a Town, Garden and Farm Lott in the Town and Township of Savannah, whereon he has made good Improvements; For his farther Encouragement it is agreed by this Board to grant him a Tract of three hundred Acres at the said Place, well knowing his Ability to cultivate the same And not doubting that their Honours of the Trust will confirm it.

Isaac Barksdale petitioning this Board for five hundred Acres of Land about eighteen Miles distance from Fort Augusta To wit four hundred Acres on an Island called Uchee Island and one hundred Acres on the main Land opposite to the said Island: The Board being well acquainted with his Ability to settle the

Same and also being a Man that has shewed himself well disposed to serve the Publick They therefore recommend him to the Honble Trustees for a Grant of the said Lands in the mean while allowing him to begin his Improvements.

William Barefutt petitioning this Board for some Land near Augusta; He being recommended to Us by Captⁿ Kent as an industrious Man, Do grant him one hundred Acres at a Place called the Uchee old Town, hoping the Trustees will confirm the Same.

Captain Richard Kent recommending to this Board Anthony Groobs for a Tract of one hundred Acres of Land near Augusta; And that he had built a Corn Mill thereon which might be of great Benefit to the Inhabitants there They therefore upon the said Recommendation Do grant him the Tract aforesaid hoping the Trustees will approve of the Same.

"Georgia March 20th 1746/7

"I do hereby Certifie that in the Year 1739 I was an Inhabitant "in this Province and lived at the next Plantation to Mr Jacob "Mathews on the River Savannah, that he had cleared and plant"ed a large Tract of Land with English Wheat, Indian Corn,
"Pease, and Potatoes; and verily believe he had a larger Crop
"than any Planter raised by the Labour of White Hands within
"the said County And I further declare that I have often heard
"the said Mathews say, that he never received from the Trustees,
"or Persons in Power at Savannah on their Behalf, any Bounty
"or Reward for the said Produce: Some Time after which I re"turn'd to England and made Application to the Honourable
"Trustees for the Bounty of what I had raised on my own Plan"tation, and received from them about thirty nine Pounds as a
"Reward for the Same

they a Mill and other Conveniences for grinding and making the said Wheat into Flower a very few Years would enable them in a great Measure to supply the Colony with Flower at a much easier Rate than what is imported here from the Northern Provinces Which would be a great Encouragement to Planting and a Means of keeping (as a Supply of Flower became considerable) large Sums of Money within this Colony We therefore taking the Same into Consideration and finding that it will be of great Benefit to the Colony Do grant him a Lease of one hundred Acres of Land at the Place aforesaid for the Term of twenty one Years upon a Renewal every seven Years He paying to the Honourable Trustees an Acknowledgment of one Pound Sterling Per Annum not doubting but that their Honours will confirm the said Lease in Order to encourage so laudable an Undertaking.

Mr Bolzius having divers Times complained to this Board of the great Damage that He and his People suffers by the Increase of Wild Cattle in the Neighbourhood of Abercorn, Doctor Grahams and the Place where the Ebenezer People settled a Cowpen last Year The Board has as often taken the Same into Consideration but hitherto without Effect forasmuch as no Men or Horses that ever have been employed or could be hired here were found capable of driving that Swamp and Places adjacent So that it was conceived no Method could be taken to conquer or master the said wild Cattle otherwise than by shooting them in the Swamps and Thicketts where they harbour which was apprehended would be of dangerous Consequence by opening a Gap for Persons of ill Character to plunder the Woods For if Liberty should be given to the People of Ebenezer to kill and destroy such Cattle in the Woods as They shall think proper Other Inhabitants of the Colony would follow their Example having an equal Right which would soon end in the Destruction of People's tame Stocks under the Colour of wild Ones as is too well known to be the Practice of our Neighbours in Carolina where all unmarked Cattle becomes the Property of him that can lay hold of them These Difficulties being of such great Consequence could not be readily got over Therefore 'twas referred to the next Board for their farther Consideration.

At a Meeting of the President and Assistants for the Colony of Georgia on Tuesday the twenty eight Day of July in the Year of our Lord 1747.

The Board resumed the Affair relating to the wild Cattle about Abercorn and the Places adjacent and finding the former Difficulties still subsist and that it is impossible for Us to give M^r Bolzius the Liberty he required (Viz to kill the said Cattle) without giving a general Liberty for others to do the like Forasmuch as all Cattle in the Woods thô unmarked are claimed to be the Property of such Inhabitants and Settlers of this Colony whose Cows are gone wild Therefore under this Extremity We humbly submit it to their Honours to make such Provision for the Cure of those Evils as They shall think proper.

The President communicated to this Board a Letter of the fifth Instant from M^r Bolzius, acquainting Him That Ellis the Surveyor after running the Lines between the Village of Abercorn and the Lands of Ebenezer (including the whole Tract called Parkers Mill) which he finds to contain no more than about fifty Acres of good planting Land, the Rest consisting mostly of Cypress Swamp and Pine Barren, which is conceived to fall short of M^r Bolzius Expectations, and occasions him to require no more than fifty Acres of the said Lands, and That will be the very Spot where the Mill was heretofore erected; the Granting or Allowing of which will be (as this Board apprehends) destroying the backward Lands, there being no Landing of any Kind to come at

them, but thrô a deep Cypress Swamp at least half a Mile; Which being contrary to the General Rules of America and the particular Orders of the Trustees; 'Tis thought by the Board as a very unreasonable Request and not well to be complied with: But it is ordered that the Surveyor lays out the whole Vacancy betwixt Abercorn and Ebenezer in fifty Acre Tracts in such Forms as Mr Bolzius directs; but withall to keep as near as he can to general Rules. And it is farther observed from the said Letter; to make good the Quantity of Lands which were rejected by Mr Bolzius as Refuse; He desires an adjoining Gentlemans Lott containing five hundred Acres to be divided and parcelled out into fifty Acre Tracts; Which was readily complied with (Knowing the Trustees to be always desirous to accommodate Mr Bolzius and his Congregation in the best manner as can be) notwithstanding the Board observed that the said Lands had been designed for different Purposes heretofore.

The Provincial or Extra Troops having been lately discharged, in which Service William Atchison Finlay had been employed, and moreover had a Power given him by General Oglethorpe to act as Constable in the Creek Nation, but that Office now ceasing, and it appearing to Us that there would be an absolute Necessity of a Peace Officer living in the said Nation, to preserve the Peace as well among the White Men as Indians, which otherwise might be of very bad Consequence: The Board thought proper to appoint the aforesaid William Atchison Finlay to be a Constable for the said Purpose to do his Duty in all its parts conformable to his Office: But as this Board is not impowered to create New Salaries (he having Recompense from the General for the Time past) It was thought advisable by Us to recommend him to the Trustees for what Reward or Salary they shall think proper to allow Him for the said Services.

Tuesday the Eighteenth Day of August 1747.

Upon reading over Mr Secretary Martyns Letters of the 16th of March 1746/7 We observed a long Paragraph wholly relating to the Building of the Church, wherein We found Directions That the Outside Walls of the Church should be made with Feather Edge Boards and the Inside of the Walls to be boarded likewise, which Directions gave Us some Concern; Forasmuch as the first Directions from the Trustees contained in a Letter from Mr Verelst dated the 14th of December 1741, were to make the Foundation of Stone and the Walls of Plaister, which occasioned the Frame of the Building to be prepared and carried on in a Manner fitting to be finished as therein directed; After this its too well known how long the Work stood still: But upon the joyfull Receipt of a Letter from Mr Verelst of the 22d of October 1746 (Received the latter End of April 1747) We there find new Life given Us for compleating the Work, and as we understood it, not contradictory to the first Orders; But it being therein directed that the Inside Walls should be lined with Boards, which we also were desirous of doing; when consulting the Workmen

thereon, and computing the different Expences betwixt Plaistering and Boarding, We found the latter would exceed the former as least one third: These Things being duly considered induc'd Us to send for the Workmen, when we contracted to finish the Walls in the Manner following Viz-

To be watled betwixt the Studs with white Oak Watling, and filled up on each Side with a strong Plaister, that the Studs should be wholly covered at least three Quarters of an Inch, so that the Wall will be upwards of eight Inches thick; the OutSide to be covered with a strong Cement, and neatly sett off in Imitation of Stone Work; the Inside when finished to be a clean plaistered White Wall, which Wall upon strickt Enquiry is found by proper Judges to last five times longer than any Weather Boards, that can be nailed on; The Carpenters allowing that no Weather Boards will last above ten Years, before the Heats of the Sun rends them; And farther, the Workmen have since the Time of their Contract provided the Materials, great part of which are already brought to the Place of Work: All these Difficulties being joined together and duly consider'd We humbly hope the Trustees will not impute our continuing the Work in the Method as it was going on to be an Act of wilfull Disobedience, since it is impossible to pursue their present Orders therein, without putting them to an exceeding great Expence, besides the vast disproportion in the Durableness of the One and the other: The Boards for lining such Parts of the Wall that requires it, which will be eight foot high, the Floors, Seats, Doors, Window Shutters &c, all which will amount to a considerable Quantity, were bespoke of Mr Bolzius some Months past, and we shall always observe whatever Boards or other Timber is wanted for Publick Uses, shall be purchased of him.

The Board being met ordered the Clerk at the Stores to lay before them the State of the Demands that remains due on the Estimate to compleat the Years Account to Michaelmas 1746; Upon perusing the Same It was found it would take about one

thousand one Hundred Pounds; But as it is expected that a considerable Sum will be accounted for, for Beef, Shoes &c issued as Cash out of the Store to People who had Demands Therefore it is thought proper to issue the Sum of nine hundred Pounds to defray the Estimate to the aforesaid Time.

Mr John Milledge being in Town was sent for and acquainted that the Trustees had signified to this Board that he might possess such Part of the Lands, as he had heretofore petitioned for, as We should think him capable of cultivating, on Condition that he should resign his Lott in the Town of Savannah; To which he replied, That he had been at the Expence of near three hundred Pounds Sterling in improving of the said Lands and Building, and hath at this Time a considerable Stock of Horses and black Cattle, the Removing whereof would be his inevitable Ruin, And as the Lott in the Town of Savannah was the first Lands that ever he was possessed of, he absolutely refused to surrender the Same Therefore the Board could not grant him any part of the said Lands without incurring the Trustees Displeasure.

At the same Time we enquired of M^r Bolzius what Progress he had made concerning the Boards and Planks We had formerly bespoke of him, when he acquainted Us That he had a considerable Quantity, which had been sometime cut and pretty well seasoned; and he would send it down next Week, if the Depth of Water in the Creek, where the Mill is built, would permit him; We farther acquainted him that the Carpenters would immediately require what he had by him, and also a farther Quantity to make in the whole upwards of nine thousand feet according to the Dimensions now given him.

Whereas it appears by a Minute of this Board on the fourth Day of September last That John Baxter obtained Permission to go on with his Cultivation on the Lott N° 15 at Augusta He having before been put in Possession of the said Lott by Captain Richard Kent; Since which Time the Board have been well informed by unquestionable Authority That the said Baxter had sold and disposed of the said Lott for a Horse, before he had made any Application to this Board, whereby They find themselves greatly imposed on by the said Baxter, and that he had no other View in applying to this Board than to enable him to support the aforementioned Sale Therefore the Board do hereby revoke and disannul the said Permission by him obtained And do send Orders to Thomas Ellis the Surveyor who is now at Augusta, not to put Him or any other in his Name or Stead in Possession of the said Lott.

Joseph Barker also petitioned for a Tract of the said Lands whereon he has inhabited for several Years by Appointment of Captain Williams being One of his Troop and made considerable Improvements on the Same But forasmuch as his Behaviour when in the Trusts Service was notoriously bad as will appear by a Minute of the twelfth of October 1743 which then occasioned this Board to resolve that he should hold no Lands in this Colony of Georgia within one hundred Miles of the Trustees Cowpen; But in Consideration that his Improvements are large and that for some Years past he has shown a different Behaviour and promises well for the future The Board thought proper to retract that Resolution and allow him fifty Acres of the said Lands, if the Trustees shall approve thereof.

due Time and thoroughly considered the said Petition and well knowing that several of the Petitioners were Inhabitants and at this Time carrying on large Trades in Charles Town and other Places in Carolina and that there was no View or Prospect of their leaving the Business they were now engaged in, in Order to settle in Georgia And Mr Mullryne the Petitioner in their Behalfs did set forth that Some of them would not come in Person, but at present would only settle it by Servants We could not readily comply with their Request But as the Design of Ship Building and Traffick as set forth in the Petition would be of great Advantage to the Colony We thought it behoved Us to give all the Encouragement We could, consistent with our Duty: Therefore as Messieurs James Maxwell and Morgan Sab are well known to be Men of Worth and largely concerned in all Parts of the Indian Trade and have for some Time past shewn a Desire and Inclination of settling in this Colony knowing it better adapted to that Trade than where they now are And as the Petitioner Mullryne assured the Board that He himself together with Mr John Hutchinson wou'd immediately settle in Person on the said Lands and had procured Shipwrights and other fit Persons to carry on the Design as before recited And did at the same Time make Use of many Arguments and Perswassions to induce Us to allow of the whole Petition But it being a Matter of such great Importance as the Granting six thousand Acres of Lands in One Spot, That this Board did not think proper to take on themselves to do But judged they might venture (without incurring the Trustees Displeasure) to allow the aforesaid Messieurs John Mullryne, James Maxwell, Morgan Sab, and John Hutchinson to settle and possess Each of them five hundred Acres of Land at the Place aforesaid Referring them to the Trustees for a Grant of the said Lands And likewise the other Eight Tracts which the Board has promised should be reserved untill their Honours Direction thereon should be known.

Mr Thomas Bosomworth having been lately at Savannah; the President took the Opportunity to desire that They might have a little Conversation together relating to what the Trustees had mentioned in their Letter of the Seventeenth of July last, which he promised upon his Return from his Plantation up the River (where He was then going): But when he did return, he carefully avoided it, by shutting himself up with a Person or Two, with Whom he had Business, and sett out the next Day for the South: Soon after which We were informed that his Conversation was chiefly on the Topic of his Right in Lands granted him by the Indians, wherein he shewed a more than oRdinary Warmth; which this Board thought it their Duty to enquire strictly into, and it took up a few Days, the Particulars whereof will appear by the Several Affidavits made, and intended to be sent to their Honours by the first Conveyance.

support the same in Opposition to all Authority, and has at divers-Times declared that any Person or Persons should have free Liberty to introduce and make Use of Slaves in that part of the Colony and publickly blamed the People in this Part of it for not doing the Same: He has likewise since his Arrival from England caused several Lotts to be laid out in the South Woods adjoining to Frederica and disposed of the same as he thought proper without acquainting this Board therewith; which Proceedings of his have (as we apprehended) occasioned Numbers of People from Carolina to seek for Lands in this Colony, being perswaded to believe that the Use of Negroes was no longer prohibited: These Matters here set forth We humbly apprehend to be a sufficient Reason for this Board to reject the said Petitions and also all Others of the like Nature from the Inhabitants of South Carolina: We being fully convinced that their general Design is to introduce and use their Negroes notwithstanding their many Promisses and Protestations to the Contrary And furthermore this Board is come to the Resolution That they will receive no more Petitions from any of the Inhabitants of South Carolina untill the Trustees shall signify their Pleasure thereon And withall are determined to use their utmost Endeavours to sieze or drive out all Negroes that are or shall be found within this Colony.

The President having five Days agoe communicated to several Members of this Board the Contents of a Letter and two Affidavits from the Governour of South Carolina at the same time or-

dered a Meeting this Day; when the said Letter and Affidavits lying more properly before them; The Contents did sett forth That Captain John Hearne with upwards of fifty Slaves had lately left that Province with Design to defraud his Creditors of their just Rights the said Slaves being mortgaged And farther that Alexander Moone had likewise left the said Province and was said to be fled with his Slaves, to the Number of thirty or thereabouts, who were in like manner mortgaged to his Creditors; and They are supposed to be both retired into the Colony of Georgia. After perusing the said Letter and Affidavits the several Members of the Board having used their utmost Diligence to find out where the said Hearne and Moone might be concealed, neither of them having any Right to or Possession of any Lands in Georgia: Upon the stricktest and best Enquiry that could be made within that Time it could not be found out to what part of the Colony Mr Hearne and his Slaves had retired to, but was informed that he had passed the River Savannah with about forty Indian and Molatto Slaves but few if any Negroes nor can we yet hear what part of the Colony he is gone to, otherwise than that he went Southward and is supposed to be on the Bank of the Alatamaha.

Mr Alexander Moone (the other Person mentioned in the Governours Letter) we have discovered to be residing at Frederica and his Negroes to be employed some where thereabouts the particular Place or Places we cannot yet learn. Whereupon Mr Chevillette was sent for, who was the Person that delivered the Governours Letter and was likewise empowered by the Creditors of those People to endeavour to recover those Negroes they being mortgaged; when the said Chevillette produced the Mortgage Bonds, which Bonds were for some Time past expired And it appearing to this Board by the Contract entered into that the Slaves in Question were bonâ fide the Right of the Creditors and could by no means be deemed the Property of Moone. Thereupon it was thought advisable that the Magistrates shauld use the Power they are invested with for Recovery of the said Negroes for the Benefit of the Creditors.

Thomas Hird late Constable at Frederica being dead which

At a Meeting of the President and Assistants for the Colony of Georgia on Wednesday the twenty second Day of July in the Year of our Lord 1748

Several of the Dutch Servants who arrived here in the Judith Capⁿ Quarme in the Beginning of the Year 1746 having of late

behaved themselves in a very abrupt Manner to their respective Masters, and did this Day come in a collective Body to this Board insolently demanding to be discharged, declaring their Times to be expired Forasmuch as they had engaged to serve but three Years out of which they were to have one Day in the Week for their own Use, which they never yet have had, therefore insisted for the remaining six Months of the three Years with necessary Food and Cloathing for the said Time in Lieu of the One Day in the Week.— Upon making due Enquiry into the Reasons and Motives of this Behaviour, it was discover'd that several ill designing People had been spiriting them on, and in general their Country Men residing in this Colony, who are generally speaking a very troublesome and discontented Sett of People, and many of these last are still worse, no less than five able bodied Men having deserted their Service and the Colony soon after their Arrival Viz One from Ebenezer, One from Abercorn, One from Acton and Two from Savannali.

To set this Matter in as clear a Light as We can to the Honble Trustees, it will be necessary to go back to the Time of their Arrival at Savannah which was the Beginning of February 1745/6 Soon after which They were all called together and acquainted with the Contents of their Contract, and the Trustees Instructions thereon; particularly That every One of Age were to have fifty Acres of Land immediately laid out contiguous to their respective Masters and one Day in the Week during their Time to work on the Same They observing that they were to be dispersed in different Parts, declined having their Lands on that Footing, desiring to have it all together, finding the Day of the Week could be of no Service to many of them, they being many Miles from their design'd Lands; Therefore earnestly desired that the Day in the Week might be allowed them at the latter End of their Time. Upon which this Board after duly considering the Same, entered into the following Contract betwixt them and their respective Masters. To wit —

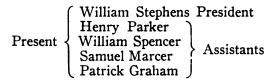

That they should serve three Years and four Months from the Time of their Arrival in this Colony and the latter eight Months of the four Years to be allowed them in Lieu of the Day in the Week and their respective Masters to give them sufficient Food and Cloathing for the said Eight Months; with which Agreement they were well content, it being agreeable to their own Proposals, and never offered to give any Disturbance thereon till lately. This Board farther observes that the Indorsement on the Back of the Indenture was on Condition That in Case they should cultivate Land during the three Years, which should be judged sufficient for their Maintainance by the Persons appointed by the Trustees for that Purpose, then their Times to expire, otherwise they were to serve four Years, which they entirely put out of their Power, by refusing to take up their Lands and the Day in the Week as by the above Contract.

At a Meeting of the President and Assistants for the Colony of Georgia on Friday the fifth Day of August in the Year of our Lord 1748

The Board after carefully perusing the Accounts, observed that it would take at least one hundred Pounds more to clear the Accounts to Michaelmas last And the said Sum of one hundred Pounds is ordered to be issued for the said Purpose.

Alexander Rose petitioned for three hundred Acres of Land at a Place called Sandy Point on the South Side of a River called New Port, which is South of Midway River The Board knowing him to have been in the Colony for fourteen Years and that he has generally been an industrious Man It was thought proper to allow him one hundred Acres at the said Place.

There having been lately many and frequent Complaints of the 16 or revol 6

Opposition given to the Civil Power within the District of Frederica and particularly by the Commanding Officer Lieutenant Colonel Heron, by which means several People have left that Part of the Colony without paying or making any Satisfaction for their just Debts; whereby some Families are greatly injured, if not ruin'd And only upon Supposition that the Constable, William Abbott, had Warrants from Savannah in Order to suppress such Doings He was violently assaulted beat and misused, so that his Life was in Danger; which was connived at (if not encouraged) by the Commanding Officer, who had himself threaten'd (supposing a Summons, Warrant or such like was against him for divers Assaults and just Debts) that if the Constable should attempt to serve them, to cutt off his Nose and Ears; by which means he has hitherto escaped that Justice due to his unparelled Behaviour The Board having taken Notice of these and

several other Complaints and well consider'd the Same, thought there was no better or more effectual Method to strengthen the Constables Hands than by appointing another, it being agreeable to the Trustees Estimate; and accordingly They appointed John Ashmore into that Office who appeared to be the properest Person of any of the Freeholders now remaining at Frederica.

Francis Harris and James Habersham Co-partners petitioned for Liberty to build a Wharf in the Front of this Town leaving the Distance of one hundred Feet from their intended Wharf and the Publick One, now in Use, And forasmuch as this seems to be a very material Affair and must conduce much to the Ease and Cheapness of Exporting all heavy and cumbersome Commodities such as Lumber &c; which if brought up and stowed on the Bluff would be attended with such an Expence, as would make them too dear for any foreign Markett: And as it is a Duty incumbent on this Board to encourage Trade and find out the easiest and cheapest Manner for exporting its native Commodities, which at present can be but little more than Lumber, and if that cannot be brought as cheap, if not cheaper to foreign Marketts, than what comes from the neighbouring Colonies, there can be no Expectations of Benefit from that Trade. This being an Affair of

such Consequence, that every Merchant who comes to settle and trade here will (we are apprehensive) require the same Priviledge of building Wharfs for their Purposes Therefore it was thought proper to referr and recommend their Petition, which is hereunto annexed, to the Honourable the Trustees Consideration; and at the same Time to prevent any Blame on this Board for laying Obstructions on the Exportation of Lumber &c We have given them Liberty to procure such Materials as are necessary towards the Building of such a Wharf to be ready, when their Honours shall signify their Pleasure thereon.

"To the Honourable the President and Assistants of the "Colony of Georgia at Savannah in the Colony aforesaid

"The humble Petition of Francis Harris and James "Habersham Co-partners.

"Humbly sheweth

"That your Petitioners have desired their Correspondent in "London to charter them a Ship to be loaded next January in "this Port for that Place, with Rice, Deer Skins, Indicoe and "other Produce of this Colony, and as they have at present no "Markett here to procure immediate Loading for said Ship on "her Arrival, they will be under a Necessity, to avoid paying De-"murage, of procuring and lodging at least the greatest part of "her Loading here to be ready on her Arrival; that as Rice, "Staves, Sassafrass and such other Articles as will be chiefly "wanted on this Occasion are bulky and comparatively invaluable (sie)

"Commodities, they must be lodged under the Bank on a conven"ient Wharf and in proper Stores; otherwise the Charge of bring"ing them up the Bank will be such a Burthen on the Commodi"ties, as they cannot possibly bear; that the Wharf now standing
"is no Ways calculated for such a Business, the Stores thereon,
"if in Repair, not being capable of containing more than a fifth
"Part of so small a Vessels Loading as we expect; that as it is
"common to all transient Persons, as well as the Inhabitants of
"the Colony, their Effects there will be exposed to great Dangers
"and many Inconveniences, of which they have had some Ex"perience that your Petitioners therefore humbly request, that

"you will grant them on Lease or otherwise, one hundred Feet "Front under the Bluff to build a Wharf and Stores thereon, "Sixty or Seventy Feet of which they propose to build on, and "the remaining Part to be reserved for Vessels to lay, if Occasion "should require, on each Side of the Wharf; and as your Peti-"tioners cannot attempt any Business of Consequence without "such a Convenience, they hope you will take the Same into your "Consideration, and either permit them to build, or remove their "Difficulties in such Manner as appear to You most effectual to "enable them to carry on Exportation, which must be a general "Good to the Whole Colony, and especially of this Town, and "your Petitioners as in Duty bound will ever pray &c

Savannah in Georgia the 29th March 1749.

At a Meeting of the President and Assistants for the Colony of Georgia on Thursday the twenty second Day of April in the Year of our Lord 1749.

Last Night Captain George Dunbarr arrived here on his Way to Frederica and delivered two Letters for the President (Viz) One from M^r Secretary Martyn dated the twenty eight Day of December 1748, and the other from M^r Harman Verelst dated the tenth of January 1748/9, who communicated the Same to this Board; and in pursuance to the Orders contained in M^r Verelsts Letter two hundred Sola Bills of one Pound each were issued to Captain George Dunbar and deliver'd to him.

At a Meeting of the President and Assistants for the Colony of Georgia on Monday the first Day of May in the Year of our Lord 1749.

This Morning a Messenger arriv'd by Land from Mr Hopton at Charles Town with a Box & small Packett directed to the President & Assistants, & deliver'd the Same to the President, who soon after communicated the Contents to the Board; but as the Duty of several Members required their Attendance at the Publick Court the farther Consideration thereon was postponed to another Time as that Business would permit: However they could not but at this Time observe the extravagant Charge, M Hopton put the Trustees to, which was no less than one hundred Pounds Currency the 7th Part of what the Box contain'd, which was occasion'd (as He informs Us) by Mr Verelsts pressing Or ders to him to forward it upon Receipt thereof: Several Members of this Board would willingly have lower'd the Expence but upon his producing the Agreement made by Mr Hopton They could not go from it Therefore ordered the aforesaid Sum of one hundred Pounds Currency to be immediately paid him.

At a Meeting of the President & Assistants for the Colony of Georgia on Thursday the fourth Day of May 1749.

The Members of this Board are fully sensible of the Trustees Pleasure in approving their Care with Regard to the Abilities of

those who have apply'd for Possession of Lands and will alwayspersevere therein thô notwithstanding all our Care We may at some Times be deceiv'd which is not the Case of Gray and Kent who have laid a very heavy & undeserv'd Charge against Us as appears by M^r Secretary Martyn's Letter of the 2^d of January last.

The Affair of Gray & Shepherd is, That on the third Day of March 1746/7 Peter Shepherd petitioned this Board for five hundred Acres of Land as set forth in a Minute of the twenty second of April 1747 wherein his Request was granted; But being afterwards informed by the Surveyor that there was not a Sufficiency of Land on the Island for Shepherd and Barksdale, the said Barksdale having a prior Possession as will also appear by a Minute of the 6th of January 1746/7, which occasioned Shepherd to renew his Petition for the like Quantity of Lands at New Savvannah near those belonging to Daniel Dourouzeaux, which Request was granted by a Minute of the sixth of January 1747/8, and a Warrant was issued to the Surveyor to run out the Same, which Lands were then and still are Vacant.

On the ninth of January 1747/8 William Gray petitioned this Board for five hundred Acres of Land situated at New Savvannah Setting forth that He had been possessed of the Same upwards of seven Years by the Consent and Approbation of General Oglethorpe: We then observed to Him that if He was possessed of the said Lands by Consent of General Oglethorpe twas as good a Title as We could give him and that no Body would attempt or should molest him in the said Possession until the Trustees Pleasure should be known; He reply'd, He was well satisfied with the Title he had if he continued to possess it himself, but that he had sold it to Captain Alexander Wood, and had entered into a large Penalty to make good his Title, Upon his attempting to do it, His Title was thought precarious by the Purchaser, and Nothing would content Him but the Approbation of this Board, which they thought in Prudence they could not give, forasmuch as it would appear that they approv'd of the Sale of Lands, which the Trustees have wholly reserved to themselves; He was therefore advised by Us to petition their Honours in whose Power it

wholly was: Soon after this, we were inform'd that the Surveyor had run out the said Lands for Peter Shepherd; But upon a Second Consideration He refused to put the said Shepherd into Possession, therefore the Lands remain still in the Possession of Gray or Wood, which said Wood at present occupies them. What is meant by Doctor Meads informing the Trustees that Captain Kent is in the same Circumstances with William Gray & that Part of his Land is granted to another, is what really We do not understand; forasmuch as He never was possessed of any Lands in Georgia but five hundred Acres on Wilmington Island adjoining to those possessed by Mr John Barnard; which Lands about two Years ago (as we are informed) He bequeathed and made over by Deed of Gift to Timothy the Son of the aforesaid John Barnard: If this is what is insinuated, it cannot be laid to our Charge, being a Thing we were wholly ignorant of untill this Inquiry.

Adjourned till to Morrow Morning

Friday the fifth Day of May 1749.

In a Letter from this Board to Mr Secretary Martyn of the fifth of November last, the State of the Church was particularly set forth, and all that We can add to it now, is, that it wants Nothing to compleat it, but the Seats Pulpit and Communion Table, all which will be finished in a little Time: The particular Account of the Expences hitherto is herewith transmitted; And We make no Doubt but that the Trustees will enable Us to defray the Same.

The Board has observed what the Trustees make Mention of in Regard to the Disbanding of Lieu^t General Oglethorpe's Regiment, and we are informed that the Same will not be disbanded, untill the Whole are brought together, which must take up some Time, One of the Companys being at Augusta.

Mr Henry Bourquin having renewed his Petition for five hundred Acres of Land situated on the North Side of the South Branch of the Little Ogeechee River, and did now fully satisfy the Board that He would immediately come and settle the Same; We knowing him to be a Man of sufficient Substance and a very

good Planter allowed of his Petition, believing it will be agreeable to the Trustees.

At the same Time Benedict Bourquin also renewed his Petition for three hundred and fifty Acres of Land to be adjoining those petitioned for by his Brother Henry, who likewise satisfied the Board with his industrious Inclinations, whose Request was also granted We knowing the two Brothers to be worthy Men humbly recommend them to the Trustees Favour.

At a Meeting of the President and Assistants for the Colony of Georgia on Tuesday the twenty third Day of May in the Year of our Lord 1749.

The Board being informed by Lieut Coll¹ Heron that he had appointed the first Day of June for the Disbanding of General Oglethorpe's Regiment, And the Company from Augusta a passing by here on Sunday last, occasioned us to think it was time that two of the Assistants should repair to Frederica (as porder from the Trustees) to be present at the Disbanding of the same; whereupon Mess¹⁸ William Spencer and Samuel Marcer who were appointed for that Service, were desir'd to set out as soon as conveniently they could, when they Acquainted us they would set out the next Morning.

At a Meeting of the President and Assistants for the Colony of Georgia on Saturday the Tenth Day of June in the Year of our Lord 1749.

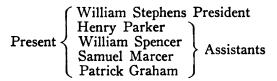

Mess^{rs} William Spencer and Samuel Marcer who are just returned from Frederica, and Acquainted the Board that they Arrived there on the Twenty Sixth of May about Noon, and where greatly surpriz'd to find that the Day appointed for the (810)

Disbanding of the Regiment was alter'd from the first of June to the Twenty Ninth of May, and the Men mostly intoxicated with Liquor occasioned (as they were inform'd) by the Money paid them for their Arrears and Second Suit of Cloathing, which was generally thought to be artfully contriv'd by the Commanding Officer, who had before their Arrival drafted to form the Three Companys such as were most desirous to stay in Georgia But however when the Day of Disbanding came, there were 151 Men who declared themselves desirous to remain in this Colony and received His Majesty's Bounty of Five Pounds each accordingly Those 151. Men together with their Wives and Children make in the whole 248. Souls; But what part of those will take up Lands or where, could not at that time be come at, the Men declaring they would take an Opportunity of looking for Lands where they liked best, But the whole insisted upon having the Trustees Allowance of Provisions, when they Acquainted them that as soon as they had pitched on their Lands and Setled thereon the Provisions should be provided for them: Which this Board were at a loss how to provide for. The Trustees having made no Provision for the same.

Cap^t Patrick Sutherland conceiving that the Lands lately appropriated for M^r John Stephens were more agreable and convenient for his purposes than the Lands heretofore Allotted him, had prevail'd on M^r Stephens to Surrender the same in his favour

on Condition that he could obtain him from this Board the like Quantity of Land on the South Side of the great Ogeechee or any other Place he should find Vacant. They now both attended this Board (Vizt) Capt Sutherland and Capt James Mackay in behalf of his son in Law Mr John Stephens to obtain their approbation, We readily complyed with their Request not doubting but that the Trustees would as readily confirm the same.

At a Meeting of the President and Assistants for the Colony of Georgia on Thursday the Fifteenth Day of June 1749.

Capt George Dunbar having been disappointed in the Possession of the Lands design'd him near Darian and as Mr Verelst in a Letter of the Tenth of January 1748 required this Board to Accommodate him with Lands as will best Suit his intended purpose with a right of Commonage as was before Granted him: He now Acquaints this Board that he can find no other Lands more commodious for his Purpose than Isla Island scituated on the River Savannah and opposite to Joseph's-Town which Island is supposed to contain One Thousand Acres of Land tho' the certain Quantity to us is unknown; We having always a Strict Regard to the Trustees Orders and a desire to accommodate those they should recommend and having likewise a just sence of Cap^t Dunbar's Merits; The Board therefore thought proper to Allow him Five Hundred Acres of Land on the said Island together with a Right of Commonage thereon if the Trustees should think proper to confirm the same.

PROCEEDINGS of the President and Assistants in Council assembled for the Colony of Georgia in America from Wednesday the fifthteenth Day of June 1749 Exclusive to Tuesday the twelvth Day of September 1749 Inclusive.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Thursday the twenty second Day of June 1749.

The President yesterday received a Letter from M^r Secretary Martyn of the Eleventh of March 1748/9 which he now communicated to the Board: And They can't help observing, that the Contents of the said Letter, must put a Stop to the future Progress of the Silk Manufacture; But however as this Board is thoroughly sensible of the Utility of that Branch of Business They will leave Nothing in their Power undone towards propagating and promoting the Same.

M^{re} Camuse, from the Time of her Suspension, left the Colony in Discontent, retired to Purysburgh, and is since dead. Since which Time, the Widow Anderson has been employed in that Business.

Mr John Ludwig Myer petitioned this Board Setting forth in his said Petition that He has been for some Years an Inhabitant of this Colony and hitherto has had no Possession of any Lands Therefore desired that He might have One hundred Acres of Land at a Place heretofore known by the Name of Parkers Mill The Board being well satisfied of his Character and knowing him to be a Man, that the Trustees takes Notice of, readily granted his Request.

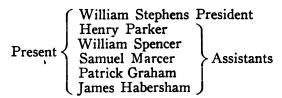

Messieurs Spencer and Marcer delivered in an Account of

their Expences when attending at Frederica on the Disbanding of General Oglethorpes Regiment; Which amounted to the Sum of Eleven Pounds, nine Shillings and six Pence Sterling, which said Sum was ordered to be paid, And therefore the Sum of Twelve Pounds in Sola Bills was issued for the said Purpose.

At the same Time They delivered to this Board an Inventory of what Stores were left at Frederica, returned to them by William Abbott the Constable there; Whom they had appointed to take the Same, and in whose Care they are ordered to remain until the Trustees Pleasure is farther known.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Monday the twenty fourth Day of July in the Year of our Lord 1749.

The Board being assembled, the President acquainted them that on Saturday last, he received a Message from M^r Thomas Bosomworth, acquainting him that the Night before, he arrived with three Chiefs from the Creek-Nation (Viz^t) Malatchee, whom they call the Emperor and two others, and desired a short conference with him; the President returned for answer that he would be ready to see them in an Hours Time, but in the Interim a great Shower of Rain fell, (which it was supposed) prevented their coming, that Afternoon.—Whereupon the President thought it prudent the next Morning to take M^r Graham with him to wait on them at M^r Bosomworth's House, where they were soon made to understand, that all the Chiefs of the Creek Nation would be here in a few Days; that M^{rs} Bosomworth said, that it had been reported for two Years past among her People in the Nation, That She was to be sent Home in Irons, and She having

designed to go Home in one of the Transport Ships that lately sailed from this Port; Mr Bosomworth hurried up into the Nation to bring Malatchee and other Chiefs, that he could then most conveniently get, to come down with him to see that She went on Board voluntarily, both She and her Husband, adding, that they did not know what the Consequence would be, if she should go off without their seeing her; and that Mr Bosomworth had likewise engaged the Chiefs of the Creeks to follow him down, and expected them here in seven or eight Days.—This Report alarmed the Board, and especially that a private Man should take upon him (contrary to the the express Tenor of the

Act) without previous Orders or Authority to bring down such a Body of Indians, at a Time when no Provision was made for them.—The Board by this and other corroborating Circumstances have too much Reason to suspect that the Bosomworths were carrying on some Secret and dangerous designs, and therefore deputed two of their Members to wait on them to know if they or the Indians had any particular Business with the Board; and if they had, they would be ready to receive them, and hear their Business to Morrow Morning at eight o'Clock.—Mr Bosomworth replied that the Indians now here had no Business with the Board, but came down to see her go off as before mentioned, but when the Body came down (which they expected in ten or fourteen Days) in order to meet her Brother Abraham, whom they had appointed their Agent to transact their Affairs in England, they would then hear what he had done, and Settle affairs so, that for the future, there may be no farther difference, and that then the Indians would deliver their Talk in Publick Court before all the People, which both She and her Brother Adam Bosomworth seem'd to repeat in a menacing Manner.

This occasioned an immediate enquiry of those, who were supposed to know something of the affair, of whom sufficient was learned to put Us upon our guard particularly in deceiving us in the Number; whom they reported to be about Fifty, but we are now all assured, that their Numbers are upwards of One Hundred; That their Business was, that if Abraham Bosomworth did not bring them a satisfactory Answer from England, to what

they had intrusted him with, they were determined in a Publick Manner to forbid any of the King's Subjects Setling any where above the flowing of the Tide, reserving three Islands (Viz^t) Ussebaw, S^t Catherine's and Sapala, which they intend publickly to possess the Bosomworths of, together with the Lands between this Town and Pipemakers Creek; being now resolved to have the affair finally ended, from whence our Informants were pleased to say, that if We did not Act with the utmost regard and caution, that great Confusion and Distractions might follow.

The Board Adjourned 'till to Morrow Morning to consider what further shall be done in so Critical an Affair.

Tuesday the 25th July 1749.

The Board being met, and every Member having duely Weighed and considered the transactions of Yesterday, They were unanimous of Opinion that the first and most expedient Step was, to get a good Interpreter; former experience having convinced them, that no trust can be given to M^{rs} Bosomworth in an Affair so nearly concering the Interest of herself and Fami(sic)

ly, which Interpreter could not be got without considerable expence, none proper for the Occasion being to be had nearer than Augusta or Charles-Town; and no Provision being made by the Government for defraying the distribution of the Presents and other Indian Expences, and as the charges of Mr Graham's late Journey to Charles-Town and expences there, together with the Freight of the Presents hither, has already amounted to near Sixty Pounds Sterling, and as larger expences are daily expected to accrue from this extraordinary Visit; The Board conceived, that the Agent was under an absolute necessity (as no provision was made) to draw on Mr Verelst the Agent in England for the Sum of One Hundred and fifty eight Pounds fifteen Shillings and one penny, in two drafts one in favour of Mr Patrick Graham for Fifty eight Pounds fifteen Shillings and one penny, to defray the former expences the other in favour of Mess^{re} Harris and Habersham for One Hundred Pounds to answer the Daily growing expences on this Occasion.

The Rev⁴ M^r Bolzius petitioned the Board, setting forth in his

said Petition, that he was desirous of Three Hundred Acres of Land, for himself and Successors: and other Three Hundred Acres of Land for the Rev^d Mr Lemke and his Successors, as Glebes for Ever for the Ministers of the Township of Ebenezer, and did at the same time request other Three Hundred Acres of Land as Glebes for a third Minister, whom they expected soon from Europe; all which Lands to be situated on the Back of a Body of Germans lately settled near Abercorn.— The Board having well and duly considered the several requests, thought proper to Allow the Three Hundred Acres, requested by Mr Bolzius to be immediately laid out, and put him in possession of the same for the Purposes before mentioned, and the two other Tracts of three Hundred Acres each to be kept in Reserve, until the Trustees pleasure be known, They, not being satisfied, what quantity of Glebes their Honours will be pleased to Allow to that Place, but this they beg leave to observe, that Mr Bolzius mentions, they may soon have occasion to Build a Church near to the Situation of the said Lands, there being already a considerable Body of Germans settled there, and a larger Number expected to settle in that Neighbourhood.

The Board Adjourned 'till to Morrow Morning.

Wednesday the 26th July 1749.

The Board being met, it was thought prudent to write a Letter to acquaint the Trustees with our dangerous Situation.

Mr James Fraser on behalf of himself and others of Augusta delivered a Memorial to the Board, setting forth that the Inhabitants of that Place, had subscribed and gathered a considerable Sum of Money, for the Building of a Church there; that they intended to Build the same adjoining to the Fort, but as many Inconveniences might arise from such a Situation, they now desire that the same may be built on some part of the Common belonging to the Town.— The Board having duly considered the Memorial, did hereby Authorize James Fraser, and the other Inhabitants of Augusta to take a peice of Ground in the said Common, not exceeding two Acres, to Build the said Church and for the Burial Place of the Dead.

Just as we were sending Messengers to Charles-Town and Augusta for an Interpreter, Providence provided us with one (Viz^t) John Kenard, who was one of the two Persons, we proposed toget, and is the second best Interpreter in the Nation.

Pursuant to the Trustees advice, the Board have appointed the first Monday in every Month to meet, and dispatch the Business, that may be laid before them.

Thursday the 27th July 1749.

The President having received a Letter from Mⁿ Bosomworth, which Appeared to him to be calculated for dangerous purposes, and knowing that all the Members were in Town, thought proper to call them together to advise on the same, and they were of opinion not to make any Comment thereon, but leave it to speak for itself.

"To William Stephens Esq^r Agent "for Indian Affairs &c.

The Board advised the President to invite Malatchee and the two other Chiefs; to Dine with him and the Members of the Board to Morrow at his own House, and also the Interpreter, in order to Efface any bad Impressions they may have received, and to cultivate a good Understanding, and at the same time the Interpreter was ordered to keep pretty close with them, and give them some small entertainments to humour them, and endeavour to penetrate Mr Bosomworth's designs in bringing them down here unsent for.

•

At a Meeting of the President and Assistants in Council Assembled for the Colony of Georgia on Monday the 7th August 1749.

The President acquainted this Board, that since the Day the Chiefs Dined with them, and from the Discourse they then had, they had behaved themselves more orderly, but as their Body was now considerably increased, and several other Chiefs had joined them, they began to behave very clamorous, demanding large quantities of Provisions, and other things not less expensive, which induced him to desire the opinion of this Board to what length he might necessarily go.— They were of opinion that, as those Indians came with different designs from any other Body of Indians that ever came here, and were highly Spirited up by the Bosomworths, that necessity would oblidge him to treat them with all the civility and candour, that could be used (notwithstanding the expences would be very large) in order to circumvent them, in their malicious and wicked designs.

Adjourned till to Morrow.

Tuesday the 8th August 1749.

The Board being met, the Interpreter came from the Chiefs requiring a quantity of Provisions to be Sent to Fort Argyle, to their followers, Women and Children for their Subsistance, until they came to Town; accordingly two Men with Horses were sent there with what was necessary for that purpose.

Several other Matters came before the Board, but as Occurrances relating to the Indians hourly accrued, It was thought prudent to postpone all other Business, in Order to have a more Watchfull Eye over the conduct of the Bosomworths and the Indians, until they should be dispatched.

The Board likewise advised Coll^o Stephens as Commander to have the Militia of the Town and places adjacent in readiness in case of danger approaching.

Wednesday the 9th August, 1749.

The Board being Still Assembled, Hourly Occurrances happened this Day, but nothing very material, only different party of Indians came down the River (without previous notice to them) in Boats provided by Bosomworth, notwithstanding they having been Acquainted by the Interpreter, the Boats were provided to bring them down from the Cow-pen on Friday Morning, when they should be received, agreeable to the usual Custom.

Thursday the 10th August 1749.

The Board being met they could not help taking notice of the extraordinary Behaviour of the last Party of these Indians, who came down the River in the middle of the Night, Fireing their Guns all the way in menacing and insulting Manner, which was occasioned by Bosomworth sending up his Boat last Night, even against Tide as soon as he heard the Interpreter was going with Provisions to detain them there, 'till Friday Morning.

The Board thought it adviseable, that the Interpreter should acquaint the Chiefs, that they should be received to Morrow Morning by the Militia on their own Lands at the place where Musgrove formerly lived, and it was ordered that the Path should be cleared of the Brush from thence to the Town for their better accommodation, and five Men were employed to do the same.— One of these Men acquainted Mr Russell (who had the care of them) that Whonny (a Slave Indian to Mr Bosomworth) brought a Message from his Master and Mistress, that they must not cut over his Master Mr Bosomworth's Line, of which Mr Russell acquainted this Board, and was told, it was for the convenience of the Indians, and they should go on with their Work, and pay no regard to such Orders, which Message was twice afterwards repeated by the same Person from Mr Bosomworth. but our Men continued their Work, being then on the Town side of the Line.— Soon after Mr Russell went to see how the Men.

who were then within the Indians Line, went on with their Work, and in returning back was met by Mr Bosomworth, his Wife, Brother Adam, Malatchee and other Indians. — Mr Bosomworth asked him by whose orders those People were employed, Mr Russell answer'd, by Order of the President and Assistants.— She told him that the Indians would not suffer them to go beyond their Line, Mr Russell reply'd, if they were displeased, it was proper they should Speak to the President.— Mr Russell left them, and they went to the Men that were at work, where Mr Bosomworth told them to leave off, they replyed, that they should continue their work, 'till ordered to have done by those that employed them.— Mr Bosomworth then repeatedly threatned them at their Peril to go any farther, and immediately the Indians seized their Tools, and carried them without their Line, and threw them down.

The Board were not a little Surprized at this extraordinary Behaviour of the Indians, who they well knew were Spirited up by the Bosomworths, which too apparently presaged the fulfilling of what we were told, we might expect from that Quarter, as mentioned in the Minutes of the 24th Ultimo.— And as the Inhabitants of this Town were much insensed at such Behaviour, it was judged expedient by the Board to prevent any farther uneasiness, to invite all the Chiefs to a Supper this Evening, whereby they might have an opportunity to convince them of their being misled, and that the Path was cut for their better accommodation, and as a pure Mark of Esteem.

Fryday the 11th August 1749.

As this Day was appointed for a Publick Conference with the Indians, all the Members of the Board gave an early attendance, and were in hopes that the last Night's Entertainment had it's desired Effect.— The Indians (after being well Acquainted with the intentions of the Board in clearing the Path, and the Sinister Views of the Bosomworths in making them uneasy) declared, that they had been misinformed, and as one of the Chiefs, who is closly Attach'd to the Bosomworths, had been instrumental in fomenting these misunderstandings.— Malatchee said that as

he had found him a Lyer, he should not speak as his Mouth any more, and desired the Affair might be entirely dropt, and that. We may Spend the Evening, and drink a Glass as Friends.

The President as Agent for Indian Affairs, desired the Board to take next into Consideration in what manner those Indians should be received, and what should be the Subject of Conversation with them, but notwithstanding, that great pains had been taken to penetrate their, or rather the designs of their Advisers, it was difficult to determine, what could be said to them, 'till they had opened themselves more freely; and as this affair appear'd to be attended with some uncommon Difficulties, The President (urging the Infermities attending old Age) desired one of the Board might particularly Assist him in carrying on the intended Conference, and accordingly Mr Henry Parker was unanimously requested to give him his Assistance.

The Militia being under Arms agreable to previous Notice, and a party of Horse being formed of Young Men in this Town and from the Neighboring Plantations, Capt Noble Jones, who on this Occasion was appointed by Collo Stephens to command the whole Militia, was ordered to receive these Indians with the Horse in the Limits of their Land, and to acquaint them (as we had certain information they were Armed) that they would not be suffered to March into the Town Armed, agreable to the usual Custom from the Settlement of the Colony.

The Board likewise ordered a plain and handsome Entertainment at the President's House, where they were to be received, and every Step was taken to put things in such a Disposition as might Shew, that they were received with the greatest Marks of Esteem and Friendship.

After these measures had been previously consulted and ordered, The President with the Members of the Board took a turn to view the Militia under Arms, and it was with the greatest pleasure, that they observed the whole (near One Hundred and Seventy Men) to to be drawn up in the compleatest order, and

full of Spirits, more particularly occasioned by the insults already offered, which they knew flowed originally from the Bosom-

worths.— Part of these were a small Body of Horse, Headed by Quarter-Master John Millidge, which made a good appearance.

About Ten o'Clock Capt Jones, Marched at the Head of the Horse to receive the Indians on their Land, and agreeable to his Orders acquainted them, that he must not suffer them to March into the Town Armed, whereupon every Man discharged his peice, and laid them down, and as it appeared to be a Salute, the Compliment was returned by the Horse.— They then Marched, and at the Head of the Indians appeared Mr Thomas Bosomworth in his Canonical Habit with his Brother Adam, next followed Malatchee and M^{rs} Bosomworth, and the rest according to their Custom to the Parade, where the Foot were drawn up in order to receive them, and at the same time they were Saluted with Fifteen peices of Cannon.— The Foot then Marched in the Front. and the Horse brought up the Rear to the President's House, when He and the Members of this Board received the Indians in the most kind and Courteous Manner; and Mr Thomas and Adam Bosomworth, both withdrew.— As customary the Chiefswere placed in Order, and Pipes and Glasses were handed around. —Soon after a Discourse ensued, when it was presently discovered they had other things in view, than merely to pay us a friendly visit, Malatchee declaring, that they had no Talk to deliver, 'till they saw Abraham Bosomworth, and knew what he brought from the great King in answer to a Talk, they had Sent by him.— He was then Asked, what induced him to come down here unsent for, and occasion so great an expence, for if their Business was to see a private Person, that Person must support them, and answer all Damages they should do.— He Answered that they had been informed, that Mary (meaning M^{rs} Bosomworth) was to be sent Home in Irons, and he was come to See, and if it was so, he would untie her.— It was replyed, that no such design was known here, but if She had done any thing to deserve it, as we looked upon her as a Subject of the King of Great Britain, we should tie her, and send her home without asking their Liberty.— Likewise Malatchee said, that Mr Bosomworth, was to give and receive all Talks from them and us, upon which Mrs Bosomworth assumed to be the Head and Chief of that Nation declaring, herself to be Empress and Queen of the Upper and Lower Creeks, and that She could command every Man to follow her.— She was then Asked, if she was not a Subject of the King of Great Britain? She answered, She owed him no Allegiance otherwise, than in Alliance, being herself a Sovereign.— While every one were industriously engaged in entertaining them with Pipes and Glasses, Several contraverted points past, which greatly displeased Mre Bosomworth, and Dinner coming on the Table, She was courteously intreated to partake thereof, the Indians having been invited the Night before, but She abruptly rose up and Spoke to the Indians to follow her, upon which Malatchee and five other did, and Six remained, two

of which are allowed to be of equal esteem and authority with Malatchee in the Nation.

Thus after all the trouble the Inhabitants had been put to, and the expence the Indians have Occasioned, This Board were sorry to find that their good endeavors were so far frustrated by the Pride and Ambition of one Family, whom nothing will satisfie, but a dangerous and unallowable Sovereignty; a right to the far greatest part of the Lands of this Colony, and a Moiety of those Goods that his Majesty has graciously Sent as a present to the Indians in Friendship with this and the Neighbouring Colony, which Pretentions this Board are determined not to give the least Countenance to, but will always oppose by every Justifiable Method, as faithful Subjects to his Majesty.

Saturday the 12th August 1749.

Yesterday about 5 o'Clock in the Afternoon, when it was expected all was quiet for that Evening, and the Militia discharged from under Arms, the Town was suddenly Alarmed by the beat of a Drum, through the Streets at the Head of a great Number of Indians, and at the same time a false report was Spread, that Collo Stephens's Head was cut off, which so exasperated the Inhabitants, that near One Hundred (including the Horsemen) were under Arms in a few Minutes, and Rendezvous'd in the Upper Square, where the Indians were then on their March.— Prov-

identially the Members of the Board being near and unarmed, run in and stopped the Indians on their March, and Seized Mr Adam Bosomworth at their Head, together with a White Servant of Mr Bosomworths, who was the Linguist, and immediately in, the face of the Indians committed them to Prison.— Our Inhabitants were so enraged, that it was with the greatest difficulty, they could be prevented fireing on them, and had not the Members of this Board Stood before the Indians, 'till they were induced to disperse, it was feared the Consequence would have been fatal.— In the mean time all means were used to make the Chiefs sensible of their Misbehaviour, and they Voluntarily proposed to go to the President's House to drink a Glass of Wine, and talk the Affair over.— They were hardly got to the Steps of the President's Door, when Mr Bosomworth like a Mad and Frantick Woman came running in among them, endeavouring all she could to irretate the Indians afresh, upon which our Militia continued under Arms, not thinking it proper to disperse, 'till they Saw her violent Behaviour suppressed.— But she being treated with too much Lenity and endeavour'd to be reasoned into temper, to prevent her runing on her own ruin, She rose to such a pitch of Insolence, as repeatedly to threaten the Lives of some of the Magistrates, and the destruction of the Colony, through her influence with, and command over the Indians, and before a great Number of People, said you talk of your White Town, your General and his Treaties, a fig for your General, you have not a Foot of Land in the Colony, and Stamping with her Foot on the Ground impudently said, That very Ground was her's.— Whereupon She was ordered under confinement into a private House.— She seeing the Resolution that was taken to resent her insolence, became more submissive, and desired to go into the President's House, where she was immediately introduced with the Chiefs.— After some very Sharp Talk to her and the Indians about their insufferable Behaviour, Malatchee earnestly and frequently desired, that the whole might be dropt, and that Adam Bosomworth might be sent for out of Prison, Urging that He had drawn him into this Scrape, and he supposed that on his Account, He was now Locked up.— This being a matter of too great Consequence

to be easily Submitted to; It was insisted that Mr Thomas Bosomworth should immediately appear, and enter into an Engagement, that himself, Wife and Brother, together with the Indian Chiefs, should meet this Board at eight o'Clock this Morrow.— After some time he came, when he appeared almost as insolent as his Wife had done before, but was soon made to understand, that we were not to be freightned and Threatned into a compliance with his Mischevious and self interested designs, but knew how, and had Resolution likewise to treat him and his Family as they deserved.— After this, He thought proper to Submit, and with Tears condemned his Wife's and Brother's conduct, and beged for favour, promising that he, his Wife and Brother (if he was released for that Night) would appear with the Indian Chiefs this Morning as required, upon which Adam Bosomworth was sent for, and entered into the same engagement, all promising the Indian Chiefs, should have no Liquor from them that Night.

This Disturbance was sufficient to occasion the Commander of the Militia to double the Guard, and the Troop of Horse came to a Resolution and offered their Service, which was kindly accepted, that though they were on their own expence, they would be on constant Duty Day and Night, 'till these Indians should depart from hence, and that Six of their Troop should every Night duly Patroll round and through the Streets of this Town.

This Morning about eight o'Clock Mr Bosomworth sent a Message to the President to Acquaint him, the Indian Chiefs were all Drunk, and could not attend: But the Board being well informed by the Patroles, who kept a Watchful Eye over them all Night, that the Bosomworths contrary to their engagements, seduced these Indians to their House, where they kept them Drinking 'till Day light, and used all means to Stir them up to be assisting in their Wicked designs, and prevent any good effect, which this intended Morning's Meeting was expected to produce.

—The Board hereupon, sent to Mr Bosomworth, acquainting him, that it was required, that He, his Wife and Brother should attend them immediately whether the Indians were capable or not, otherwise necessity would require, that they should be forth-

with confined, in order to prevent any farther Mischief.— Where-upon M^{rs} Bosomworth and her Brother Adam attended, and endeavoured to impose upon the Board, by forgeing an idle excuse for the non attendance of M^r Thomas Bosomworth, though We well knew, He was in the same condition with his Compinions the

Indians.— After some Conversation suitable to their Behaviour, both appearing very submissive, professing their sorrow for what had past, and promising amendment for the future, they were allowed 'till two o'Clock in the Afternoon to Meet this Board with the Chiefs.

The Board after duly considering of what was past, and being desirous to make use of every Assistance, thought proper to send for Some Gentlemen then in Town, who had been conversant among the Creek-Indians; and after some conversation with them, it was judged prudent, that they should endeavour to get some of the soberest and leading Men of the Chiefs, and try if they could open their Eyes to See into the pernicious designs of the Bosomworths (equally, if not more hurtful to them, than to us,) by a familiar and private Conversation.— To this end they were requested to entertain them, and what needful expence they should be at, would be readily defrayed.— This had its desired effect, and about Three o'Clock, the Bosomworths not attending according to promise, and the Board being acquainted, that the Chiefs, in company with the aforesaid Gentlemen began to be convinced of the mistakes they had been led into, thought proper to joyn them.— After some Conversation, and finding Malatchee still kept himself at a distance at Bosomworth's House, two of the Chiefs were desired to wait on him, and induce him to join our Company.— They returned and brought an excuse from him, that his Head Ached, and could not come, but would the next Morning, which they themselves said was an idle Talk, for he was well.— They then were told, that to Morrow was our great Beloved Day, on which We did no Business, that Malatchee and the Bosomworths had already broke their Words, and that they could not any longer be depended on, therefore desired them to go again to Malatchee, and acquaint him with this Talk, and that if he did not immediately come, M^r Bosomworth, his Wifeand Brother should be directly Locked up, for it was determined to know, whether they were Friends or Foes this Night.

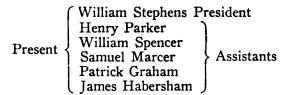

This Message brought Malatchee, and after the usual Salutations, the same Discourse, as was had with the other Chiefs, was resumed, and he was further told; that our Princes and Beloved Men had but one Tongue, and never broke their words, and We could not avoid letting him know, that We suspected He had two Tongues.— He attempted to excuse himself, which tho' trifling, was easily accepted, as the Point intended was to bring him intothe same Temper, as the other Chiefs appeared to be in.—As this Board were sensible that the Bosomworths had no farther regard to these Indians, than to accomplish their self interested views through their means, great endeavours were used to convince them of the same, for it was known, that Mr Bosomworth had acquainted his Creditors, that he should receive at least one third part of these Presents.— This Occasioned Malatchee and the other Chiefs to be asked, if they were willing to receive only two Blankets and let Bosomworth have the third, and so in proportion of all that the Great King had sent them.— They declared No.— They then were told, that the Great King had sent these Goods to the Beloved Men here, to be by them distributed among the Indians in Token of his Friendship, and their steady adherence to him during the late War, and that it was their Duty to protect the Indians in their rights to these Presents, and likewise to their Lands, which Bosomworth pretended to claim; that the Lands adjoining to this Town were Reserved for them and their Children to Encamp on, when they came to pay a visit to the Beloved Men here; that the three Islands were likewise reserved for their Children and Childrens Children to hunt on, when they came down to see the Salt Water, and it was our Duty to prevent any White Men from Molesting them thereon, that this We should leave in Writing for our Children to know, when We were Dead and gone, and hoped they would tell their Children that they might know and Remember the same.— To this they all replyed, the Talk was very good, and that they now plainly saw, how much they had been imposed on, and would always Remem-

ber it; and Malatchee farther said, that he was now sensible, that the Bosomworths deceived him, and would not go to them any more.— He was then asked, what he meant Yesterday by allowing M^{re} Bosomworth to be Empress and Queen of the Creek-Nation, and whether he thought She or himself was Chief there.— He answered with some warmth, that He did not before understand, that He was Ranked with an Old Woman, and he was Chief, It was then told him that it was well known, that he was Chief of the Lower Creeks, and when We had any Business with them, We should Acquaint him with it.— He seem'd now perfectly satisfied, and desired all such Talks should be ended and thought of no more.— He was then told, that although they came here unsent for, yet as He and his People where here, they should

have the Presents, our great King had sent them, but as to Morrow was our Beloved Day, We could do no work 'till the beginning of the Week.

At a Meeting of the President and Assistants in Council Assembled for the Colony of Georgia on Monday the Fourteenth Day of August 1749.

The Board being met, were glad to find, that their last Saturday's conversation with the Chiefs had so good Success, they appearing now friendly and easy, and Malatchee it's said, has not been so familiar at Bosomworth's House since.— Yesterday He and some other Chiefs attended Divine Service, and in the Evening walked out with the President and some of the Members of this Board, attended with the Gentlemen of the Troop on Foot to the Spring, where He and all the Chiefs seemed highly delighted and pleased, with the respect Shewn them, and returned

to the Town in the same Disposition, taking a friendly leave about the Dawn of the Evening.

The Board took into Consideration the necessity of Dismissing these Indians, as they occasioned a large and growing expence, and put the Inhabitants to great Difficulties in keeping a constant Duty, But as they had been made to expect very large Presents by the Bosomworths in the Nation, which occasioned the Agent to give them some expectations of Presents at the conclusion of their Discourse last Saturday, they were at a doubt what to do, as the Distribution of these Presents were solely invested in the two Agents of this Colony and South Carolina.— Therefore the President as Agent desired the Advice of this Board, what Method was best for him to pursue, in distributing the same to the Indians, as Mr Abraham Bosomworth the Agent from Carolina was not here, though long since expected, for his Brother Adam, who went from hence to fetch him on the arrival of the first of these Indians, returned Ten Days ago, and said that his Brother would follow him the next Day.— The Board immediately took this into Consideration, and for the Reasons before mentioned, were of opinion, that it would as well answer his Majesty's most gracious Intentions, as the welfare of the Colony, for the Agent as soon as possible to make a proportionable division of all the Presents, and deliver a proper share of them to these Indians in the presence of Creditable Witnesses; and for as much as the Bosomworths had insinuated at several times to these Indians, that these Presents were sent over by their Interest, and were at the disposal of their Brother Abraham, and none could be given them, 'till he came, that it would be more conducive for the Peace of the Colony, and a means to lessen Mr Bosomworth's bad influence among them, as well as convince them, that Abraham Bosomworth, could not give them to whom he pleased.

Tuesday the 15th August 1749.

Every thing continued peaceable and quiet as Yesterday, only it is to be observed, that Malatchee appeared again to be discontented, and upon enquiry, it was discovered, that the Bosom-

worths had seduced him to their House, and it is not doubted, but that they had been Spiriting him into an uneasy and Jealous Disposition, and indeed from what can be observed from his Conduct, He appears to be a fickle, wavering and unsteady Man, little to be Regarded, and not to be depended upon, and to use the Native expression of a Chief next to himself in Authority; "His Heart is like the Wind, or rather that He had no Heart at all.

As a Resolution was taken to divide the Presents, the President as Agent desired his Coadjutor M^r Patrick Graham to take that trouble on himself.

Wednesday the 16th August 1749.

M^r Patrick Graham acquainted the President that He had Spent all Day Yesterday, and part of this in dividing the Presents, and had ordered the proper proportion for this Body of Indians to be carried to the Council Chamber, adjoining the Court House; Upon which the Interpreter was ordered to acquaint the Indians that the Presents were ready to be delivered to them at the Court House, where they were expected to be at Three o'-Clock this Afternoon, and Cap^t Jones was ordered to escorte them there, with the Troop of Horse.

Thursday the 17th August 1749.

Agreable to Orders given to Cap^t Noble Jones, the Horse escorted the Indians to the Court House Yesterday at Three O'-Clock in the Afternoon, where they were all introduced and Seated in form, being upwards of Seventy Men.— After the usual Ceremony of Pipes and Glasses handed round; and they being acquainted with the purport of this Meeting in the most friendly Manner.— Malatchee rose up with a frowning Countenance, and delivered a long Talk, fraught with dangerous and ill natured insinuations, which too evidently appeared to be dictated to him by the Bosomworths.— Among many other things, He declared that it was by Mary's (meaning Mⁿ Bosomworth's) permission, that we Lived here, for that she was here before the Squire (meaning General Oglethorpe) brought any White People; that She gave them liberty to Settle; that the Lands they now lived

on were held under her; that all the Lands they should Settle on, should be held from her, for that She was the Queen and Head of their Nation; that her Talk was their Talk, and that what she said they would stand by; often repeated that He meant no harm by his Talk, and that his Heart was still streight, as he hoped the Beloved Men's were.— A good deal more He spoke to the like purpose, and was not interrupted, agreable to his desire, 'till He said he had done; and then delivered a Paper unsigned and dated Aug' 1749; which He desired might be

read; the Purport whereof filled every good Subject present with Abhorrence and Astonishment, and especially that any Brittish Subject could be capable of being the Author.— The Preamble was filled with a Number of Indian Names, called Kings of divers Towns of the Upper and lower Creeks, none of whom that we could Understand were now present except Malatchee, and one other, notwithstanding it was dated August 1749, And there-

fore must be the Production of Bosomworth, these Indians being here before the beginning of this Month.— After a long Preamble, the Substance was agreable to the Talk, He had before delivered, Stileing Mr Bosomworth rightful and lawful Princess and Chief of their Nation (descended in a Maternal Line from their Lawful Emperor) by an Indian Name; and investing of her with a sole power and Authority to transmit all Matters, Causes or things whatsoever relating to Lands or otherwise with the Great King and his Beloved Councillors over the great Waters, as well as with his Beloved Men on this side the Water, and that whatever She should do or say, was the same as done or said by themselves.— After this paper was Read, Malatchee observed our People universally displeased, and desired it again, saying that He did not know what was in it, and was not told it was a bad Talk, but would return it to the Person He had it from.— Some doubt arose whether the Paper should be returned, and being unwilling to push Matters too far, and knowing the Nature of Indians to be such, that if it had been kept, it would have been a sufficient reason for them to imagine, it was Approved of, therefore it was returned him.

The following was the substance of the answers given to Malatchee's Talk; that the Great Squire on his first arrival here, with his People found Mary (then Wife to John Musgrove) setled in a small Trading-House on this Bluff by Licence from the Government of South Carolina; that She then appeared to be in mean and low Circumstances, being only Cloathed with a Red Stroud Petticoat and Osnabrig Shift; that the Squire understanding, She could speak the Creek as well as the English Tongue, made use of her as an Interpreter, first to Tomochachi's small party of Indians found on this spot and afterwards to other Parties of Indians invited from the Creek Nation; that by this means She became generally known among the Indians in that Nation; that the Squire always paid her well, besides making her very extraordinary Presents for her trouble, and made her the Woman she now appears to be; that the Squire and the White People always respected her, 'till She Married Bosomworth, but She has since been found a Lyer; that if She was a Relation of yours (speaking to Malatchee) she would be looked on such, but we well know, that She is not of your Family, being a Daughter of a Woman of the Tuckabachee Town (of no Note or Family) by a White Man; that the Squire could not treat with Mary for these Lands, She having none of her own; that the Squire sent soon after He first came, for all the Head and Old Men of the Nation, who came down; that it was from them, that he had these Lands; that he had liberty to settle White People, when and where he pleased; that they then said were glad the White People, came to settle among them, and that they did not want these Lands, having enough for their use where they Lived, which was a great way of .- As this Humour among these Indians, was infused into them by M⁷⁸ Bosomworth, through the instigation of her Husband, it was thought expedient to tell them; that Bosomworth owed a great deal of Money among the White People; that for part of which, He was now tied, (meaning a Prisoner) and they might themselves see, He had a White Man to take care of him; and that he wanted a great many of the Presents, that the Great King had sent to be given among the Indians, to sell to them for Skins, to pay his Debts.— Then a Question was put to

them, if they were willing to let him have part of these Presents designed for them? they all answered No, that he should have none of theirs.— They were then told, that the Great King had sent these Presents to the Beloved Man here (pointing to the President) to divide and give them among them, and other Indians in Friendship with him; that it was his Duty to See it done, and would protect them in their Rights; that Bosomworth saw, He was determined to do them Justice, and that he was like to have done of these Presents, which made him angry, and He endeavoured to fill their Heads with idle Stories to break that old Friendship, Subsisting between them and us.— Upon which the Indians declared, that their Eyes were now opened, and desired this Talk might drop, for they meant no harm; and further desired, that the Old Friendship subsisting might still continue between our Children and Childrens Children.— It is to be observed, that during this Talk, that Malatchee appeared so angry as to foam at his Mouth, by finding himself opposed in the execution of the pernicious Schemes that Bosomworth had filled his Head with, and in one of these Heats, ordered his People to go out (which only the Young Men obeyed) Seemingly in great Warmth, the Chiefs and old Men Staying behind.— Being now come to a better temper, He frequently professed a Friendship, and said he was sorry to see the White People angry, for that he meant no harm by this Talk, and desired it might be forgot on both Sides.— It was then demanded as a token of that Friendship he professed that he would give us the Paper, he had produced to be burnt, for we looked upon it as Nothing.— He reply'd, He must give it to the Person, he had it from, but that he looked upon it as nothing, as well as We.— Upon that the whole of our People present were desired to take Notice of what he said.— He was then told, that the White People looked upon that Paper, to be of no more consequence, than that He now saw burnt before them (a piece of Paper being then burnt).— He answered, he looked upon it as the same.— After this the Pipes and Glasses were again handed round, and to appearance all seemed calm and easy.— But as the leading Principles of the generallity of Indians are Fear and Interest, so Malatchee's inconstant Behaviour, 18 e -- vo! 6

gives too much reason to doubt the sincerity and continuance of his professed Friendship.— However as it was supposed, that some of these Indians, were the whole that Mr Bosomworth could influence, or that Malatchee could lead, it was thought prudent to purchase them with large and handsome Presents, which might also tend to Countermine the dangerous designs of the Bosomworths in their consequences so destructive to the Welfare of this Colony.— Whereupon the Presents designed them were ordered into the Court-House, and were delivered to every Chief in the most Publick and Shewey Manner, except their Ammunition, which they were told would be delivered them, when they went away, it not being proper to bring it, where there were Pipes and Tobacco.—But a farther Reason was, that it was not thought adviseable, to trust them with such a quantity of Powder, 'till their real Designs were farther known.— After Sitting so long, being tired, Malatchee desired that the Remainder of the Presents designed for the Young Men, Women and Children here, and those left in their Towns, might be given them to Morrow Morning, and requested as a farther Proof of their good intention, that they might smoak a friendly Pipe, and Spend the Evening with the Beloved Men in Mirth.

Agreable to Malatchee's Request, the Members of this Board attended him and the other Chiefs from the Court-House to a Tavern about Seven o'Clock, escorted by the Troop of Horse, who have Shewn themselves on this occasion very alert and ready. -The Company had not met half an Hour, when the Conversation turned on the most friendly Topicks, and Malatchee in particular desired the whole to link cross Hands beginning himself (which made some of the Company Smile, being Free Masons) and then, wished that their Hearts might be for Ever so linked, as their Hands then were. - Immediately upon this, M" Bosomworth rushed into the Room, in the most violent outragious and unseemly manner, that a Woman Spirited up with Liquor, Drunk with passion, and disapointed in her Views could be guilty of.— Notwithstanding Mrs Bosomworth's insufferable Behaviour, she was treated in the civilest Language, that could be expressed, and told that the Company were engaged in a

friendly Conversation, and they were sorry she came in that frantick Manner, on purpose to interrupt it, and was kindly desired to withdraw.— Upon which, She declared that these People (meaning the Indians) were her's and that She would be, where they were, and that they should follow her, whereever she should command them.— She was then told, that her whole Behaviour in this Affair was an idle Farce, and all that had the least Regard for her, must advise her to go home, go to Bed and not expose herself.— She then, if possible, grew more outragious, and in the most insulting Manner declared, She was Empress and Queen of the Upper and Lower Creeks, Yea, went so far in her imaginary Sovereignty, as to call herself King, and that She could command every Man in those Nations to follow her, and We should soon know it to our Cost.— It is needless to repeat, the threatning and irritating Language used by this Woman, indicating both her and Husband's wicked designs.— She likewise several times Spoke to Malatchee in the Creek Tongue with the greatest heat, and it was observed, that he was much irritated.— She at length was told; that if She did not immediately go quietly home, and leave of incensing the Indians to Mischief, there would be a necessity of confining her, as his Majesty's Subjects were not to be insulted and threatened through her means.— She then told this to Malatchee, with the most aggravating Circumstances. —He then rose up incensed with Rage, foaming at the Mouth, like a Mad Beast, called on his People and said, tye her as soon as they would, He would untie her.— These threats could not longer be tamely suffered, therefore the Peace Officers were called, and she delivered to them with an order to confine her in a private Room in the Guard-house, 'till countermanded.— M^{**} Bosomworth had publickly and at several times declared, that none durst confine her, and had, told the Indians, tho' she was threatned last Friday yet none dared to do it, but upon Seeing it done, they were all astonished, and quietly Sat down, except Malatchee, who was more particularly under her influence as a fit Tool for Mischief, and would not immediately be made easy.— The rest of the Chiefs perceiving this, privately withdrew one after another into a Back Room, and soon found means to acquaint the Members of this Board, where they were, desiring Malatchee might not know of it, as they were ashamed of his Behaviour, adding that it was like the Man.

During this confusion, one of the Chiefs, as troublesome as Malatchee, Slipt unperceived out of the Room, and went to the House, where most of their followers lodged and ordered them to arm themselves, which they did.— Our People keeping a Watchful Eye, soon perceived it, and acquainted Cap^t Jones, who had then the care of the Militia, upon which he ordered a party of Men to tell them, if they did not immediately lay down their Arms, they would every Man be cut of; this deterred them; they laid down their Arms and remained quiet.

As the Peace Officers were conveying Mⁿ Bosomworth to Prison, Mr Bosomworth who had not appeared that Day, joined the Officers, and insulted and abused them with many Oaths and Curses, which occasioned some of the Members of this Board to be sent for to prevent an Uproar, who took Mr Bosomworth aside, and endeavoured to reason him into a sence of the Mistakes, He had led himself and Wife into.— After he was as cool as could be expected from a Person partly intoxicated with Liquor, and partly with passion, He blamed his Wife's ill conduct, but at the same time endeavoured to justifye and support her pretended Rights, declaring with many Oaths sooner than She should loose her Birth-right, He would spend the last drop of his Blood, and Swearing by G-d that General Oglethorpe had ruined her, and deceived every Man in the Colony; That the whole was a Bubble, and that no Man's title to his Lands was worth that-(snapping his Fingers) and being Checked for Swearing, idely excused himself and said, He could not help it; But by G-d, We should all soon know the truth of what he said, adding that General Oglethorpe's Scheme had been to deceive all Mankind.— As this is Wrote, as it was Spoke, the Board think it needs no Explanation.

As it was thought necessary to improve the good Disposition, that appeared in the Ten Chiefs that retired, the Members of this Board desired some Gentlemen who understood the Creek-Tongue to join them, after which, they spent the Evening agre-

ably, and the Chiefs often declared, that they disliked Malatchee's Behaviour.

Besides the usual Guard of Horse and Foot, the whole Inhabitants appeared alert, and most of them continued under Arms all Night.

The Transactions of last Night, Obliged the Board to keep close to Business all this Morning, and many of the Chiefs being intoxicated with Liquor, the delivery of the Remainder of the Presents, was deferred 'till the Afternoon.

Mr Bosomworth desired Several times this Morning to speak with this Board, but as they were closely confined to Business, He was acquainted He might come at two o'Clock, when his Business would be heard.

Mr Bosomworth attended at the time appointed, and the Chief of his Business was, to make many excuses for his own and his Wife's Misconduct, and promised that if a Vail was thrown over their late Behaviour, He would for the future shew himself a dutifull Subject, and act agreable to the Character of a Clergyman, and also came under the same ingagement, that he would use his endeavour to prevent his Wife creating any more disturbance, and that She should behave as a prudent Woman ought.—The Board did not fail improving this opportunity to expaciate upon his former and present Conduct, so inconsistant with the Character of a British Subject, and honest Man and a Clergyman, and likewise acquainted him with what punishment he had deserved for the many Crimes and Misdemeanors, he had been guilty of, which would certainly 'ere now have been inflicted on him, but for the Lenity of those in Authority.— He then begged for Mercy, burst into a flood of Tears, desiring, That that Lenity might be continued, only to See his future Behaviour and Amendment.—The Board being willing to convince Mr Bosomworth, that they would be his Friends, if he himself would deserve it, immediately sent for his Wife, and after Talking to her in the same strain, as to her Husband, acquainted her with what he had promised on her behalf, which She likewise promised to fulfil, and begged to be excused, and that no Notice might be taken of what was past.—And did now Acknowledge, that

She induced Malatchee and those Indians that withdrew with him to leave the Members of this Board, who had provided a handsome Dinner for them on Friday last, adding that She was in a passion, particularly occasioned at her Husband's not being invited.—Mr Bosomworth being present, was told, his ridiculous appearance on that Occasion, as well as his behaviour for a long time past, could not be countenanced.

As a proof of M^r Bosomworth's sincerity, the Board required that he should in presence of the Indians, who would soon be Assembled in the Court-House, acknowledge his and his Wife's error and ill behaviour, which he readily complied with.

Friday the 18th August 1749.

Yesterday about four o'Clock in the Afternoon the Indians were received at the Court-House, with the usual ceremonys, and were pretty sharply reminded of their last Night's Misbehaviour, especially Malatchees and Mⁿ Bosomworth's, which Occasioned her being Locked up, by which they might See, they were not to be asked, who we were to Lock up; but as they appeared now friendly, we were always ready to be the same, and as the Bosomworths who were the fomenters of these Disturbances, had opened their Eyes, and were sorry for their Behaviour, Mr Bosomworth (who was now present) would tell them the same.— Accordingly M^r Bosomworth stood up, and told the Indians by the Interpreter, that his Wife had behaved very ill, particularly last Night in disturbing the Gentlemen and them, when in Company, for which he was very sorry, and that She justly deserved her confinement; That if She had not been in the condition, She then was, she would not have done it; that for the future, they must deliver their Talk to the Beloved Man (pointing to the President) and his Beloved Men, and receive all Talks from them, and to have no regard to what Mⁿ Bosomworth said for the future, except She spoke from them.—Upon this the Indians declared they were well satisfied, and that their Hearts were Streight, as they hoped ours were, desiring this Talk might be for Ever dropped, and Malatchee in particular expressed a concern for his behaviour

last Night, but that he had now forgot the whole and desired We might forget it likewise.

As Malatchee on Wednesday last gave a long Talk without being interrupted agreable to his desire, attended with a great deal of insulting Language, it was thought expedient to recapitulate the Substance of what was then, and at other times said to him and the Indians (Mr Bosomworth being then present) which they heard without giving any interruption.— Then after the common Ceremonys, the Present for the Young Men, Women and Children of their Towns were brought in and delivered, all appearing well pleased.—Business being over, the Chiefs desired to Spend the Evening with the Beloved Men in Mirth, to convince them that all was forgot, and to make amends for what past last Night, which request was complyed to, and the Evening was spent agreably.

As those Gentlemen that mounted the Horse, had attended here during this whole transaction on Duty, at no small expence to themselves, they being mostly from home, and being particularly serviseable, and not knowing how soon their attendance might again be wanted, it was thought highly necessary (to keep up that Spirit they had Shewn) to express some peculiar Mark of esteem to them; therefore the Board advised the President to invite them to a plain Dinner this Day, and to improve the Occasion without farther expence, likewise advised him to give an invitation to some of the Indian Chiefs.

Saturday the 19th August 1749.

Dinner was Yesterday provided, and after a chearful entertainment, the whole were dismished to appearance well Satisfied.

Towards the close of the entertainment the Indians mentioned their design of returning home, and desired that Boats and Hands might be provided to carry them with their Wives and Children up the River at Noon this Day, and at the same time desired Bread kind &c* for their Subsistance on their Journey, which was chearfully complied with, as their absence was very agreable.—Accordingly about Eleven o'Clock the greatest part of the Indians went off.

About Two o'Clock this Afternoon, Mr Abraham Bosomworth, who was expected here long before, arrived from Charles-Town, but too late to see the Presents delivered, and his Brother and Sister's extraordinary Behaviour.— He soon waited on the President (the Board being then met) and produced an Appointment from the Governour of South Carolina empowering him to Act as Agent from thence for the Destribution of the Indian Presents in Georgia in conjunction with the Agent here, and that he hoped to be soon dispatched, for that He was obliged to be in Charles-Town by the Twenty fifth Day of this Instant.

At a Meeting of the President and Assistants in Council Assembled for the Colony of Georgia on Tuesday the Twenty Second Day of August 1749.

The President laid before the Board a Copy of M^r Abraham Bosomworth's Instructions from the Governour of Carolina relating to his Agency, and Acquainted them, that M^r Bosomworth had been very Urging and pressing with him to take into Consideration the Second Article concerning M^{rs} Bosomworth, but took no Notice of any other part of his Instructions, whereby it too evidently appeared, that his Views in coming here, were only to Serve his own Family.

As the last Article of these Instructions appeared to the Board to be contrary to the Trustees intentions, they ordered the whole to be copyed, which is as follows.

"Sº Carolina

"Instructions to M^r Abraham Bosomworth appointed "by the Governour, Council and Assembly, their Agent to "Act in Conjunction with the Person appointed by the

"Trustees for Georgia to Distribute there, one half of the "Presents sent by his Majesty to be Distributed to the "Indians contiguous to, and in Alliance with the Provinces "of South Carolina and Georgia.

"I* "The Moiety or half of the said Presents Sent hither by "his Majesty having been already delivered and sent from hence "to Savannah in Georgia by Mr Patrick Graham on behalf of the "said Trustees, you are forthwith to proceed thither and upon "your Arrival to Notify the same to the President William Ste-"phens Esq" whom the Trustees have Appointed, their Agent to "Act in conjunction with the Agent of this Province in Distrib-"uting his Majesty's said Presents.

"2" "As his Grace the Duke of Bedford one of His Majesty's "Principal Secretary's of State hath signified, that a Petition "having been transmitted of M" Bosomworths of Indian Ex"traction, and related to some of the Indian Chiefs His Majesty "therefore leaves it, to the consideration of the Persons who are "to Distribute the said Presents, whither it may not be for His "Majesty's Service that some part thereof should be given to her, "you are therefore in the first Place to take that matter under "Consideration jointly with the Agent for the Trustees and if "you shall be both of Opinion that it may be for His Majesty's "Service, you are to join with him, in delivering to her as a Pres"ent from His Majesty such part of the said Presents as you and "he shall agree upon, having in the Proportion due Regard to the "whole Service proposed to be Effected by them.

"3⁴ You are afterwards at all times upon previous Notice being "given you of any intended Distribution of Presents to Indians "to attend such Distribution, and to keep an exact Account of the "particular Presents delivered, Specifying to what Indians, by "Name, of what Nation, and of what Town.

"4th And to the intent that those Presents may be distributed "according to His Majesty's directions, in such manner as shall be "most for his Majesty's Service, and may best answer, the in"tended purpose of secureing the Friendship of the Indians con"tiguous to, and in Alliance with the Province of South Carolina "and Georgia, you are to take care as much as in you lyes to

"prevent any Indians being sent for to Savannah on this occa"sion, other than the Leading Men of such as are contiguous to,
"and in alliance with Georgia, and have usually resorted thither,
"and in the Destribution of them that the Principal or head Men
"of Towns be particularly distinguished from their followers in
"quality and quantity. And that it be so managed that not only
"such Indians as shall come in Person to Savannah but that each
"of their Towns may receive some Share of His Majesty's Pres"ents in proportion to their Importance so that the same may be
"distributed in the most equal manner.

"5th Whereas the Trustees for Georgia having among other "things instructed M' Stephens to acquaint the Indians that those "Presents are sent by His Majesty as a proof of his Fatherly af-"fection to them, and are intended to be renewed Annually to "them under the direction of the Trustees, and that to prevent "unnecessary trouble in coming, Notice shall be sent to them "when Presents for them are ready to be distributed, which In-"structions if put in Execution may be attended as We apprehend "with very dangerous and Distructive Consequences, perhaps nev-"er to be retrieved, and would be highly prejudicial to His Majes-"ty's Service should it be pursued, you are therefore to acquaint "Mr Stephens, that it is the Opinion of the Governour, Coun-"cil and Assembly that the Indians ought to have no Assurances "given them, or the least expectation of being sent for to receive "the like Presents Annually, instead thereof they should be told "at the time of making a Distribution of the said Presents, That "they are sent to them by His Majesty, now that all his Enemys "have made Peace with him, as a Token of his Affection towards "them, and of the Notice he hath taken of their good Behaviour "during the War, towards his Subjects in South Carolina and "Georgia, desiring that they the Indians, and his said Subjects "may still Live together always like Brethren.

6th In as much as the far greater part of the Moiety of the "Presents sent to Savannah must inevitably fall to the Share of "the Creek-Nation of Indians, who are almost the only Indians "that at present have any Connection or intercourse with the "People of Georgia, and in as much also as this Province having"

"to do with several other numerous Nations of Indians will not "be able therefore to distribute to the Creeks out of the Moiety "remaining here, so large a Share of Presents as Georgia can do. "Therefore the whole Moiety of the Presents now at Savannah "need not to be Distributed at once, but some part thereof may be "reserved in hand as a Fund or Stock out of which the Indians "may be Supplyed upon occasional Visits, the rest of the Year.

"7th You are from time to time to send Advice to the Govern-"or and Council of all Proceedings in Georgia in relation to the "Destribution of the said Presents.

"8th You are to lay before the General Assembly a full and "true Account of the Destribution of the said Presents in Georgia "(according to the Schedule thereof herewith delivered to you) "before you Sign the same in order to be transmitted to His "Majesty's said Principal Secretary of State.

"Given under my Hand and Seal this 12th "Day of July Anno Domini 1749.

One of the Indian Chiefs (commonly called Capt Ellick, from his having a Captain's Commission) who has always been a Friend to the English, and has, during this whole Affair, distinguished himself as such by discovering the intrigues of the Bosomworths with Malatchee; frequently professing his dislike of their Proceedings, which at length created a Jealousy between them: Upon which Account, Ellick did not think it prudent to go off in their Company, suspecting (as it was supposed) some Mischief might be intended him in the Path home, which Suspicion did not appear to be groundless, for this Day Ellick complained to the Agent, that some of his People had come down from the Cow-pen, and acquainted him, that Malatchee and his Party, would not allow his followers any Share of the Presents, tho' what was given was designed for the whole of them and their Towns.— The Agent desiring the Opinion of the Board how to Act in this Affair, they Advised him to give Ellick for his followers, equal to what was intended them, in order to Countenanceand keep up that Friendship, that he has hitherto expressed.

The Board received a Letter from M^r Thomas Bosomworth dated Yesterday, desiring their advice how he should Act in his deplorable situation being now under Arrest for upwards of Four Hundred Pounds Sterling for the Cattle and Horses he purchased in Carolina to put upon the Islands of S^t Catherine's and Sappala, and Daily expected other large Sums to be demanded of him in Carolina and elsewhere.— After making Proposals to this Board, which they could not concern themselves with, He adds the following.—

"This is a Gloomy prospect of Affairs, but I assure your Hon"ours, as to my self, it is the least part of my Sufferings: and tho'
"I am too highly sensible of my Duty as a Subject, and the re"spect due to civil Authority, to attempt to justifye M^{ra} Bosom"worth's late imprudent Behaviour, yet I have the satisfaction
"to hope, that her present Remorse, heavy Afflictions and Dis"tresses the Merit of her past Services and irreproachable Con"duct from the first Settlement of the Colony (as a proof of
"which, I appeal to the inclosed Extracts of Letters from his
"Excellency General Oglethorpe and the Gentleman that suc"ceeded to his Command) will be Strong Sollicitors in her Fa"vour, and entirely deface and blot out of Remembrance, the rash
"unguarded Expressions of an enraged Woman, labouring under
"every Circumstances of Distress.

The Board after considering the Contents of the foregoing, were of opinion that the late Behaviour of the Bosomworths (so Destructive of the gracious intentions of his Majesty and the Welfare of this and the Neighbouring Colony) could not entitle them to the least Countenance, and that they could not at present be justified in advising the Agent to give them any part of the Presents; but at the same time advised the Agent not to give them a determinate Answer, least it might drive them to some desperate Act, and to inform them, that when their future Behaviour should recommend them, due Notice would be taken of it.

The Board flattered themselves, that as they had done all in their power to give Satisfaction to these Indians, that they had gone away well pleased, but they are now creditably informed, that Malatchee is discontented, and endeavours to Spirit up his Followers into the same Temper; that they are Still at a loss to guess at the Situation of the Colony.

The Board cannot conceive wherein M' Bosomworth or his Wife have been oppressed or injured, being well convinced, that they have received more than Satisfaction for all Pretensions of Services during General Oglethorpe's and the late Major Horton's Command of the Regiment; that their Services since (if irritating the Indians to justifye their unjust Claims of Lands &co may be called so) rather deserves a Publick Censure than Countenance that the Destresses, they now complain of, are the natural effects of their wild Schemes and profuse way of Living, and that was the Government to allow them Five Hundred Pounds Pannum, it would not be sufficient to support their pretended Sovereignty and Extravagancies.

Wednesday the 23d August 1749.

It was expected the Indians, who went from hence last Saturday, had 'ere now got over the River Ogechee, but this Day some of their Body returned here, and complained that the badness of the Weather had obliged them to Encamp about Twelve Miles from this place, that they had consumed most of the Bread-kind, they had received to carry them home, and required Three Horse loads of Provisions more for that purpose, which it was thought prudent to let them have.

The President laid before the Board a Letter He received from Mr Abraham Bosomworth of this date, which is as follows.—

"Savannah 23d August 1749.

"Sir

"A Memorial of M^{rs} Bosomworth's having been laid before His "Grace of Bedford setting forth her Services performed in Geor"gia, the great Losses sustained in her own private Affairs, by "the Neglect thereof on his Majesty's Service, and her Calami"tous Circumstances consequent thereupon; In answer to which-

"His Grace has been pleased (agreable to His Majesty's direc"tions) to leave her case to the consideration of the two Agents
"that should be appointed for the Destribution of His Majesty's
"Bounty to the Indians, to give her what part of those Presents
"they should both agree upon, and think conducive to His Majes"ty's Service.

"As I think my self in Duty bound to represent to you, Sir, "every thing that has a tendency to the Peace and tranquillity of "this Province & S° Carolina, & answering the wise Intentions of "His Majesty in the Destribution of those Presents; this lays me "under Obligation to recommend to your consideration the case "of Mr Bosomworth, which I hope you'll do me the Justice to "believe, that neither any Ties of Affection or Views of Interest "whatsoever, should induce me to do, was it not from a thorough "Conviction that her present Case is so circumstanced as to have "some Connection with the Welfare of the Colony.

"'Tis with the deepest concern that I have heard of the late "past uneasiness, and tho' I am far from Attempting to say any "thing in Justification of her late imprudent conduct & Behaviour, "yet from her present temper of mind and good dispositions for "the Welfare of the Province, I have the satisfaction to hope that "her future Actions will be such as will sufficiently attone for all "past offences & entitle her to your future favour.

"I am highly sensible that all private Affections and Interests "ought to subside when they come in Competition with the Pub"lick Welfare, but as a sincere Friend to His Majesty's Interest
"& the Peace and Prosperity of both the Provinces, I must beg
"leave to declare it as my Opinion that nothing could conduce
"more towards answering those Ends and the wise Intentions of
"His Majesty in the Destribution of those Presents, than that
"such a part thereof should be given to Mrs Bosomworth as may
"enable her to carry on a Trade at the Forks for her future Sup"port, by which means, she by her Interest & Influence with the
"Creek-Indians cou'd prevent, great Expences to the Publick,
"and His Majesty's Interest would be more Effectually gained &
"His Authority advanced than by any other Methods I can pro-

"pose. This Sir I submitt to your Consideration and the Honble "Gentlemen of the Board & am

"Sr with great Esteem & respect your and their most Obedt hble Servt

"To William Stephens Esq"

At a meeting of the President and Assistants in Council Assembled for the Colony of Georgia on Thursday the Thirty first Day of August 1749.

The President acquainted this Board, that He finds the Business of Agent for Indian Affairs to be too great a Burthen for him to bear, and execute with that attention and application, which it daily requires.— Therefore He desired Mr Patrick Graham to Act in this Affair by Virtue of the Commission He possesses, as though He himself was absent, and at the same time required, that in all Arduous Cases, He should take the Advice and follow the Instructions of this Board.

M' Graham desired the Opinion of this Board, whether it was adviseable to employ the Interpreter farther or dismiss him, and after well weighing the same, and considering that those Indians M' Bosomworth lately brought down, belonged only to Two Towns, and it being more than probable, that on their return, the remaining Nine Towns of the Lower-Creeks might take Umbrage, if they were not immediately invited down to receive their Presents; therefore the Board advised the Agent to empower M' Kenard the Interpreter to give them an Invitation, and accompany them, from whom it's expected, the Disposition of the generallity of the Indians may be discovered.

Friday the 1st September 1749.

The different Accounts of the State of the Colony being now fairly transcribed, the whole was this Day reexamined, and authenticated by Affixing the Seal of the Colony.

At a Meeting of the President and Assistants in Council Assembled for the Colony of Georgia on Monday the Fourth Day of September 1749.

Several things were laid before the Board particularly many Petitions for Lands, most of which required a farther Consideration; but one from M^r Richard Palmer (son to the late Coll¹ Palmer, who was killed in the Expedition against Augustine) was granted for Five Hundred Acres on the Island of Skiddoway on the North Side of the Narrows, on which He immediately designs to Settle.

Mr Meyer of Ebenezer attended with a Petition in the Name of the Inhabitants of that Place, setting forth that the Lands in general belonging to that Township being chiefly Pine, had hitherto occasioned Two, Three and Four Families to be crouded together on those Lots that were good, (which are now generally wore out) hoping that as their Stocks of Cattle encreased, they would be enabled to improve the Bad, but all Attempts hitherto has not answered their expectations, therefore desired that Fifteen Hundred Acres of good Land might be laid out at the Back of Abercorn and the new German Village for Thirty of their Familys, who must soon remove.—This being a matter of great Consequence, as it would necessarily divide that Body of People, it was deferred; 'till Mr Bolzius should attend in Person; at the same time, Mr Myer was acquainted, that whatever the Board

could do to forward that Settlement, they would not be wanting in their Assistance.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Thursday the seventh Day of September 1749

Yesterday a Party of twenty Indians with three Chiefs from the Euchitee in the Lower Creeks came here, and this Day had a very friendly and agreeable Talk at the President's House. They said, they met Melatchee on the Path, who gave them a bad Talk, and would have turned them back; But upon talking with some other Chiefs, then with Melatchee, they told them, That the White People were not cross, but that the whole Uneasiness proceeded from Mary and Melatchee, and advised them to proceed here, where They would see with their own Eyes, that they were pleased with the Friendly Reception they met with, being better, than they could expect from Melatchee's bad Talk; That not only They, but all the Indians were obliged to Us for preserving their Properties to their Lands; That Melatchee had no superior Right to Them or any other Chiefs in the Nation to give away their Lands; That if it was agreeable to Us, They and their People would directly go and destroy all the Cattle, that the Bosomworths had put on their Islands. They were then told, that Bosomworth was a White Man, and had promised to take the Cattle off, and must have Time to do it, and therefore they were desired to think no farther of it for the Present.

The Conversation of these Chiefs appeared so open and ingenuous, that the Board advised the President to invite them to partake of a plain Dinner at his House to Morrow, which is what they expectd, and adds considerably to the Value of the Presents.

Friday the Eight Day of September 1749.

The Board ordered M^r Thomas Ellis the Surveyor to go to Augusta and lay out several Tracts of Land of Fifty Acres each, for some Soldiers disbanded out of General Oglethorpe's Regiment, that desire to settle there; At the same Time M^r James Fraser of Augusta (as it would be attended with too great an Expence to send Provisions from hence) was desired to supply these Settlers with their Years Allowance, agreeable to the Trustees Instructions, and was ordered to draw on this Board for the Same; They expecting the Trustees will soon enable them to defray this large and growing Expence.

The Agent was employed this Morning in delivering the Indians their Proportion of Presents, and afterwards the Chiefs upon yesterday's Invitation, dined with the President and Assistants, and seemed perfectly well satisfied with their Reception.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Tuesday the twelvth Day of September 1749.

Some disbanded Soldiers, that are settled at Ebenezer, applied to this Board for their Allowance of Provisions, and at the same Time set forth, the Inconvenience that would attend their fetching it from hence; desiring that the Reverend M^r Bolzius, or some other Person, that should be approved of, might supply them there. M^r Bolzius being present; He was asked, whether it was agreeable to Him to see those People duly supplyed which He cheerfully complyed with; Accordingly the same Instructions were given to Him, as were to M^r Fraser the Eight Instant.

PROCEEDINGS of the President and Assistants for the Colony of Georgia from the 12th September 1749 Exclusive to the 21st April 1750 Inclusive.

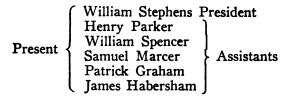

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Monday the 2⁴ Day of October 1749.

The President laid before the Board a Letter which he received the 24th Ultimo by the way of Charles-Town, from M^r Secretary Martyn dated 19th May last.

According to appointment on the 4th Ultimo the Reverend M^r Bolzius attended, when the Board laid before him, several Inconveniences that might ensue from dividing the People of Ebenezer, and after a long and serious Consultation thereon, M^r Bolzius making it appear that it would be impossible for them to Subsist any longer without an Addition of good Lands.— The Board unanimously agreed to reserve all the Vacant Lands (as before desired) near and adjoining to Abercorn for that purpose.

This Afternoon the Charles Town Gally Captain Peter Bogg, arrived from London with sundry German Protestants, among whom was the Reverend M^r Zouberbuhler (Minister of this Town) who, was gladly received, and He informed the Board that they had only buried an Infant, since they left England.—Likewise they received a Box containing sundry Letters from the Trustees Secretary and Accomptant and One Thousand Pounds in Sola Bills, which Necessity will oblige them immediately to issue, and there will remain a full Year's Expence in Arrears.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Thursday the 5th Day of October 1749.

This Morning the German Servants were brought up from on Board the Ship at Cockspur and Landed at this Town, all in good Health except one Woman, who were soon after disposed of agreable to the Trustees Instructions the particulars whereof will be transmitted to them

At the request of the Reverend M^r Bolzius, George Bruckner was appointed Constable of Ebenezer in the room of Thomas Bickler, who lately setled at too great a Distance from that Townto execute that Office.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Wednesday the 11th Day of October 1749.

As the People, who have demands on the Publick Service, have for some time past expressed an Uneasiness for want of Payment, the Board lost no Time to satisfye them; Therefore Ordered the Sum of Nine Hundred and Fifty Pounds to be issued to defray all Expences to Michaelmas 1748.

The Pilot of Tybee and several other Persons having repeatedly acquainted this Board with the Necessity of an immediate re-

pair for the Light-House, which appears to be in a much worse Condition, than it was, when represented to the Trustees in a Minute of this Board the 8th of December last, who expected to have received some Instructions relating thereto, as well as to have been enabled effectually to support so usefull and approved a Building; Notwithstanding, they now think themselves under an indispensible Necessity to employ proper Workmen to repair and support the same to prevent reflections, that must ensue, if so beneficial a Beacon was suffered to go to ruin, though it must create a considerable Expence not provided for in the Estimate.

Thursday the 12th Day of October 1749.

Thomas Cross Bricklayer, who Married the Widow of John Clark Taylor deceased, She and her two Sons by the said Clark being also deceased, petitioned this Board for the Lot N° 2. in Frederick Tything Darby Ward, which was granted to the said Clark.— And as there now appears to be no Heirs of the said Clark, and the Petitioner has done Guard-Duty and paid several Incumbrances contracted by the aforesaid Family for improving the said Lott— The Board thought it equitable to allow him to possess the same in his own Right.

Some disbanded Soldiers applyed to this Board for their Lands to be run out, which they were promised should be done as soon as possible, and likewise for their Year's Provisions, wherein the Board satisfied them as far as was in their power.

Several Disbanded Soldiers setled at and about Darien, applyed to this Board for their Year's Provisions, and as it wou'd be at-

tended with great Expence for them to come to Savannah for the same, as well as occasion them a great loss of Time, they desired that some Person near them, might be appointed to supply them accordingly the Board appointed M^r John Mackintosh B. near Sappalo River, to execute that Service, and gave him the usual Instructions.

At a Meeting of the President and Assistants in Council Assembled for the Colony of Georgia on Monday the 6th Day of November 1749

Lachlan McGillivray of Augusta Indian Trader petitioned this Board for One Hundred Acres of Land on Kynion's Creek near the said Place, and set forth that He intends to build thereon a Mill to grind Corn.— The Board being sensible of the Petitioner's Ability, to comply with his request, and of the Utility that a Mill wou'd be to the Inhabitants of Augusta and Places adjacent, they readily agreed to his Proposal, and therefore allowed him to possess the said Land.

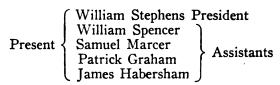

Six Germans, lately out of their Servitude, and setled on the River Ness, attended this Board with a Petition, praying that they may have a Cow and Calf from the Trustees, as others of their Countrymen have had.— The Board after duly considering the same, could not take upon them to grant their request, without the Trustees Instructions, well knowing, that many, who have been Servants, and are now Setlers, and equally deserving, would claim the same.

Jacob Kubler a German, who with his Family came over on his own Expence in the Charles-Town Gally Cap^t Peter Bogg, petitioned for the Fifty Acres of Land on the River Ness, which was drawn by one William Richard, at the same Time that the rest of the Germans setled there, drew for theirs.— This Richard (with his Father Thomas who likewise drew a Lot at the said Place) in a few Days after, left this Colony, without ever being put in Possession of, or even seing the Land they drew.— They likewise decoyed with them Three indented Boys, at Ebenezer, Sons to the said Thomas, and it's reported, they are now Setled in some remote part of South Carolina.— The Board considering these Circumstances, and the Complaints that the adjoyning Inhabitants make of this Land laying Vacant, and thereby harbouring Vermin to their great Nusance; They agreed to the request of the said Kubler, who appears by the Rev⁴ M⁷ Bolzius's recommendation and other Circumstances to be a deserving Man, and promises forthwith to improve the Land.

Tuesday the 7th Day of November 1749.

M^r Russell Clerk at the Stores applyed for Sixty Pounds to make up the Accounts to Michaelmas 1748, accordingly the Board ordered the same to be issued.

At a Meeting of the President and Assistants in Council Assembled for the Colony of Georgia on Thursday the 16th Day of November 1749.

The Twelfth Instant John Kinnard, who was some Time agoe dispatched to invite the Chiefs of the Lower-Creeks, that were not here with Melatchee and his Party, in Order to erase any bad impressions, that Melatchee on his return to the Nation might instill, returned, and acquainted the President, that He had left the Indians He had brought down at Fort Argyle, and that they desired Provisions might be sent them, which was accordingly ordered.— At the same Time, He related the great Difficulty, He had had in perswading these Indians to come down, which was occasioned by Melatchee's telling them, that the white People

wanted to make War with them, and that his Talk had such Influence that the Traders feared some dangerous Consequence might insue, and that after Kinnard had with great pains induced these Indians to believe, that Melatchee's Talk was false, He was obliged to purchase some Goods in the Nation to give to the leading Men, for their accommodations, on the Path from the Nation, from whence they had been twenty Eight Days.

This Day the whole Body consisting of Ninety were brought down from the Cow-pen, and landed at the usual Place, where the Militia received and conducted them to the President's House, where the Board attended, and gave them a hearty Welcome, and entertained them in the accustomed Manner.— As it is not usual to enter directly on Business at their first appearance, they were only told that their Presents should be got ready as soon as possible, in order that they might return to their Hunts, as it is now the Season, at which they seemed highly pleased, and desired that they might have Plenty of Liquor and Provisions to make themselves merry, which was accordingly ordered, and the Agent was desired to get their Presents ready as soon as possible.

Several small Parties of Indians, who reside about the River Medway, St Catherine's, Darien and on the South Frontier of this Colony, have within two Months past visited us, and as they are supposed to be ready on any call to assist the Inhabitants of the Colony, each Party was sent away well satisfyed with a share of Presents.

Saturday the 18th Day of November 1749.

This Morning about Ten o'Clock, the Presents being all got ready in the Council Chamber, all the Indians assembled in the Court House adjoyning, and the Chiefs had their Presents delivered them and likewise for their respective Towns.— The Long Warrier, who was the Mouth of the whole, expressed great Satisfaction at the Reception, He and these Indians had met with and volontarily declared, that they found what Melatchee had said in the Nation, was Lies, and that as they had found him to be so, they would throw away his Talk and believe him no more.— Upon this Occasion, it ought to be remembered, that the

Indian called the long-Warrier, has always been remarkably friendly to the English, and Kinnard says, that it was entirely through his Influence, that He got these Indians to come down.

According to the advice of this Board, the President invited the Chiefs to partake of a Dinner at M^r John Tisdale's House with him and the Assistants, where they appeared very chearful and well satisfyed.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Saturday the 25th Day of November 1749.

The President laid before the Board, Mr Harman Verelst's Letter of the 9th of August last, received this Day, enclosing Copies of Sundry Accounts and Vouchers transmitted by Lieut Coll Alexander Heron to his Grace the Duke of Bedford, and as Mr Griffith Williams was particularly referred to in the Trustees Instructions relating to the Examination of these Accounts, and the Board understanding that Mr Williams, who was then in Carolina, intended to embrace the first opportunity of going for England, they advised the President to send a Boat and Hands with a Letter to Mr Williams to desire his return here, which was accordingly done with the greatest Dispatch.

At a Meeting of the President and Assistants in Council Assembled for the Colony of Georgia on Wednesday the 29th Day of November 1749.

The President being informed the Night before last that Daniel Demetre with a Ten Oar'd Boat being on his Way to Frederica came to with his Boat at the Landing late Mr Causton's, and that He was going to be stationed there under an appointment from Governour Glen, He thought proper to dispatch a Messenger to desire Mr Demetre to come here, in order to enquire into this Report, and at the same time to examine him relating to Coll' Heron's Accounts agreable to the Trustees Instructions.

M^r Demetre accordingly attended this Board, and produced Gov^r Glen's appointment to him as Coxswain to command this Boat to be stationed at Frederica dated the 13th Instant.— The Board cannot but observe, that the Trustees last Letters dated the 9th of August last M^r Hopton acknowledges to have received the 14th Instant in which they are acquainted, that His Majesty had approved of the Necessity of such a Boat to be stationed at Frederica, which was to be under the Directions of the Trustees, and that His Grace the Duke of Bedford had signifyed the same to Gov^r Glen and Coll^o Heron in order that they might conform themselves to the Trustees Directions.— M^r Demetre likewise said that He received His Appointment on the 17th Instant.— The Board think it needless to comment on this extraordinary Proceedure, as they think it sufficiently speaks for itself.

Agreable to the Trustees Instructions, the Two Assistants, who attended at the Disbanding of General Oglethorpe's Regiment last May, demanded of Collo Heron an Inventory of all the Boats and Vessells belonging to his Majesty or the Trustees.—The Collo accordingly produced an Inventory of sundry Boats, signed by himself, but desired the Loan of Two of them to carry

the Troops to Charles Town.— The Assistants told him, that if the Boats were delivered to them, they would take Charge of them, but could not answer to lend them to any Person after their Delivery.— The Collo then said He must have them, and gave Daniel Demetre the Inventory, and promised that Demetre should, upon their Arrival in Charles Town, immediately return with the Boats and Inventory, and there deliver them to the President and Assistants, which He has not yet done. — Mr Demetre was now asked for the Inventory, and produced the same under Collo Heron's Hand, which upon the request of the Board, He left with them, a Copy of which, will be sent the Trustees with these Minutes.— The Prince George mentioned in the Inventory Demetre now has, which with the Hanover of Sixteen Oars both in good repair and fit for Service have lain ever since they arrived in Charles Town after the Disbanding of the Regiment in a Creek near that Place; and it is to be observed, that Demetre has only got Eight Hands of his Compliment, and that the other two by Gov' Glen's written orders are left to take care of the Hanover now in Charles Town.

M^r Demetre was fully examined relating to the Accounts, He was concerned in, transmitted by Coll^o Heron to the Duke of Bedford, the particulars of which, will be included in the remarks made on those Accounts, when the whole is gone through.

At a Meeting of the President and Assistants in Council Assembled for the Colony of Georgia on Saturday the 9th Day of December 1749.

In the Evening of the 2^d Instant M^r Griffith Williams returned with the Boat sent for him, with whom came M^r Thomas Walker late King's Carpenter at Frederica, and on Tuesday the 5th In-

stant the Board sat close in examining Coll^o Heron's Accounts, and continued the same 'till this Day.— As M^r Walker attended at the Publick Expence, it was thought proper to dispatch him as soon as possible, accordingly M^r Pye was desired to be present, and the Accounts that M^r Walker Signed were examined and He dispatched.— The Board lost near two Days in perusing one Head of M^r Pyes Accounts, and as they found the whole intricate, and his Day Book not regularly Posted nor his Vouchers sorted, they allowed him fourteen Days to put the same in order, and then entered upon M^r Williams's Accounts of the Publick Magazine and Expences from the 25th of June 1747 to the 24th of February following, when M^r Pye took charge of the Magazine, which engaged their whole attention to this Day.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Thursday the 14th Day of December 1749.

The greatest part of the Time since Monday Morning, the Board have been engaged in examining M^r Williams's Accounts, and they have this Day finished them, and in justice to M^r Williams, they must observe, that the whole has appeared very just and satisfactory.— They think it needless to add more, as M^r Williams's Account Current certifyed by them, and under the Seal of the Colony, as well as a Copy of their Letter of this date to M^r Verelst given to M^r Williams sent with their Minutes will sufficiently explain their Sentiments.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Saturday the 16th Day of December 1749.

John Davis late of South Carolina Petitioned this Board for a Tract of Five Hundred Acres of Land on the Island Skeedaway bounding Northerly on M^r John Kellson's Land and Easterly on Romney Marshes, as He has brought his Family and a Number of Hands with him sufficient to improve such a Tract, and likewise being well recommended by M^r Henry Yonge who was formerly his Neighbour in Carolina; the Board granted his Petition.

James Finlay and Daniel Martyn late Soldiers in General Oglethorpe's Regiment applyed to have fifty Acres of Land each adjoining South to John Ring's Land of Acton.— The Surveyor was accordingly ordered to put them in Possession of the same.

Margaret Gamphert Widow, who had been an Inhabitant of this Colony upwards of fourteen Years, applied to this Board for Relief; and as She appears to be worn down with the Infirmities of old Age and utterly uncapable of providing for her Subsistance.— The Board ordered her two Shillings \$\mathbb{\text{9}}\$ Week.

Widow Deane likewise applyed for a farther Relief, and as she grows very infirm.— The Board ordered Six pence \$\psi\$ Week, to be added to the Eighteen pence \$\psi\$ Week allowed her for cleaning the Church.

Adley Maxwell late of Pensylvania petitioned this Board for five Hundred Acres of Land adjoining West to Mr Griffith Williams on the South Branch the Upper end of Medway River.— His Petition sets forth, that He was formerly a Farmer in Pensylvania, but being there Straitned for want of Land; and having a Wife and large Family of Children to support, caused him to move here, hoping to obtain a more comfortable Settlement; He and his Family have been here about a Year; and having

given convincing Proofs of their Oeconomy and Industry; and as he has a fine Stock of Cattle and sufficient Hands to improve such a Tract, and being likewise extraordinary well recommended by all that have known him; The Board granted his Petition.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Wednesday the 20th Day of December 1749.

Information being made to this Board, that Sundry Persons make a Practice of cutting and carrying away Fire Wood and other Timbers from off the Lands between this Town and Pipemaker's Creek, reserved for the Indians, and that some pretend a right by virtue of Leases from M^r Thomas Bosomworth.—The Board have therefore thought proper to cause the following Advertisement to be affixed in the most Publick Places of this Town, in order that none may pretend Ignorance for the Future.

Advertisement

Savannah in dent and Assistants, that Sundry Persons have for Georgia some Time past cut down and carried away Wood from off the Lands between this Town and Pipe-maker's Creek commonly known by the Name of the Indian Lands.— These are therefore to give Notice to all Persons that they do not presume to cut down destroy or carry away any Wood off the said Lands under any Pretence whatsoever as they will answer the contrary at their Peril.

the said House, and the same being chiefly Pine and unfit for Cultivation, desired that this Tract might be granted to him in his own Name, which wou'd enable Him to give further Assistance to the said House.— The Board being sensible of the Petitioners Ability to improve such a Tract, and Mr Habersham promising that it should be done with all convenient Speed, they readily granted his Petition, not doubting but the Trustees will confirm the same.

The Rev^d M^r Zouberbuhler and the Inhabitants of this Town having made repeated Complaints to this Board, that M^r Peter Joubert Schoolmaster had for some Time past neglected to give proper Attendance to his Scholars, and likewise that He has been of late so much addicted to Drinking, that He gives great offence to the Inhabitants, and what is more pernicious sets a bad Example to their Children.— The Board being too sensible of this Complaint, and with concern finding that, their repeated Admonitions have not been duly regarded They are now obliged to discharge him.

ABR^m Bosomworth

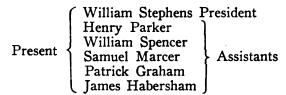

After the Board had maturely considered this Affair, They desired M^r Abra Bosomworth to attend them this Morning, when they fully related to him every Transaction of M^r Thomas Bos-

omworth and his Wife's late extravagant Behaviour, and that agreeable to their Duty; They had reported the same to the Trustees: Likewise that it did not appear to them that M^r Thomas Bosomworth and his Wife were yet sensible of their Errors, and until *That* was manifest, They could not consistent with their Duty give them the least Countenance: On the Contrary if they had taken Measures to have given this Board an indisputable Satisfaction; That they had relinguished all their idle Claim of

Lands and Sovereignty and that they would behave for the future as loyal Subjects to his Majesty of Great Britain; They might expect (notwithstanding they had forfeited all pretences of Favours) a proper Countenance.

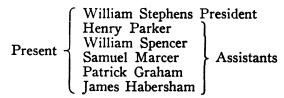

M^r Abraham Bosomworth seem'd truly affected with the Conversation that passed, and acknowledg'd, that He was now so well convinced of his Brother's and Sister's extraordinary Behaviour, and that the Reasons urged by the Board for discountenancing them were so just, that He could say nothing in their Favour, nor would own them as Relations, 'till they had made satisfactory Concessions.— The Board cannot but notice that M^r Abraham Bosomworth has behaved in this Affair with Candour.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Thursday the 18th Day of January 1749/50.

The Board expected to finish Colonel Heron's Accounts long before now, but finding they will yet engage their attention for many Days to come, they postpon'd their Examination of them to write two Letters to the Trustees of this date the Contents of which they thought of too great importance to be longer delayed.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Friday the 9th Day of February 1749/50

To the Satisfaction of the Board, after a tedious and long enquiry into Colonel Heron's Accounts they this Day so far compleated them, that they have only their Report to make, which will be done with all convenient Speed.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Friday the second Day of March 1749/50

James Ellison late of Pensylvania Planter petitioned this Board for Three Hundred Acres of Land upon the River Medway more than a Year ago, but the Board, being then unacquainted with his Character and Abilities, postpon'd his Petition 'till they had further Knowledge of him— This Day he again waited on the Board, and as he had given good Testimony of his industry, they allowed him to possess two Hundred Acres, adjoining to Lands granted to John Bailow on the said River

Thomas Bosset Sen^r late of Virginia Planter in behalf of himself and two Sons petitioned for Five Hundred Acres of Land each, about a Mile from Lands possessed by William Gray near a Place called Coats-Neck above Augusta— The Board being in-

form'd by Letters from Augusta, that he had sufficient ability to improve Land, they granted him Five Hundred Acres at the Place aforesaid; and acquainted him, that when he had given sufficient Testimony of his good Behaviour and Industry, his Sons should meet with all due encouragement.

Isaac Lines son in law to Adley Maxwell of Medway River, petitioned for Five Hundred Acres of Land on the uppermost Bluff runing North out of the said River— The Board being well satisfied of his Capacity to improve the same, and he having given proof, that He possesses the same Spirit of Diligence and Œconomy, that his Father does, to support a growing Family; they readily complyed to his request.

The Rev⁴ M^r Zouberbuhler having frequently recommended the Widow Denzler of Vernonburgh as an object of Compassion, being left in a Weakly Condition with several Children— The Board ordered her Ten Shillings \$\mathref{P}\$ Month.

Saturday the 3d Day of March 1749/50

The Board having received frequent Complaints from the Inhabitants in and about Augusta, that they have laboured under many and great inconveniencys for the want of a Conservator of the Peace, since Cap^t Kent left that Place, desiring that some Person residing there might be appointed to Act in that Station—The Board well and duly considering the same, and knowing that it is a great Burthen for the Inhabitants of that Place to attend here in relation to breaches of the Peace and for the recovery of small Debts, thought proper to appoint M^r James Fraser to Act in that Station, he being a Man of whom they have a good opinion, and believe to be the best qualified for that purpose, within that District.

The Rev^d M^r Bolzius attended the Board and acquainted them, that he found, there was a greater Demand for Lumber from Ebenezer, than their present Saw-Mill could possibly supply, and that there was a convenient Place adjoining to the said Town, whereon they intended immediately to erect a Saw-Mill, if they could get Iron Work, and requested the Board to let him have the Iron of a Saw-Mill in the publick Store, which He would Pay

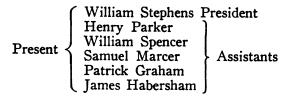

for in Time— The Board knowing the same to be of use to the Colony in promoting of Exportation, readily granted his request, and a particular Account of the Articles and weight will be transmitted in order for the Trustees to value the same, as they shall think proper.

Donald Clark having a long Time ago petitioned this Board, and now again renewed the same setting forth, that he has been for a considerable Time setled on a piece of Land by the permission of the late Major Horton, whereon he has made considerable Improvements— The Board having enquired into the same, and finding what is set forth to be true, and being well assur'd of his sobriety and Industry, they allowed him to possess Five Hundred Acres of Land where he is setled, being situated on a Creek divided from the Alatamaha River towards the Main about Ten Miles from Darien

Mr Griffith Williams attended the Board, and acquainted them, that Mr Adley Maxwell had inadvertently setled on the Lands known by the Name of Plumb Orchard, which was granted to him the Ninth of October 1748, and that as the said Maxwell was known to be very industrious in supporting a large and growing Family, and had made Improvements thereon; and being desirous to encourage the Welfare of the Colony, was willing to relinquish all his Right and Claim to the said Land, on Condition that He might have Five Hundred Acres granted to him on the back of Lands granted to Messra Marriot and Gordon on red Bird Creek on great Ogeechee, which the Board agreed to.

Rotherick McIntosh petitioned the Board for Five Hundred Acres of Land setting forth, that he had been many Years an Inhabitant of this Province, and hath hitherto possessed no Land, otherwise than by permission of the Commanding Officers of Frederica, which Land is near Darien— The Board knowing that he has been in possession of the said Lands for several Years, and that he has made considerable Improvements thereon, and having a large Stock of Cattle, granted his request

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Friday the 9th Day of March 1749/50

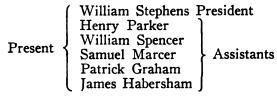

Yesterday and to Day the Board was employ'd in drawing up their Report of the Accounts, of the Magazine at Frederica, lately under their Examination which after a long and fatigueing Enquiry, they have this Day finished and enclosed in a Letter to Mr Harman Verelst

Saturday the 10th Day of March 1749/50

Notwithstanding the Board supposed the Accounts and their Report of the Magazine at Frederica finished Yesterday wou'd explain themselves; yet they thought it necessary, if any thing therein should want any further Explanation, to acquaint Mr Harman Verelst in a short Letter, that Mr Griffith Williams, who is to be the bearer of the Packet to the Trustees, and who was present during the whole Examination, is capable of doing it

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Tuesday the 3^d Day of April 1750

A Month ago the Rev⁴ M^r Bolzius represented to the Board in behalf of himself and the Inhabitants of Ebenezer, that He under-

stood, the Trustees Cow-pen at old Ebenezer was to be sold, and it appeared to him, that, if the Cattle were disposed of to Strangers, it wou'd be a great Detriment to, if not the Destruction of their Settlements, their Cattle ranging and mixing together; Therefore he had convened and consulted the chief Inhabitants of that Place, and after duly weighing the affair, they had come to a Determination to purchase the same — The Board being assured that the Ill consequences set forth by Mr Bolzius would (notwithstanding every Precaution) be the natural Consequence, if the Cattle were sold to any Persons, but the Inhabitants of Ebenezer, they were the more willing to let them have the Preference of them, especially as the Trustees have often recommended that Settlement to their Favour- After many Debates and Enquiries about the Value of the Cattle (excluding the Horses, the Board fixed the Sum for the Purchase at Four Hundred Pounds, but as Mr Bolzius said, that the Inhabitants of Ebenezer, thought them dear at Three Hundred and Fifty Pounds: the Board proposed, in order to make an End of the Cow-pen, to leave it to the Trustees, whither they will remit the Fifty Pounds in Dispute, notwithstanding they think the sum of Four hundred Pounds less than the real Value, and which they are certain, they might have got from other Persons by giving them the Privilege of Hunting, which appeared to be attended with too many Inconveniencys to that Settlement — Upon which Mr Bolzius desired a further Time to consider of it, and this Day, He and Seven Others of his Congregation attended, when the Purchase was agreed on upon the Terms before mentioned, and a Bond for that Purpose was ordered to be drawn and at the same time the late Cow-pen keeper was ordered to deliver up all the said Cattle to Mr Bolzius.

The Board next took into Consideration in what Manner, they should dispose of the Trustees Horses, and it was thought most Beneficial, that they should be brought down in different Parcels, and sold at publick Auction at Savannah, the first Gang to be here by the beginning of May next and the remainder at different Times as they shall be ordered, 'till the whole is sold.

Wednesday the 4th Day of April 1750.

The Bond mentioned Yesterday was this Day Executed by the Rev⁴ M⁷ Bolzius and Seven others of the Inhabitants of Ebenezer, the Time of Payments are, that One Hundred Pounds is to be paid on or before Michaelmas next, One Hundred Pounds on Lady Day following, One Hundred and Fifty Pounds on Lady Day 1752, and the remaining Fifty Pounds on Lady Day 1753.

M^r James Habersham a Member of this Board apply'd for a Tract of Five Hundred Acres of Lands adjoining to those lately granted to James Macklaren, and at the same Time acquainted them that he has for many Years been an Inhabitant of the Colony, and hitherto had no Grant, of Lands — The Board being pleased with M^r Habersham's request granted his desire and ordered the Surveyor immediately to put him in possession.

The Rev^d M^r Bolzius after many Years residing in this Colony, and making several fruitless attempts in looking for a proper possession for his Family, fixed on a piece of Land agreable to his mind, which is adjoining West to that above mentioned, granted to M^r Habersham — The Board well knowing his good Disposition and Love for the Colony, think him truely deserving of all the Favours they can shew him; Therefore granted him Five Hundred Acres of Land agreable to his Request

The Clerk of the Store setting forth that he wanted Twenty Pounds to defray many incident Expenses, the said Sum was ordered to be issued.

Hugh, William and Angus Clark (three Brothers) sometime ago petitioned for Five Hundred Acres of Land each, and did now renew their request — These Three Brothers came here Children and were Part of the first Settlement at Darien, and were recommended by the late Major Horton a few Days before his Death as worthy all the regard the publick could shew them; not only as they knew no other Home but Georgia, but on Account of their Sobriety and Industry, as well as for their tenderness and Care for their aged Mother — The Board cannot but have a particular regard to Children nursed in, and innured to the Colony, as one such must be deemed equal, if not preferable

to Three or Four new Commers from Europe, who are not seasoned to the Climate; Therefore they Granted to Hugh, agreable to his Petition Five Hundred Acres of Lands situated about Fourteen Miles to the Northward of Darien, at a Place called the Fort-Swamp; To William, Five Hundred Acres at a Place called Cedar Bluff about Ten Miles to the Northward of Darien near Sapalo River; To Angus Five Hundred Acres situated on the North side of the said River; the above Lands are granted to them on Condition that they relinquish all Claims of Lands in the Township of Darien.

After many Complaints from the Inhabitants of Augusta for the want of a Ferry at that place, the Board in June 1747 appointed Thomas Goodale to keep the same, who obliged himself to keep a proper Boat for that Service since Since which, it appears that Goodale has not answer'd the intended Purposes, therefore they have appointed John Goldwire, to keep the said Ferry who they know to be an industrious and sober Man, and was lately appointed a Constable of that District.

William Russell Clerk of the Trustees Store petitioned for Two Forty five Acres of Land situated in Jekyl Tything, heretofore called the Trustees, being contiguous to the Lot originally Joseph Hughes and lately William Woodroofe's, purchased by him -The Board having had many Years Experience of this young Man's fidelity as a faithful servant to the Trustees, with pleasure they received his Petition and granted his request

Widow Nongazer of Vernonburgh and the Widow Fountaine formerly the Widow of Jeremiah Papot of this Town being both very old, decripit and unable to support themselves and having no Children or others able to Succour them— The Board were under a Necessity (to prevent their perishing) to allow them a small Relief of One Shilling # Week each

Thursday the 5th Day of April 1750

James Stewartt having been many Years an Inhabitant in the Souhthern Part of this Colony, petitioned for One Hundred and

fifty Acres of Land on the River Sapalo about two Miles from

M' John McIntosh— The Board thought that Fifty Acres was sufficient for him, and accordingly order'd the Surveyor to lay out the same

Divers Complaints having been made against David Cunningham (the Pilot's) conduct at Tibee, the Board thought proper to make an Enquiry into the same, and found that he had been greatly deficient in his Duty to the great detriment of this Harbour and Port; Therefore they found themselves under an indispensible Necessity to displace him, and appoint John Penrose, who appeared to be most capable of acting in that Station

Lieutenant Colonel Alexander Heron applyed when here, and now again renewed his request for two Copys of the Accounts and Report of the Magazine at Frederica lately under their Examination— The Affair being now compleated, the Board ordered the same to be sent to him

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Saturday the 21st Day of April 1750

For two Days past, the Board have been sitting, but was obstructed in carrying on the Publick Business with that attention and Spirit, which their Duty required; and they are sorry, that Necessity has now obliged them to resent the Misbehaviour of Mr Samuel Marcer, one of their Members, whose Conduct at this Board for several Years past, has been remarkably contemptuous, and in no Shape Serviceable, but rather prejudicial to the Colony, and especially since He has been invested with an additional Authority— It would be too disagreable to the Board to enumerate the many just Reasons of Complaints, that He has occasioned to them, as well as to the most thinking Inhabitants of this Province; and if their Duty to the Trustees and Colony, as well as to

themselves could have been longer dispensed with, they would not have adviced the President to send him the following Letter "Sir

"I am sorry to acquaint you, that your contemptuous Beha"viour, at the Board for Years past and particularly of late gives

Last Night M^r Habersham arrived from Charles-Town in the Snow Mary Cap^t Alexander Pearson, and brought with him a Box which contained Four Hundred Pounds in Sola Bills and two Letters dated the 23^d and 25th of November last, the former from M^r Secretary Martyn and the latter from M^r Harman Verelst.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Wednesday the 6th Day of June 1750.

M' Bolzius attended at the Board with whom they had a long Conversation relating to the Silk Manufacture and other material Affairs; and at the same Time, he was acquainted, that the Trustees had ordered Two Hundred Pounds in Sola Bills to be issued to him, which he was to Account for in proper Vouchers in discharging the said Manufacture at Ebenezer agreable to the Trustees Instructions.

The Board opened a Box of Stationary sent by the Trustees to them by the Mary Cap^t Pearson, who arrived at the Wharf before this Town the 30th Ultimo, and found the Contents in good Order, as well as the small Box of Medicines for Doctor Graham and the Packages for Ebenezer.

Thursday the 7th Day of June 1750.

Agreable to the Trustees Instructions the Board paid M^r Bolzius Two Hundred Pounds in Sola Bills and took his Receipt to Account for them accordingly.

M^r Patrick Graham acquainted the Board by Letter that he was so ill in a Fever that his Attendance was impracticable.

The Board was this Day employed in signing Sola Bills to pay the estimated Expences for one Year.

Friday the 8th Day of June 1750.

The Reverend M^r Bolzius applyed to the Board for Relief in Behalf of the Widow Petts setting her forth as a very useful Woman amongst her Neighbours when Sick at the River Ness and Abercorn, but in great Distress since her late Husband's Decease— The Board therefore ordered a Relief of one Shilling Week, 'till it shall appear, that her Circumstances are better.

The Board issued to the Clerk of the Accounts Eight Hundred Pounds in Sola Bills, which with Five Hundred Pounds formerly issued at sundry Times makes Thirteen Hundred Pounds towards defraying the Estimate to Michaelmas last.

Daniel Demetre being here for Provisions for the Southern Detachments of Soldiers, the Board ordered him to attend them and acquainted him, that he must for the Future look upon himself to be under the Instructions of this Board— That after his arrival at Frederica, He should immediately return here, when proper Directions would be given him for his Future Conduct, while in that Service.

Saturday the 9th Day of June 1750.

Several Trademen's Bills were laid before the Board, and after (sto)

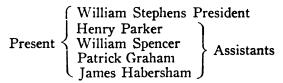

examining them such as were approved of, were ordered to be paid in due Course with other Services.

Mr Henry Parker, a Member of this Board set forth, that the Lands, He has for Ten Years past lived on, proves after many 21 or -vol 9

Years Experience and great Expence in endeavouring to improve it, wholly unfit for Cultivation; which Lands He says are upon Lease, but the Conditions are unknown, that He therefore holds no Lands in this Colony except a Lot in this Town, which He now surrenders to his second Son James, who lives in Town and is of Age capable of doing the necessary Duty; that He is now under the Necessity of removing to some Place, which will answer the Labour and Expence of Cultivation, and therefore applys to the Board for a Tract of Five Hundred Acres of Lands in his own right on the North Branch of the little Ogeechee River, adjoining to those granted to Mr Charles Watson— The Board being too well acquainted of the Truth of what is set forth readily granted Mr Parker's request, and were surprised, he had so long neglected to get redress in a Matter that so nearly related to the Welfare of his numerous Family, accordingly a Warrant was ordered to be made out for runing the same.

Henry William Parker eldest son to Mr Henry Parker petitioned the Board, and set forth that He was the Eldest Son of this Colony, and had been inured to Labour in the Cultivation of Land from a Child, that for a considerable Time past, He had been employed in Squaring and Sawing of Lumber, in order to be enabled to get necessary strength (having already a sufficient Stock of Cattle &c.) to improve Lands for himself—Therefore desired Five Hundred Acres of Land adjoining to those requested for (and now granted to) his Father—The Board having for some Time past been pleased with the Behaviour and Industry of this Eldest Son of Georgia, and believing that it's Patrons would think him intitled to a Birth right, they granted his request, and have great assurance, that He will continue in the same Industrious Path, that He has set out in.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Friday the 22^d Day of June 1750

The Rev⁴ M^r Zeuberbuhler petitioned the Board setting forth, that He had obtained a Promise from the Honourable Trustees of Five Hundred Acres of Land in such Place (vacant) as He should think most proper to answer his Purpose; therefore desired the same to be laid out on the East End of the Island commonly known by the Name of Argyle Island in Savannah River—The Trustees having signified their Pleasure, agreable to M^r Zouberbuhler's Petition, to this Board, they ordered the Surveyor to lay out and put him in Possession of the same.

M^{ra} Anderson attended and acquainted the Board, that she had carefully saved a quantity of Silk Worm Eggs last Season, and had preserved them to this Spring, which when hatched She fed for Ten Days, but M^r Bolzius and his People (having not sufficient) applyed to the President for a supply, who considering, that their being fed here, would create a considerable Expence, not provided for, ordered her to deliver them to M^r Bolzius; therefore She desired, that her Services might be considered—The Board to incourage her Industry, as She appears ready to instruct and assist any that apply to her; and being well assured, that She will be wanted the coming Season, as many People seem desirous to learn the Art of Winding Silk, ordered her Five Pounds.

The Clerk of Accounts informed the Board, that the last Issue of Sola Bills was not sufficient to defray the Estimate to Michaelmas 1749— Therefore the Board issued One Hundred Pounds.

The Board took into Consideration sundry Letters dated in November last, which they received by the Snow Mary, Cap^t Pearson from the Trustees Secretary and Accomptant, and as the

Culture of Silk is in particular recommended to the Attention of the Inhabitants of this Colony; they thought, they could not better answer the design and Injunction of the Trustees herein, than by convening some of the Principal Inhabitants from several Parts of the Colony, in order to consult with, and press them to exert themselves in cultivating Mulberry Trees and raising of Silk, so strongly and justly enjoyned them by the Trustees—Accordingly circular Letters were wrote to such Persons as were thought proper to meet on the 4th July next, when (as the Court was approaching) many of them would be at hand to serve as grand Jurors.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Tuesday the 3^d Day of July 1750

Messⁿ Harris and Habersham laid before the Board five Receipts from the Commanding Officers of the Detachments of Soldiers from the three Independent Companies in South-Carolina, at Frederica and Augusta, for Fifty two Weeks Provisions supplyed by them to the said Detachments, with their Valuation of the Provisions so supplyed under each Receipt, the whole amounting to Two Hundred and Thirteen Pounds fourteen Shillings and Ten Pence, Namely.

Do's Do from the 25th March to the 23d June last being Thirteen Weeks	} 0

The Board examined these Vouchers, and found them to be very just, and executed agreable to the Trustees Instructions; and they are sorry, that it was not in their Power to pay them, being far short of Money to discharge the Estimate, as will fully appear by the Accounts intended to be transmitted by these Minutes.

This Day the Rev^d M^r Bolzius brought down a Box of Raw Silk containing Seventy four Pounds two Ounces, and applyed to the Board for their Advice, what Price He should pay the respective People that made it, as the Cocoons were wound, before the Trustees Instructions, which ordered them to be sorted and weighed reached him — Accordingly the Board made a Calculation, which will appear on the general Account and Receipt of this Box of Silk, and which they believe is done as near as possible to the Trustees Intentions.

Thursday the 5th Day of July 1750

Yesterday and to Day the Board met sundry Gentlemen, agreable to their Minute of the 22^d Instant, and they still continue ciose on the Business of their meeting—But the Rev^d M^r Bolzius this Evening producing his Accounts and Vouchers for the Silk He brought down, wherein it appeared that He wanted, besides the Two Hundred Pounds before paid him, Seven Pounds Six Shillings and four Pence three farthings to discharge the same; Therefore Eleven Pounds was issued to the Clerk of Accounts to pay this, and other small Demands.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Saturday the 14th Day of July 1750

The Court being this Morning ended, which (with other Publick Affairs) has fully employed the Members of the Board for several Days past; and as a Body of Thirty Nine Chickesaus had been here for some Days, it was thought proper to receive them publickly this Day, in order to get them dismis'd as soon as possible, as they occasioned a considerable Expence—What past on this occasion was very agreable and friendly, and it soon appeared, that the chief Business of these Visitants was to receive a part of the Presents sent to them, and other Nations of Indians by His Majesty— The Agent was accordingly desired to assort the necessary Presents for them as soon as possible.

A List of such disbanded Soldiers as have taken up Lands in this Colony, will be sent with this; and as they are setled in various Parts, and most of them very remote from this Town; The Board were under a Necessity of contracting with sundry People contiguous to them, to supply them with their Allowance of Provisions, which upon the whole, it's supposed will amount to about Six Hundred Pounds—By the Vouchers which these Contractors have produced, it appears, that only a few of these Setlers remain to be satisfied with their Provisions agreable to the Trustees Instructions, which the Board have found means to supply them with, when demanded—As these Contractors are now very pressing for their Money, the Board are at a great Loss, how to make them easy, 'till they are enabled to pay them—But in order to give as great Content as possible, they have now issued to the Clerk of the Accounts Fifty five Pounds, which with several other Sums before paid on this Account, will it's hoped, prevent any further Clamours, 'till they can satisfye

the whole; and 'till that can be done, the real Expence and Accounts for this Service cannot be compleated.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Thursday the 19th Day of July 1750

The Chickesaw Indians have occasioned a considerable Expence, as well as loss of Time and Trouble, and no Means can be found to prevent it, and induce them to leave us, 'till their own Time comes, which was not 'till this Afternoon, when they left us seemingly satisfyed, expressing their Desire of continueing their Friendship.

M^r Hopton having some Time past been very pressing to have his Account with the Trustees setled, M^r Habersham was desired, when He went last to Charles Town to do it, and there appears to be a Ballance in M^r Hopton's Favour of Thirty three Pounds four Shillings and Eleven Pence farthing Sterling, which the Board this Day issued in order to be sent to Him.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Saturday the 21st Day of July 1750

The Board for some Days past have been busy in Writing to the Trustees, and making up a Packet to send them by Cap^t Pearson, who this Day cleared out in order to Sail; but being just now informed of some Indians having cut of some of the out Settlements at the South, they thought their Duty obliged them to dispatch a Messenger over Land to know the Truth of it, and detain the Ship, 'till the Messenger returned.

PROCEEDINGS of the President and Assistants in Council assembled for the Colony of Georgia on Wednesday the 1st Day of July 1750 Exclusive To the 15 Day of December Inclusive.

At a meeting of the President and Assistants in Council assembled for the Colony of Georgia on Wednesday the 25th Day of July 1750.

The Messenger dispatch'd the 21st Instant returned this Morning, and the Board immediately acquainted the Trustees in a Letter to their Secretary Mr Martyn with his Report.

Several Inhabitants have complained to this Board, especially Mess^{ra} John Milledge and John Kays, that they have received considerable Damage by Malatche and his People in their return to the Nation last August, the former setting forth, that they had killed in the Presence of his Servants Six Steers on Ogechee River, besides other Damages done in and about his House; the latter, that his Plantation was robbed of Corn, Potatoes &c to the Damage of Five Pounds- The Board being well informed, that there was Foundation of Complaint, and having Reason to suspect that Malatche intended Revenge against these two, and especially the Former, who was remarkably active in discountenancing their Behaviour while here, were of Opinion, that when Opportunity offered, this should be duly represented to Malatchee and his Party, and the Agent advised to stop the amount of the Damage out of their Quota in the next Presents if it shall be agreable to the Trustees, in which they humbly request their advice.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Sunday the 20th Day of July 1750

This Day two Indian Traders, MessTh Eycott and Millim, both from the Upper-Creeks came here, and reported, that they learnt from the Indians, where they resided, that MTh Bosomworth was daily expected in the Upper Creek-Nation, where they apprehended, she intended to carry on Designs, that might endanger the Peace and Welfare of the Colony— This Report occasioned the Members of the Board to assemble, though on the Lord's Day, as Captain Pearson was then at Tybee, and was expected to Sail this Night or to morrow Morning, by whom they might give the earliest Notice to the Trustees if found necessary of what should come to their Knowledge of MTh Bosomworth's extraordinary Journey, which they did in a Letter to MTh Secretary Martyn of this Date.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Wednesday the 29th Day of August 1750.

This Day Captain Gray in a Schooner arrived here from Charles-Town to load with Lumber, and brought the Board a Facket from the Trustees, which came in the Neptune Captain Ambrose Judd, and which contained (besides Letters for the Reverend M^r Bolzius) a Letter from their Secretary M^r Martyn dated the 3^d May last, and another from their Accomptant

M^r Harman Verelst dated the 9th of the same Month— The Board cannot but feel their highest sense of Gratitude for the Trustees Paternal Care and unnwearied Zeal for the good of this Colony so fully expressed in M^r Martyn's Letter, and they intend to take the first Opportunity to communicate the Contents to the Inhabitants in general, and they doubt not, but it will produce the good Effects intended— The Boxes and Letters mentioned in M^r Verelst's Letter for M^r Bolzius, were ordered to be immediately sent up to Him.

Mr Francis Harris Merchant in this Town petitioned the Board for Five Hundred Acres of Land on the North Branch of the little Ogechee River, bounded South by those Lands granted to Mr Henry Parker, on the West by the aforesaid River and North and East by vacant Lands—The Board being well satisfied of his Abillity and Design to improve Lands, and He having been many Years an Inhabitant, and having no Lands granted to Him in the Colony, they readily complyed with his Request.

Christopher Hopkins late Keeper of the Trustees Cow-Pen petitioned the Board for Five Hundred Acres of Land, situated on the River Savannah, about Two Miles North West of Bryers Creek, and Bounded otherways by vacant Lands—The Board being satisfied of his Intention to cultivate the same, and having been many Years in the Trustees Service, they thought him deserving; therefore granted his Request, believing it will be agreable to the Trustees.

The President, especially for some Time past, has been under great Disorder, and was supposed by the Doctors to be in great Danger, but is now something better tho' very infirm.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Saturday the 15th Day of September 1750.

A small Party of Indians from the Tallasees a Town in the Upper Creeks consisting of one Chief, Six Gun Men and a Woman came here this Day, and appeared in good Temper, and were accordingly ordered to be provided for.

Mr George Galphin Trader at the Cowetas in the Lower Creek Nation, whose Family has lived some Years at Silver Bluff on the Carolina side where he has made large Improvements, and having a long Time been desirous of becoming a Freeholder of Georgia, petitioned the Board, setting forth that He had been promis'd by General Oglethorpe, when here, a Tract opposite to the said Bluff, on the Faith of which, he had made Improvements, and now requested the Board for Grant of Five Hundred Acres in the said Place being bounded on all sides by vacant Lands and the River Savannah; the Board considering his Circumstances and Industry agreed to his Request, promising that the Surveyor should lay out the same, the first Time the Board had occasion to send him to those Parts.

Mr George Galphin mentioned in the preceeding Minute, acquainted the Members of this Board, that Mr Bosomworth left the Cowetas two Days before him, which was the Reason of his not coming here sooner, being desirous of seeing her gone from the Nation before he left it— The Board were acquainted sometime ago that Mr Bosomworth's design was to go to the Tuckabatches, but it now appears, that she went no farther than the Cowetas, expecting to have met the Head Men of the Upper and Lower Creeks there, but was disappointed, not above four of five

meeting her— Mr Galphin likewise said, that he understood She

brought up Papers ready wrote for the Chiefs to Sign, the Contents of which, He might have been acquainted with by some of the Indians, but did not chuse it, not caring to enter into Disputes in the Nation, but so far understood, that they related to Lands down here, and that only Malatche and four or five (what we call head Men) had signed them; and that during the Time M^{rs} Bosomworth was there, She behav'd very peaceably.

M^r Graham the Agent for distributing the Indian Presents, was advised to Proportion a proper assortment for the Indians here, that they might be dispatch'd as soon as possible.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Wednesday the 26th Day of September 1750

The Assistants for a long Time past have been under great difficulties in proceeding in Publick Business, occasioned by the President (Mr Stephens) Infirmities, and confused Mind; and altho' his Name has always appear'd at the Head of the Board, yet for some Time past, he has been utterly uncapable of any Business, but rather retarded it—This Inconvenience could no longer be dispens'd with, and they, this Morning came to a Resolution to wait on him, and let him know, that the Publick Concerns of the Colony had been of late much neglected, and that some means must be taken to prevent it for the Future, hoping thereby, that he would understand their Intention, without putting them under the disagreable Necessity of explaining themselves; and agreable to their Expectation, He voluntarily declared Himself uncapable of any Publick Duty, desiring they wou'd proceed without Him and He would soon retire into the Country, where He should be more at Liberty to mind the more weighty Things of a Future State, not doubting, but the Trustees

would enable Him to end his few remaining Days without Care, and Anxiety, which the Assistants promised to represent, having lately come to the Knowledge, that his Circumstances were quite different, than what they had before Reason to suspect.

Mr George Galphin and Mr John Petticrew about Ten Days ago represented to this Board, the Necessity of a residing Constable in the Creek Nation, that Office being vacant by the Death of William Atchison Finlay in July last, and offered themselves for that Service—The Board apprehending, that they had some Sinister views in this Application, they being deeply concern'd in a Monopolizing Company in the Indian Trade at Augusta, chose to Postpone it 'till they had better informed themselves- It having appear'd to this Board by frequent Complaints from several Inhabitants of Augusta, that the Proceedings of this Company, if not timely prevented, would not only prove destructive to that flourishing Settlement, but also obstruct any Benefit this Colony might reap from the Indian Trade, and they had often (of late) advised the Commissioner for Licensing Traders, to Licence Persons (if such offer'd) as should appear deserving and independent of this Monopoly, by which, they hoped, a stop wou'd in some Measure be put, to the further growth of these apparent Evils, but notwithstanding those frequent advices this Company found Means to impose on the Infirmities of the Commissioner, and obtained Licences for all their Creatures, and thereby frustrated the Ends design'd by the advice given by this Board; and they are now confirm'd in their Opinion by Letters from Augusta, that the Application of the Persons beforemention'd for Constables was a Design of the Company's in order that they might have it in their Power to oppress all Traders in the Nation, who would not join them in their pernicious Schemes.

Mr Patrick Graham Agent for distributing Indian Presents, acquainted the Board that He did on the 9th of this Instant deliver to the Indians mentioned the 15th proper Presents, and the next Day sent them up to the Cow Pen in a Boat to forward them to the Nation, and they appear'd to be well satisfied.

Mr Jonathan Bryan of South Carolina petitioned the Board for a Tract of Five Hundred Acres of Marsh and Swamp Land

bounded on the South by the Line of the Town Lands, on the East on a Creek call'd Salter's Creek, on the West by a small Creek, that runs into the Five Acre Lots, and on the North by the River Savannah about two Miles below this Town, promising that He would by Christmas next put on a sufficient Number of Hands to cultivate and improve the same to the best advantage— Part of this Land the Trustees formerly propos'd to be on a Lease to Mr Christie, but as he never came here to take Possession or claim his Lease, the Board look'd on it to be vacant, more especially as they are well satisfied, that he is utterly uncapable of improving any part of it, being now in Charles Town in miserable Circumstances; Therefore, they readily granted Mr Bryan's request, especially as this piece of Land cannot be cultivated without great Strength, which they know He is capable of performing, and believe he will become a useful and valuable Member of this Colony—He likewise petitioned in Behalf of his Son Jonathan for Five Hundred Acres of Land on Hutchinson's Island, opposite to this Town, proposing (if granted and Liberty could be obtained on the Carolina side) to make a Road through the Island, and carry the same to the High Land on that side, suppos'd to be upwards of Three Miles through a deep Swamp, in order to open a better Communication between the two Colonies, but as they understood his Intention was not to do it this Season. they chose to defer giving any possitive answer, until they saw how far He would fulfil his Engagements on the Land granted, and should receive the Trustees advice on the same.

Thursday the 27th Day of September 1750

Jacob Casper Walthour who hath served the Trustees in the Publick Store under the Direction of Mr William Russell, petitioned for a peice of Land confin'd on three sides, namely on the North by Henry William Parker on the West by John Farmur, on the South by William Ewen and on the East by vacant Lands, containing One Hundred and forty Acres, setting forth that his Father had enabled Him to cultivate and improve the same—The Board being well satisfied of his dutiful and faithful Behaviour, while in the Trustees Service, were pleased, that they had

an Opportunity of shewing him Countenance, and ordered the Surveyor to run out, and put him in Possession of the said Lands, especially as Mr. Habersham a Member of this Board, acquainted them, that his Father had lodged upwards of Thirty Pounds in his Hands to buy him a Negroe.

Mr Benedict Bourguin the 5th Day of May 1740, had Three Hundred and fifty Acres of Land granted to Him by this Board to be run adjoining West to Five Hundred Acres that Day granted to his Brother Henry, who was to join West of a Tract of the same Quantity possessed by Philip Delegal on the South Branch of little Ogechee River, and the Board were this Day surprised. to see a second Petition of the said Benedict's laid before them for Five Hundred Acres of Land near the Place, He before, had Lands granted to him; which caused them to send for the Surveyor to know the Reason, why the Lands granted to the said Bourquin were not laid out agreable to the Board's orders, who acquainted them, that the Day He was going out to run the said Lands; Mr Samuel Marcer went to Him, and said, He was glad, that He had the Opportunity of seeing him before He went out. and ordered him to leave a Tract of Five Hundred Acres of Land vacant between Philip Delegal and those he should run for Henry Bourquin, and that as He was an Assistant, He understood and obeyed it as an order from the Board; that by so doing, Benedict Bourguin found himself pushed into a deep Swamp, which did not afford Him a piece of High Land proper to Build a dwelling House and Barn upon, therefore declined taking the same-This proceeding of Mr Marcer's intirely unknown to the Board, confirm'd their Suspicion, that for some Time past, He had been endeavouring to accumulate Quantitys of Lands to Himself, under the Name of Persons said to be in England, which the Board had reason to suspect were fictitious— The Board took this second Petition into Consideration, and finding that Mr Bourquin had been ill used, and that his Circumstances (having lately met with many heavy Misfortunes) were not so well, as they appeared to be Eighteen Months ago, and having a very numerous Family granted Him two Hundred Acres on the said reserved Lands, reserving the other Three Hundred to be given to Him, if He

shall appear deserving and of ability to improve them, and if not to be disposed of otherwise.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Tuesday the 2^d Day of October 1750

William Davis petitioned the Board setting forth, that He had for some Time past resided on Fifty Acres of Land belonging to Mⁿ Robe relict of Thomas Smith on Skidoway Island, and being desirous of becoming a Freeholder of this Colony requested Fifty Acres of Land on the said Island formerly granted to and possessed by William Ewen, and some Time ago resigned by Him, which the Board granted to the said Davis.

John Gabel a German lately an indented Servant to Captain David Cutler Braddock, petitioned for Fifty Acres of Land at Abercorn, formerly possessed by William Starr Fitchett, who has been sometime Dead— The Board not knowing, that the said Fitchett had left any Will, or had any Heirs or Relations supposed this Land to be vacant, and being well satisfied of the Petitioners Industry and good Behaviour, ordered him to be put into Possession of the same, upon Condition that if any Heir appeared He must resign these Lands, when an equivolent of Lands should be granted to Him, elsewhere— Upon this occasion, we cannot omit observing, that there are many Lands lay vacant for the same Reason as the abovementioned, and unless some Means can be fallen upon to remedy this Evil a considerable Quantity will lye vacant and useless to the Detriment of the Neighbouring Plantations.

M^r William Spencer acquainted the Board, that M^r Adam Bosomworth, Brother to Thomas, came to him last Saturday Morning, and said, that He and a Young Man an Interpreter desir'd

to make Affidavit before Him and Mr Marcer to a Paper, that was already wrote; that He had been with Mr Marcer, who sent his Service to Him, desiring to know, where Mr Marcer should wait on Him, or He on Mr Marcer? He replied that He was much out of order, and unable to go from Home, and desired to see the Papers, He wanted to be sworn to, upon which Mr Bosomworth deliver'd Him a Sheet of Paper doubled and sealed at the corners, with an Affidavit drawn on the Back of the same, which upon Perusal He found related to some Transactions of the Bosomworths in the Creek-Nation, where He understood they had lately been; which put him on his Guard, and He acquainted Mr Bosomworth, that He could not be insensible that His Family had made great Disturbance with the Indians, therefore He did not chuse to do any thing of that kind, 'till He had consulted with Mr Parker, who wou'd be in Town Monday or Tuesday following— He answered that as Mr Parker was not in Town, He applied to Him and Mr Marcer, who was ready to wait on Him to do it— Mr Spencer suspecting Mr Marcer to be concern'd with the Bosomworths, told Him, that if He was able, He would ride with Him to Mr Parkers, and 'till He saw Him, He would not swear Him- Mr Spencer likewise said, that Mr Bosomworth, came again to Him in the Afternoon in a threatning Manner, and told Him, that notwithstanding Mr Parker was not in Town, Mr Marcer was ready, and if He wou'd not join with Him in taking His Affidavit, He would protest against Him, to which He replied, that He had given him an Answer in the Morning, and He might do as He pleased— Mr Spencer also reported, that He observed, that Mr George Galphin was mentioned in the aforesaid Affidavit, as a subscribing Witness to the within Instrument of Writing, which the Board were surprised to hear, after what He had related to them set forth in a preceeding Minute of the 15th Ultimo, whereon they resolved to order the Surveyor not to lay out the Lands lately granted to Him, 'till He had cleared up this extraordinary Part of his Conduct.

Wednesday the 3d Day of October 1750

M' Spencer coming to the Board this Morning, saw M' Bosomworth and M' Marcer talking together, and went to the Former, and acquainted Him, that M' Parker was now in Town, and if He wou'd go with Him, He wou'd have an Answer to his Business, to which He replyed, it was very well and left Him.

John Staly Jun^r petitioned to have the Lot N° 18, on the River Ness, which He drew at the first Settlement of that Place, changed for the Lot N° 17. drawn at the same Time by Thomas Richards, who left the Colony, as set forth in a Minute of this Board the 16th November last, complaining, that the Lot, He now possesses, does not prove so good as He expected, and the Board being willing to encourage his Industry, granted his request.

The following from the Reverend M^r Bolzius was this Day laid before the Board—

"May it please your Honours to pardon me for my Attempt "to trouble your Board with this humble Petition— Mr Von "Munch (a great and rich Gentleman at Ausperg, and one of the "Honourable Trustees) hath it much at Heart to contribute all "he possibly can to the setling of this Barrier Colony with good, "honest and industrious German Protestants, who make in great "Numbers Application to him and other Favourers of the Poor, "in order to be sent over to Georgia or Carolina— The said Gen-"tleman wrote lately to M' Meyer acquainting him, that He, to-"gether with the Reverend Mr Ulsperger, intended then to Pe-"tition the Honourable Trustees for a Tract of Land to settle by "Degrees, and upon a very good Scheme, such German Protest-"ants upon, which he thinks proper to send over- Therefore I "beg, your Honours would please to reserve a fertile and con-"venient Tract of Land for that Purpose, as near to our Settle-"ment as you possibly can— We have pitched for the present "upon the large Islands between our Mill Creek (commonly called "Abercorn Creek) and Savannah River, where is some high "Land for Buildings— It is said likewise, that at Little Oge-"chee is much vacant very good Land to settle a Body of People "to their mutual Assistance in Labour and Defence- What we "call the Uchee Land is reserved for our present and future Serv-"ants, and contains not such large Quantity, as is given out— "Above Mount Pleasant is (as we are told) a very fertile and "convenient Tract for a whole Body of People—Our old Setlers, "chiefly at the Mill Creek, beg your Honours wou'd please to "grant them upon the said Islands Fifty Acres to that which they "possess already, that they may have Each 100 Acres to be used "for Planting Mulberrry trees, and Pasturage being too much "Streightened for Land in their present Situation— Likewise the "Reverend Mr Lemke hath pitched upon a high Tract upon the "Island, mostly opposite to Mr David Zubli; for a Plantation of "500 Acres for his Family, if you please to grant it Him- In "expectation of a favorable answer to this my Petition for our "great Favourer Mr Von Munch for our old Setlers, and my "Dear Fellow Labourer Mr Lemke, I rest with present Esteem

"Honoured Gentlemen

"Your most Obedient and very humble Servant

Ebenezer in Georgia Sep^r 28th 1750 JOHN MARTIN BOLZIUS

The Board being acquainted, that the Reverend M^r Bolzius was in Town sent for Him, and told Him, that they wou'd with Pleasure accommodate any People, that may come recommended from the worthy Gentlemen he had mentioned or Himself; but they had long observ'd with Concern, that the old Inhabitants of Ebenezer had laboured under great difficulties by being hudled up together on small bits of Land, (two three and four Families being plac'd on a Fifty Acre Lot, of which not more than Ten or Twelve Acres on many of them were fit for Cultivation, the rest being Pine) and that it was more equitable to provide for the old Setlers, who could not long subsist in their present Situation, unless remedied; that after these were accommodated, then others, that might come over, might have the best vacant Lands in or near that Township— M^r Bolzius was extremely well pleas'd with the Board's Sentiments, but expressed the Difficulty He had

met with in perswading some of them to remove to the Lands.

sometime ago, laid out for them on Black Creek, and near Abercorn they urging, that it wou'd he hard to leave their present Possessions— Mr Bolzius was acquainted, that the original Proprietors of those Lots or their Children when displeas'd with their Neighbours might turn them off, which wou'd probably, if H. should die, be the Consequence, and might be the Cause of great confusion and endless Disputes: He replied that He was convinced, that there was a Necessity of remedying these apparent Evils, and had offered several of them Five Pounds Each, to assist them in setling their New Plantations, which some of them refused, looking upon their present Habitations, and small Modicums of Land, which they had improved, as their own Property— The Board perceiving Mr Bolzius's Dilemma, and knowing these People to be deserving of encouragement in a particular Manner, and being some of the oldest Setlers, told him, that such as chose to move, should have One Hundred Acres Each of good Lands, where they should pitch upon in or near Ebenezer, and that those, who remain'd, should have their present Lands made up One Hundred Acres on the Island adjoining them, agreable to Mr Bolzius's Request, and at the same time, He was desired to return a particular Account of the Names of those that wou'd remove on this offer, and the Lands they chose, and likewise of those, who remain'd, and wanted their Possessions enlarged; the Board being entirely unacquainted with the Settlement of Ebenezer, which was left to the Discretion and Conduct of Mr Bolzius being thought to be agreable to the Trustees.

Mr Noble Jones petitioned the Board for a Tract of Five Hundred Acres of Land situated on the Heads of the North Branches of the Little Ogechee, adjoining to the North West corner of those lately granted to Mr Francis Harris; setting forth that He was possess'd of no Lands in the Colony of Georgia, except a Tract on the Isle of Hope, which He held by Lease, on which it is well known, that He had for many Years labour'd in cultivating the same at a vast Expence, and notwithstanding he had, had seven Negroes this present Year working thereon, He had not

rais'd more than Food to feed them the ensuing Year; and unless the Board wou'd grant Him such Lands as would answer the Expence of Cultivation, it would be more for His Interest to dispose of them, than keep them employ'd, where they now are—The Board being well convinc'd of the Truth of what was set forth, could have no Objection to Mr Jones's Request, Therefore order'd the Surveyor to run out the same.

The confused state of Ebenezer, relating to the Possessors of Lands, which requires to be speedily look'd into, in order that the same may be properly ascertain'd, as well as many other Instances of the like Nature in other Parts of the Colony, which has occur'd, and occasioned great Difficulties to the Board, put them upon considering of proper Means to remedy the same, which they found could only be effectually done by a proper Register's Office, which has been totally neglected by those hitherto appointed Registers and for Years past no one has even appear'd in that Character, and that no Person in the Colony was better qualified to execute this weighty Trust, than Mr Noble Jones, who, notwithstanding it had not been his proper Business, had kept a private Register, and had always been ready to assist with His Services therein, when desired; Therefore it was now proposed to Mr Noble Jones to undertake it, who willingly accepted it and engaged to perform the same carefully, the Board not doubting but the Trustees will approve of, and confirm him therein.

Thursday the 4th Day of October 1750

The Commissioner for the Indian Affairs received some Time ago a Letter from Mr Daniel Clark a Trader in the Indian Nation, acquainting him, that He saw at the Cowetaw Town in the lower Creeks several Frenchmen namely, the Engineer, Lieutenant, Ensign, Linguist and three Soldiers of the Albama Fort, besides some Indians and Negroes, that attended them, who staid there three Days and were much caressed by the Cowetaws, especially by Malatche, who they called their King; that James Bubbie who was sent Express by the Governour of South-Carolina to perswade these Indians to conclude a Peace with the Cherokees,

wanted to buy Provisions for his return to Augusta, but could get none upon any Consideration all the Town being taken up in entertaining the French, and in providing Bread, Fowles &c tocarry them back to the Albamas; that the French brought Colours, which were set up in the Square by Malatche's orders, on which He and Mr Galphin asked Chigillee and Malatche; what they meant by doing this, and if they had no English Colours in their Town, or if they were turn'd all Frenchmen, of which they seem'd to take no Notice, whereupon they went out of the Square, and soon after were sent for, but they refused to go, and told them, that they wou'd neither hear nor receive any Talks under French Colours; that they were again sent for, and returned the same answer, upon which Malatche and other head Men went to Mr Galphin's Store, and sent an answer to the Governour's Letter, which was that they looked upon the Cherokees as the Agressors, and that they would not conclude a Peace with them unless they wou'd come to that Place to treat about it, or to that Effect.

The Board are at a Loss to say, whether the Governour's persisting (as we hear He does) to bring these Indians to Terms of Peace is good Policy, as it has always been allow'd by the Traders, that the Indians never behav'd better to them, than when they have War among themselves— When the Indians have mentioned any thing of this Kind to this Board their answer has been, that they were sorry to hear of their Quarrels, but as the Cherokees, as well as Creeks were their Friends, and they were all red Men, they did not chuse to interfere with their Disputes, especially as both Nations continued in Amity with the great King and his Subjects.

The Behaviour of these Indians to the French, as well as to the Bosomworths, with whom, they promised when here to have no concern with, induced the Board to advise M^r Graham to make up a Quantity of Presents for the Upper Creeks, and to go there himself to distribute the same, which they thought would be a means, as these People have generally appeared well affected to the English, of preventing any ill Consequences, that might be intended by the lower Creeks, especially the Cowetaws and Cus-

sitaws, whose ungrateful Behaviour deserves a severe Censure if it was proper at this Juncture to shew it.

M' Graham was desired to take the first Opportunity to send up the Presents to Augusta, that they might be forwarded from thence in January next, in order to be in the Nation in February, where He intended to meet them, being the Season, when the Indians return from their Winter Hunts.

Mary, Widow of the late Thomas Younge Wheelwright, having often set forth, that She was absolutely incapable of subsisting herself and two Children without some Relief; which appearing to the Board, they ordered her an Allowance of Twenty Shillings P Quarter, 'till they should have Reason to recall it.

The President M^r Stephens came to the Board, and acquainted them, that a Boat and Hands were ready to carry Him to his Plantation, for which Place He intended to set out to Morrow Morning in order to spend his few remaining Days in preparing for a better Life.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Wednesday the 17th Day of October 1750

The Reverend M^r Zouberbuhler and most of the Inhabitants of this Town, having frequently complain'd of the ill Conduct of M^r Holt the Schoolmaster, towards many of the Children under his Instruction— The Board could no longer hear these repeated Complaints without examining into the same; therefore He was sent for (M^r Zouberbuhler by Request being present) who returned for answer, that He would come when He had Time; the Messenger was again sent to acquaint Him, that his Attendance was required immediately, the answer was, when He dismissed the School, He wou'd attend, and that He was the properest Judge of the Time; this insolent Behaviour occasioned the Board

to order their Messenger to fetch Him as an Officer— When He was brought, his Behaviour to the Board, as well as to M^r Zouberbuhler was so intollerably abusive; that it was thought proper, in order to reduce him to a sense of his Duty, to order him into Confinement; but before, He reached the Place, M^r Zouberbuhler at the request of the Board, overtook him, and endeavoured to convince Him of his Error, which kind Service, M^r Zouberbuhler said, He returned with the utmost Scorn and Contempt, and added that He could not in Conscience ask any Favours for Him; 'till He was convinced of his Folly, which He thought could only be done by shewing a proper Resentment, as He had often declared, that He was not under the Controul of any Authority here.

Mr John Milledge petitioned for four Hundred Acres of Land on the South side of little Ogechee River at the back of Lands granted to William Wilson and his Son John, setting forth, that He some Years ago made considerable Improvements on a Tract of Land on the great Ogechee, while He commanded the Garrison on the said River, but the same having never been confirm'd to him, and the Provincial Troops being broke, made it inconvenient for him to desire to be fixed there; and that He has since been industriously employ'd in cutting Lumber &c. but now conceives it to be high Time to make a Settlement for his future Welfare— The Board having for some Time past observed, that this good natur'd Young Man has been employing his Strength and Industry rather for the Service of others, than for himself, could not but approve of his Design of making a Settlement, therefore granted his Request; and they cannot omit observing, that He has at all Times appeared peculiarly Active to serve the Colony, whenever required, especially in all Disturbances with the Indians, being a good Horseman and well acquainted with the Woods.

Thursday the 18th Day of October 1750

The Board thought proper before they separated to desire M^r Habersham, one of their Members, to get M^r Zouberbuhler to go with Him to have a further Discourse with M^r Holt concern-

ing his late Behaviour, which Mr Zouberbuhler for some Time refus'd, saying He look'd upon him to be in his present Temper incorrigible, and that he ought to be humbled by Confinement but was at length prevail'd on to go, who soon return'd together, reporting that his Behaviour was the same or rather worse; but the Board having Compassion on the Infirmities of his decrepit Body, thought rather to Suspend him from acting as a School-master under the Trustees (at least 'till he came to a sense of his Duty) than to keep him longer confin'd, accordingly he was sent for and acquainted of the same, but that He might keep a private School for such Children whose Parents should think proper to send to Him

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Monday the 5th Day of November 1750

This being the first Board since the arrival of the Packet by the Charming Martha Cap^t John Lisslie, who arrived on Tuesday last (occasioned by the Indisposition of M^r Parker who was thereby appointed Vice President) when M^r Habersham who was likewise appointed the Trustees Secretary within the Province, acquainted the Board that He had lost no Time in dispatching the Letters directed to the Reverend M^r Bolzius at Ebenezer; and had likewise given orders to the Clerk of the Store to provide a large Boat, and use his utmost diligence to bring to this Town the Passengers and their Baggage, from on Board the Ship lying at Cockspur; and accordingly they were all landed, Lodg'd and provided for in this Town—

M^r Bolzius having by Letter acquainted the Board, that He had three or four Days before lost His Eldest Son, and desir'd that His Attendance at this Time might be dispenc'd with; but

sent the Reverend M^r Lemke and M^r Meyor in His stead, who now attended, when the Board after advising with them took proper Measures, that no Time should be lost in sending the German Passengers to Ebenezer, except some few, who being Sick, orders were given for proper Care towards their Recovery; the Board likewise acquainted them that they could not at this Time come to determinate Resolution, how to settle these new Comers 'till they had consulted with M^r Bolzius, and accommodated the old Inhabitants with Lands, agreeable to his Request and their Promise made to Him as appears in a Minute of the 3^d of October last.

Two of the Members of the Board being in Publick Company with Mr Samuel Marcer and others the 22d Ultimo, and accidently falling into discourse about Mr and Mr Bosomworth's being disappointed in their Intention of going to England with Captain Davis, it introduced a further Conversation about their late Behaviour in the Indian Nation, when Mr Marcer said, that He was surprised to see Mr Galphin's Name as a Witness to some Instruments of Writing, executed in the Creek-Nation, when He had denied here of knowing anything about it— He was ask'd how He could see the Names of the Witnesses, as the Paper produced to Mr Spencer, with an Affidavit on the back, was sealed up? He answered, that He took Care of that, for He would not swear him, 'till He knew what it was, and took Copys- The Hint was improved, but He perceiving, that He had overshot himself, grew more wary and endeavour'd to recal what He had declared, and said, that He had only taken Copies of the Affidavits to three Instruments of writing for his own Satisfaction, and that a fourth was offered Him; but He knew it to be so barefacedly untrue, that He refused to Swear them to that— He was then asked, how He could see Mr Galphin's Name without seeing the Writings? He answered, that He insisted upon seeing Mr Galphin's Name, and doubtless improved the Opportunity of looking further- He was then told, that the Board knew nothing of this Proceedure, and that He had done very wrong in countenancing it— He replyed, that it was his Opinion, as well asother abler Persons, that these Affairs had better be decided at

Home, for they never could be concluded here— He was again told that He had joined the Board in representing the Destructive Schemes of these People, and that He seemed now to use his Authority to countenance them, and much more to the same Purport, to which He replyed, that He could not refuse a Brittish Subject his Oath— It is evident to the Board that Mr Marcer was well acquainted with the Purport of these writings, otherwise, they can't conceive how He could distinguish one from the other.

Last Spring, Captain Davis went to Jamaica, when He hired a large Schooner by the run (to touch at St Simons) for England; and about last September, He came off the Island of St Catherines, where Mr Bosomworth resided, and sent his Boat on Shore to get Beef of Him for his Voyage, as well as to desire M^r and Mⁿ Bosomworth to meet him at Simons, from whence He was to proceed in Seven Days for London-Mr Bosomworth set out directly for the Forks, where his Wife was supposed to be on her Way from the Nation, but meeting her short of that Place, they proceeded with the Deer Skins, they had got from the Indians to St Simons— Thomas Parker, Mr Marcer's Son in Law with some others, who had accompanied Captain Davis to Jamaica came on Shore in the Schooner's Boat to St Catherines, and after they had loaded her with Beef, and other Effects of the Bosomworths, they went likewise to S^t Simons expecting to meet Captain Davis, who has not been since heard of.

Tuesday the 6th Day of November 1750

A Special Court was ordered to be held on Friday the 9th Instant, and the Recorder was required to make it Publick, by advertising the same.

Late last Night M^r Habersham laid before the Board, the following Letter from the Reverend M^r Bolzius dated the 3^d Instant, Viz^t

"Ebenezer in Georgia Nov^r 3^d 1750

"Honoured & Dear Gentlemen

"I hope, you will pardon me for this Trouble by writing to you "instead of waiting upon your Board, as I was heartily inclined"

"& my Duty commanded me, if not my & my Wife's weak state "of Health in our present Tryals, and several necessary Business "in the absence of the Reverend Mr Lemke & Mr Meyer pleaded "for an Excuse.— I have acquainted our Inhabitants with your "paternal Care & generous Inclination to enlarge their Planta-"tions, which they look upon as real Testimonies of your unde-"served Love & Favour, for which they return you together with "me their most humble & hearty Thanks.- It is true, some are "so weak in their Bodies, that they are hardly able to cut down "a Tree or build a Hutt; Therefore desire to spend the short Re-"mainder of their Time upon their small Tracts of Land near "Church School & Mill.— Some, whom I shall name afterwards, "embrace with great Pleasure your kind and generous offer, & "beg you would please to allow them each 100 Acres of Land of "that, what is vacant about Abercorn or Goshen as the nearest "to our Mills & the Church at our Plantations; but fear with "good Reason, that but few Tracts are vacant.— I am told, that "2 or 3 Soldiers have left and given up their Lots thereabouts, & "you would oblige me and our People very much, if you would "please to grant them Liberty to Settle upon such.— Mr Lemke "will not desire an unusual thing as that Glebe would be, which "the Surveyor hath run out upon my Application, and it seems, "the Honble Trustees will not approve of a second Glebe for the "Parish of Ebenezer, therefore leaves this Tract of 300 Acres "willingly to three of our old Inhabitants, if you are pleased to "give your Consent to it.— Their names are Christian Leimber-"ger, Balthasar Bacher & Peter Kohleisen, who leave their small "Tracts at the Mill Creek to their Neighbours upon very reason-"able Terms.— So does George Kocher & Martin Lackner sent, "who beg likewise each 100 Acres about Abercorn & Goshen, "Vit Lechner, who is now Overseer upon my Glebe, & hath a 50 "Acre Lot near it, begs leave to have run out 50 Acres more in "the Swamp congruous to his Tract, He hath given up likewise "his very small Plantation near our long Bridge to one of his "Neighbours for filling up his Quantity.— George Buckner hath "a Plantation near the Town, but being mostly Pine Land, begs "you would please to allow him the vacant neighbouring Plan-

"tation of 50 Acres too, which is mostly Pine but having some "Acres of good Land.— The following old Inhabitants had either "no Land at all, or have given up their small & imperfect Tracts "to their Neighbours, Vizt Mathias Zettler, George Meyer, Ru-"pert Shrempf, Christoph" Rottenberger, Valentin Deppe, John "Martin Rynlander an Orphan with Zettler, Rupert Kalcher, "Philip Metzcher, Ludwig Ernst an Orphan.- These beg Liberty "to chuse their Plantations upon the Uchee Land, where is a very "good Situation to build a Grist Mill, for which I beg, you would "please to order the Surveyor to reserve 100 Acres for publick "Benefit.— Our last Servants had the Promise to get their Plan-"tations laid out likewise upon the Uchee Land, for whom I make "bold to intercede, if you would please to let them have the Pref-"erence to the present new Comers, to settle here after the Ex-"piration of their Servitude.— But lately is come a Man with his "Wife from Purrysburg to our Place, his Wife having her Sis-"ters here; his Name is Jacob Meyer who begs likewise a Tract "for his Settlement upon the said Land; as also John Paul "Franck, who married lately Old Keefer's at Purrysburg Daugh-"ter, & desires to live near his Relations upon the said Land.— "George Glaner gives up his 25 Acres to the Widow Sibylle Zant "and her Children for filling up their Quantity, & begs to take "for his Property that uncultivated Plantation near him at the "Lagoon of our long Bridge.— Lachner jun having got his full "Compliment of a 50 Acres Plantation from his Neighbour at "the Bridge, forsakes that Lot at the Black Creek, which was run "out for him about a twelve Months ago, & John Sheraus, who is "setled thereabouts, begs, that it may be added to his Lot, to get "thereby 100 Acres for himself, his Son and Brother, whom he "expects.— Jacob Mohr, a single Man beseeches your Board for "a piece of good Land, still vacant near my Glebe.— May our "Good Lord please to direct your well disposed Hearts to what is "conducive to the Welfare of the Colony, to the well being of "the above named Supplicants & to the new Colonists happy set-"ling to their and their Favourers Satisfaction.— I desire eagerly "to wait upon your Board as soon as my Fellow labourer returns, "if the Lord is pleased to grant me Strength & Life. In the mean

"While I rest with Submission and real Pleasure—Honoured & "Dear Gentlemen Your most obliged & very humble Servant
"John Martin Bolzius

The Board well weighing the same and taking a due Consideration thereon, order'd their Clerk to write the following answer.

"Savannah 5th Novem 1750

"Rev4 Sir

"Your Letter of the 3d Instant has been laid before the Board, "and they desire me to assure you, that they will do all in their "Power to forward the Settlement of Ebenezer; and agreeable "to your request and their late Resolution, they think the old In-"habitants have a Prior Right to be first accommodated with a "Hundred Acres of such Lands, as they shall like; after those, "the Familys, that are now come over at their own Expence, to "be provided with Fifty Acres of Land, where they and you shall "chuse, for whom the Trustees have sent over some Tools, which "they will receive, when setled, but they expresly acquaint the "Board, that they are not to be allowed any Provisions from "them- The Trustees inform the Board, that another Embark-"ation may soon be expected, and as they cannot tell, what Terms "they may come here upon, they can only say, that the Male Serv-"ants by Capt Bogg will be provided with Fifty Acres of Land "each, before the Servants now, or that may hereafter come-"They believe you will think their Opinion herein equitable, and "as the Trustees intend to send over Grants to the Possessors of "Lands, within this Province, great Care must be taken to ex-"plain the Bounds and situation of each Tract, to ascertain each "Man's Property, and thereby avoid Confusion and troublesome "Disputes; Therefore the Board desire to see you (if you can "conveniently come) any Time before Friday next, or if that "does not Suit, next Tuesday— They desire me to acquaint you, "that they condole with you in your late Loss- I am "Rev4 Sir

"Your very humble Servant

W^m Spencer in the Absence of the Clerk

"Rev John Martin Bolzius

The Rev^a M^r Lemke and M^r Meyer this Morning acquainted the Board, that they had sent all the German Servants to Ebenezer, except Abraham Younginger, who is appointed to be a Servant in the Trustees Store, and Catherina Michlerin, who was desir'd by M^r Habersham to serve at the Orphan House, and Abraham Slumpberger and Family, also Abraham Fezer and his Family, the said Men being so weak could not be remov'd without endangering their Lives; on which the Clerk of the Store was again order'd to take Care to provide Necessarys for the said Familys, while under the Care of the Doctor, and at the same Time Doctor Graham was requir'd to use his utmost diligence (if possible) to recover them.

Wednesday the 7th Day of November 1750

Isaac Labon, Leonard Bowdle, Anthony Pages and Anthony Lesage, being Passengers lately arriv'd in the Charming Martha, were sent for— The Board having a strict regard to the Trustees Instructions, acquainted them, that they had appropriated a choice piece of Land fitting for their Purposes, about four Miles West of this Town; and had likewise order'd the Surveyor to go with them to lay out the same; and had also desir'd Mr Jean Sack an old Inhabitant of this Colony, a Country Man of theirs, to go with, and assist them therein.

Thursday the 8th Day of November 1750

The Board understanding, that Mr Marcer was now come to Town, from whence He had been absent some Days past, sent for him, and acquainted him, that the Trustees had not only confirmed their Suspension of Him from acting as an Assistant, but also from his executing the Office of a Magistrate; at the same Time they took Occasion to remind him of his general Conduct at the Board, and in particular of his late Behaviour in relation to the Bosomworths, as set forth in a preceding Minute of the 5th Instant— To which, He made but little answer— He was then told, that Methods had been used to keep the Board in the Dark about the Proceedings of the Bosomworths, in the Nation; and that they had reason to believe, He was not only privy to

their Designs, but had Copys of the writings attested before him— He answered, that He only took Copys of the Affidavits annexed to three Instruments of Writings, which He was then desired to produce, and He accordingly brought the following in his own Hand writing, which with the N. B. He said was the Substance of the three.

M' Habersham acquainted the Board, that He receiv'd a Letter from the Reverend M' Bolzius, which inform'd Him, that He was prevented coming here, as proposed, by the death of His Youngest Daughter, which they were concern'd to hear, and they desir'd him to acquaint M' Bolzius, that they were at a Loss to come to a determination about setling the People at Ebenezer, 'till they had consulted with him, and if he cou'd come down, they wou'd be glad to see him next Wednesday.

Fryday the 9th Day of November 1750

This Day a Special Court was holden according to Appointment, when the following Instruments were read, namely Mr Henry Parker's Appointment as Vice President together with His Publick Instructions, as well as for Commissioner for licensing Traders for the Indian Nations; Mr James Habersham's Appointment as Secretary for the Trustees Affairs within this Colony, Mr Patrick Graham's as Agent to distribute His Majesty's Presents to the Indians in Amity with this and the neighbouring Colony; Mr Noble Jones's as an additional Assistant to this Board; and also the Trustees general Release from all former restrictions on Lands, when the Recorder administer'd the Oaths of Office and all others requir'd.

The Secretary was desir'd to write to Mr James Fraser of Augusta, and inclose the Trustees Appointment of him as Conservator-vol 6

ator of the Peace there, and to require him to be at the next Court to qualify—

Saturday the 10th Day of November 1750

The Rev^a M^r Zouberbuhler acquainted the Board, that M^r Edward Holt had been with him several Times, and acknowledg'd, that He had been induced by the Reports of idle People to act in the Manner he had done, unbecoming his Station; but that if He might be restor'd to his Office, He would take Care to give no Offence for the future— The Board were pleas'd to hear, that their Suspension had wrought so good an Effect, and brought him to a Sense of his Duty, which was what they intended; therefore they readily sent for him, and upon his repeated promise, that He wou'd conduct himself agreeable to his Station, they restor'd him.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Wednesday the 14th Day of November 1750

Last Monday M' Edward Holt open'd his School, and his Behaviour is so much alter'd for the better that He seems to give general Content—

The Secretary deliver'd a Letter directed to the Board from M^r George Galphin, which He receiv'd last Saturday Evening, which is as follows—

After seriously perusing this Letter, the Board came to a Resolution, notwithstanding M^r Galphin's late double Dealings, to make use of him, in assisting M^r Graham (who soon intends to go into the Nation) to frustrate the mercenary Intentions and wicked designs of the Bosomworths; and if possible to improve the Opportunity to purchase all those Lands, claimed by them for the use and disposal of the Trustees—

Thursday the 15th Day of November 1750

Great part of Yesterday and this Day the Board was employ'd in consulting with the Rev^a M^r Bolzius about accommodating the late new Comers, as well as the whole Inhabitants of Ebenezer with Lands, in which they found great Difficulties, and at length came to a Determination to give the following Instructions to the Surveyers.

Savannah November 15th 1750 W^m SPENCER in the absence of the Clerk

Friday the 16th Day of November 1750

John David Fisher, Son in Law of Thomas Fraser of Vernonburgh, petitioned for a Fifty Acre Lot N° 4. on the South side in the said Township; The Board knowing him to be brought up from a Youth in the Colony, and that He is able to improve the same, granted his request

M' John Mackintosh B. who the Board agreed with, to supply the disbanded Soldiers setled to the Southward of Midway River, having a long Time neglected to bring in his Accounts, the want of which prevented the Board making up their Account of that Service; therefore they ordered the Clerk to write to, and acquaint him to bring in his Accounts properly Vouch'd on the 4th Day of next Month; which if he neglected, no regard would be paid to it afterwards; and at the same Time to write to Cap' John Mackintosh at Darien, that He would acquaint those Setlers, if they had any Complaints to make of their not being duly supplyed, that they wou'd be heard, if they wou'd attend at the same Time—

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Tuesday the 4th Day of December 1750

Mr John Mackintosh attended the Board, and deliver'd in an Account of his having supply'd Seventeen Soldiers who with their Wives and Children made in the whole Thirty Seven Heads—The Board after carefully examining the Vouchers ordered him Payment; at the same Time others of the said disbanded Soldiers attended who had found Means to supply themselves; and on Enquiry, it was found, that they had setled and spent their Time in cultivating their Lands, and had provided themselves with a sufficient Crop for their and Familys future Support; the Board order'd them to be paid in Cash

Three of the four Frenchmen of the last Embarkation, namely Isaac le Bon, Leonard Bodel and Anthony Pages, acquainted the Board, that they had been out with the Surveyor, and had seen the Land, which they were directed to, and lik'd the same, and had pitched on three Fifty Acre Tracts adjoining each other, and had begun to settle thereon; but as for Anthony LeSage who worked at his Trade as a Taylor, they were doubtful, whether He wou'd go out on Lands; the Board therefore forbid his having any Tools or Provisions, 'till He shewed a Disposition to improve Lands.

Thomas Still petitioned for Fifty Acres of Land N° 12 at the New Village on Skidoway Island, setting forth, the He was by Trade a Tanner and Shoemaker, and that the Lot before mentioned was well water'd for tanning, which he should soon go upon and improve— Therefore the Board granted his request

Wednesday the 5th Day of December 1750

This Day the Sum of Three Hundred Pounds was issued towards the defraying the Expence arising by supplying the disbanded Soldiers and their Familys with Provisions—

M' Abraham Minis had several Times applyed to the Board to be reimburs'd the Expences He had been at for supporting and finding Attendance for Christopher Wysanbacher who had formerly been his Servant, and lately had the Misfortune of breaking his Leg and was carried to his House, which Fracture being complicated with a large Wound, confin'd him a long Time to his Bed, of which he had no sooner recovered, so as to walk with Crutches, but He accidently fell; and fractur'd it a second Time; both Accidents confin'd him upwards of five Months, and he appearing to the Board to have nothing of his own to subsist on, and knowing the Incapacity of M' Minis, who has a large Family; thought proper to allow him five Shillings Week for Twenty Weeks, believing the Young Man, when able, will make him some further retaliation, he being an industrious good natur'd, hard working Young Fellow—

Friday the 7th Day of December 1750

Yesterday and to Day the Board were employ'd in drawing up their Charge against M^r Marcer, which they could have length-ned, but thought it needless to enumerate any more Instances of his weak and deceitful Behaviour, of which they order'd their Clerk to deliver him a fair Copy, which is as follows—

"Sir

"The 21st of April last, the President and Assistants thought "their Duty obliged them to resent your contemptuous, useless "and hurtful Behaviour at the Board by suspending you from "your attendance there, which the Honourable Trustees have not "only thought proper to confirm, but have likewise suspended you "from acting in the Office of a Magistrate, therefore they now "think it incumbent on them, notwithstanding they have done it

"verbally, to acquaint you in writing with the Reasons, which "induced them to shew a Publick Dislike of your Conduct—

"It would be very disagreeable if it was possible, to enumerate "all the Instances of your contemptuous Behaviour at and to the "Board, they having seldom had a Meeting, for a long Time, be-"fore they suspended you, whereat you did not give them too "much Reason of Complaint; however their Duty now obliges "them to remind you of some particulars— The Board thought "themselves indispensibly obliged to enquire into, and represent "in a Minute of the 29th of November 1749, Mr Daniel Demetres "coming here with an armed Boat under an appointment from "the Governour of South Carolina; especially as the Trustees "Letters of the 9th of August foregoing, which you were not un-"acquainted with, informed them, that the Boat ordered by his "Majesty for this Colony was to be under their Directions, and "that his Grace the Duke of Bedford had signified the same to "Governour Glen and Lieutenant Colonel Heron, that they might "conform themselves agreeable thereto- The preceding Evening "of the Day of this Minute, the Board met (Mr Demetre being "by order present) to make this Enquiry, as well as to examine "him relating to Colonel Heron's Accounts, agreeable to the "Trustees Instructions, which they were then prevented from "proceeding in, by your insisting, in a most outragious Manner, "unbecoming even a Bear Garden, much more a Person in your "Character at a Board of Council, that Mr Demetre was author-"ized from the Governour of Carolina to be stationed at Fred-"erica, and they had no Power to stop him; and that if the Pres-"ident wanted to make any Enquirys for his private Satisfaction; "He had no Business to require your Attendance, which after you "had several Times with great anger repeated, you abruptly and "indecently left the Board, who were notwithstanding determined "to proceed in their Enquiry; and as they thought you might be-"come cool, after you had retired, they advised the President to "Summon you to attend the next Morning, which was done by "one of their Members, but you contemptuously answered, that "you intended to go a Horse Hunting, and would not attend, and "accordingly You did not-Sometime after this; Mr Demetre "returned here by order of the Board to attend them again in the "Examination of Colonel Heron's Accounts, He being materially "concerned in many Transactions therein; and after He had "passed through some Enquirys, He waited on the President to-"know, if He required his Attendance any longer, who answer'd, "that there might be many more Questions to ask him, but You "took upon you to tell him, that He might go as soon as He "pleas'd, for you knew of no Authority here, that could detain "him; upon which Mr Demetre was charged not to go, 'till He "had leave from the Board; and as this Instance of your Con-"duct is so nearly allied to the former, they mention it, but must "leave you to explain it- When the Board suspended you, you "did not appear there, though you officiously employed yourself "within their Sight the whole Day, which they shou'd not have "noticed, and could easily have passed by what they have men-"tioned and many more Instances, they could enumerate of the "like Nature, if your constant Conduct could have been born "with- You are not insensible, that though your Name has gen-"erally appeared at the Meetings of the Board, that you gave so "little Attendance, that it may truly be called none; for notwith-"standing you frequently made your Appearance, while the "Board was Sitting, yet the little Time you staid there, was very "seldom otherwise employed, than in idely amusing yourself with "an Almanack a News Paper, or pretending to be asleep; or else "turbulently opposing their Proceedings without giving any Rea-"son, which when demanded of you, you usually replyed, your "Reasons were your own, and you wou'd give them to no Man; "that the Board could not but look upon you rather as a Spy on "their Actions, than an Assistant to them— These Sir, you know "to be Truths, which if our Duty did not oblige us to mention, "we should rather have buryed in Oblivion

"Though the Board think the Facts recited will sufficiently jus"tifye their suspending you, yet they cannot omit reminding you
"of a remarkable instance of your double Dealings— The 17th
"August 1749 You and another Member of the Board charged
"Mr Bosomworth with saying the Evening before, that sooner
"than his Wife should loose her Birthright, He would spend the

"last Drop of his Blood, and swearing by G-d that General Ogle-"thorpe had ruined her, and deceived every Man in the Colony; "that the whole was a Bubble, and no Mans' Title to his Lands "was worth that (snapping his Fingers) and being checked for "swearing, idly excused himself, and said He could not help it; "but by G-d we should all soon know the Truth of what He "said, adding that General Oglethorpe's Scheme had been to de-"ceive all Mankind— You well know, Sir, that Mr Bosomworth "was called on by the Board to answer this Charge, among many "others, which He denied, and thereby made it incumbent on you "to support it, but on the contrary, you rose up, and went and "hung your Head out of the Window, as tho' intirely uncon-"cern'd, which must have made the Board look ridiculous, had "not the other Member, who was with you supported it to your "shame— After Mr Bosomworth was dismissed, the Board could "not but acquaint you of your misconduct herein, on which you "appeared very angry, and said (as usual on such Occasions) that "you would not say any thing, that might be disagreable, while "any Person was present, except the Members of the Board; for "fear of creating yourself Enemies; and notwithstanding you "appear by the Minutes of the Board to join in their Proceed-"ings during the Tumult occasioned by the Bosomworths and the "Indians at this Time, yet they had too much Cause to suspect "your Sincerity, witness your withdrawing yourself from them, "when the Tumult was at the highest; and your late Behaviour "in authorizing, as far as you could, the Bosomworths in their "Claims of Lands, which you had before joined the Board in rep-"resenting as illegal and injurious to the Welfare of the Colony, "and which you did, when you well knew, that another Magis-"trate had declined it, 'till He was better advised, gives them suf-"ficient Reason to believe, that they were not Mistaken— The "Board cannot omit acquainting the Trustees of the late Farce "acted by the Bosomworths with some of their Creatures in the "lower Creeks, which will necessitate them to notice the part you "acted therein, as it appears to be calculated to impose on the "Government, and thereby to carry on a Scheme, which (as was "before observed) you joined them, in representing as illegal

"and injurious to the Welfare of the Colony, as well as to his "Majesty's just and royal Prerogative— You acknowledged to "the Board, that you swore Adam Bosomworth and Joseph Pier-"cey to three Affidavits relating to this Affair, of which you took "Copies, which when they demanded of you, you delivered them "a written Paper, that you said was an exact Copy, and which "with the N: B: at the Foot of it; was the Substance of the "other two, wherein the Subscribers solemnly declare, that they "were present when the within Instrument of writing was ex-"plain'd and interpreted at the general Assembly of the Creek "Nations in the Coweta Square held the second Day of August "1750, and that Mr George Galphin was a subscribing Witness "to the said Instrument— Mr Galphin was here but a few Days "before these Papers were produced to you, who declared to you, "as well as to several Members of the Board, that only Malatche, "and four or five of his Creatures, such as they call head Men "signed these Instruments, and that He believed, the Indians, "except Malatche and another or two were ignorant of the Pur-"port of them: this Intelligence was at least sufficient to justify "your refusing to countenance Affidavits, which expressly de-"clare, that the Writings therein referred to were explained and "interpreted at the general Assembly of the Creek Nations; "whereas, if all that signed these Papers were head Men, they "were not a Tenth Part of such belonging to the Creek Nations— "In answer to this Observation, you have said, that you were not "obliged to know, who were head Men in the Creek Nations, but "the Board cannot so far reproach your Judgement, as to sup-"pose you so ignorant— You have likewise alledged, that you "could not refuse a British Subject his Affidavit, when demand-"ed: but if you had regarded, what the Trustees have frequently "wrote, and what you have often heard at the Board, that it was "High Treason for any Brittish Subject (without being legally "authorized) to treat with the Indians about Lands or any Gov-"ernmental Affairs, especially with the assembled States of their "Nations, you wou'd then have made it your Duty to refuse using "your Authority in countenancing so insolent and illegal a Pro-"ceeding- Upon the whole as you could not be insensible, that

"the Board were in the Dark about this Affair, you ought, when "you knew it, to have immediately acquainted them therewith; "and if the Deponents could not produce you a proper Authority "for aiding and assisting in this treasonable Practice, you should "have order'd them into Custody, in order, that the Board might "have had an Opportunity of making a proper Enquiry into the "same; and they are sorry, that you have so far mistaken your "Duty, as to have supposed, that you was authoriz'd to counte-"nance a Procedure, which they, with great Trouble and Ex-"pence, have endeavoured (as you well knew) to discountenance "The Board think it needless to mention your ordering the "Surveyor (unknown to them) not to lay out the Land, they "some Time ago ordered for Mr Henry Bourquin, and that it was "much beneath your Character to aim at accumulating Lands "under Names, if not fictitious, unknown to this Board or any "here; hoping that what they have said, will sufficiently convince "you, that you have greatly mistaken your Duty; for as a Pub-"lick Office is a Publick Trust, a Person invested therewith, is "not at Liberty to use his Authority to compass private Views, "inconsistent with the Public Good; they likewise order me to

While the Board was sitting, the following Letter was sent in

"P: S: Agreeable to your desire I left for your perusal the "Coppy of Bosomworth & Piercey affadavit which you promised "to Return I made same Application to M' Spencer who Could "give me no Satisfactory answer Pray send it as Soon as possi-"ble—

The Board thought this a Mean evasion of M' Marcer's to ex-

cuse himself from answering their Charge, but that He might have no Pretence of Excuse, they desir'd M^r Spencer to go to and convince Him, that the Charge He deliver'd was from the Board, and He was order'd to add at the Conclusion of it, that it was by their orders; and at the same Time carryed that Copy of the Affidavit, which M^r Marcer deliver'd to the Board, and to return it to him, if He would examine and Sign an exact Copy, which he had to deliver him in Case he refus'd to Authenticate it.

Friday the 14th Day of December 1750

M^r Spencer acquainted the Board, that He did not find M^r Marcer at Home last Night, therefore waited on him this Morning, and deliver'd their Message express'd in the preceeding Minute, to which He answer'd, that as He had receiv'd it from M^r Spencer He would take it as it was, without the Addition (by order of the Board) and likewise refus'd to Authenticate the Copy of the Affidavit, He deliver'd to the Board, but receiv'd it, and his M^r Spencer return'd.

The Board have had frequent Consultation about the ensuing Assembly being the first within the Colony, and likewise in dividing the same into proper Districts, and as the Inhabitants are generally unacquainted with the Method of proceeding therein, they have thought it their Duty to give them such a Knowledge of it, that the good Ends propos'd thereby may not be mistaken.

Saturday the 15th Day of December 1750

M' Demetre Coxswain of the Scout Boat, being in Town loading with Provisions for the Detachments at the Southward, was order'd to take an Officer appointed, to precide at the Elections and return the Deputys for the Districts of Darian and Midway River; likewise the Secretary was desir'd to inclose the Writ to M' Fraser of Augusta, to deliver to an Officer there to return two Deputys for that District; also the Writ to M' Young Constable to return four Deputys for this Town was given to him

[Fragment, not bound in but placed at the end of Vol. 34 and marked as having been removed from Plantations General 57]

PROCEEDINGS of the President and Assistants in Council assembled for the Colony of Georgia from the 30th Day of April 1752 exclusive To the 24th Day of June inclusive

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Monday the 11th Day of May 1752.

The 26th September 1750 Mr Jonathan Bryan petitioned the Board for Five Hundred Acres of Land for his Son Jonathan on Hutchinson's Island in Savannah River, as appears by a Minute of the said Date, but as He then said, He did not immediately intend to settle the said Land, the Board at that Time thought proper to defer giving him any positive Answer, 'till they saw how far, He fulfilled his Engagement in cultivating the Tract then granted to himself, and also they chose to inform the Trustees thereof— Mr Bryan now renew[ed] his Petition for the said Land, which He promised forthwith to settle and improve— The Board having had evident Proofs of Mr Bryan's Intentions to reside in and lay out his Strength in the Colony, readily granted Five hundred Acres of Land to his Son Jonathan Bryan on the East End of the Island before described—

M^r Pickering Robinson applyed to the Board to have the Five Hundred Acres of Land granted by the Trustees to M^r William Robinson laid out on Hutchinson's Island adjoining West to Lands granted to M^r Jonathan Bryan Junior, which the Board ordered the Surveyor to lay out.

Mr Patrick Graham applyed to the Board for Five Hundred 24 or-vol 6

Acres of Land on the West End of Argyle Island in Savannah River for his Brother David Graham, which He promised to improve in his Behalf— The Board granted to the said David Graham Five Hundred Acres of Land at the Place beforementioned—

Tuesday the 12th Day of May 1752.

Captain Mark Carr sent in the following Letter to the Board "Gentlemen

"In the beginning of the Year 1739 Gen¹¹ Oglethorpe put me "in Possession of Five Hundred Acres of Land on the Main to "the South of Frederica call'd the Hermitage, and in the Year "following a Tract of the like Quantity to my second Son Thom-"as call'd Carrsfield, on both of which I made very considerable "Improvements at a large Expence, but in the Year 1740 while "I was in Virginia on His Majesty's Service my whole Improve-"ments with my Stock was destroyed by the Spanish Indians "and several of my People cutt off, and by a moderate computa-"tion my Loss was Seven Hund and Fifty Pds soon after my re-

"turn from Virginia, the Gen" not thinking me safe there, grant"ed me an Island to the South of my former Settlement web I
"call'd Blyth, wherein I likewise built two Brick, wtb several Out
"Houses, as well as made very large Improvements in Cultiva"tion, but by the withdrawing of the Regimt these Improvements
"not only became invaluable, but I was exposed and it became
"dangerous, for me and my Servants to remain upon it, and con"sequently my Money and Time was in a great Measure sunk.

"This obliged me to remove into a less exposed Neighbour"hood & I was advised to fix on Midway River where you was
"pleased to grant my Son Thomas Five hundred Acres of Land
"& also another Tract of the like Quantity to me which was
"granted to, but resigned by Charles Ratcliff

"On these Lands, I have made larger Improvements than any "Person in the Neighbourhood, but to my great disappointment "two thirds (as the Surveyor can inform you) proves unfit for

"any Manner of Cultivation and must soon want Land to Plant, "unless I can gett an Addition

"Therefore I request you will grant my Son William who is "now near twenty one Years of age, five hundred Acres of Land "on the North side of Newport River about four Miles So: "West on the same Neck where I am setled, and likewise that "you would allow me to exchange the Tract of Land laid out for "Lieut Archibald Don on Midway River weh I have made appear "to you I purchased from him, for the like Quantity on Newport "River adjoining the same

"Gentlemen as I presume that no Person that ever was in Geor"gia has given better prooff of their Zeale and Industry to im"prove the Colony than I have done I need not assure you that
"I shall continue in it, and your obliging me with my request, I
"hope will enable me to retrieve the uncommon Losses I have
"sustained, which has been much more than I can mention or
"chooses to trouble you with, as it's a trueth well known to you—
"I am

"Gentlemen

"Your very obedt Humbi Servt

"Savannah May vo 12th 1752 "(Sign'd) MARK CARR

"P. S. I lay no Claim to the Lands formerly grant-"ed to me or my Son at the Hermitage, Carrsfield "or Blyth, w^{ch} I resign (to remove to where I have "requested) notwithstanding my Improvements "thereon

"To the Honble the President and Assistants "in Council"

The Board were very sensible, that Capt Carr had met with many very great Losses, and that his Industry in Improvements, both in Buildings and Cultivation of Lands had not been outdone by any; therefore they thought his Request reasonable, and granted to his Son William Carr Five Hundred Acres of Land on the North side of Newport River, and likewise allowed him to change the like Quantity of Land formerly laid out for Lieutenant Archibald Don on Midway River which He purchased

of the said Don for a Tract of the same Quantity on Newport River adjoining to those granted to his Son William

Mr James Habersham applyed to the Board for Five Hundred Acres of Land for his Son James adjoining to Lands formerly granted to him on the North Branche of Little Ogeechee River, which He requested might be laid out in two different Spotts, as the whole could not be laid out contiguous, without at least having one half unfit for any Manner of Culture, namely Three Hundred Acres adjoining on the West of his said Lands, and on all other Sides by vacant Lands, and Two Hundred Acres adjoining his North Line on the West of Lands granted to Capt Noble Jones, and on the other Sides by vacant Lands— The Board accordingly granted to the said James Habersham Junior Five Hundred Acres of Land to be laid out as before described.

Mr Francis Harris applyed to the Board for Five Hundred Acres of Land for his Brother Thomas Harris contiguous to Lands formerly laid out for him on the North Branch of little Ogechee River, namely Two Hundred Acres bounding on the West by his Lands, South by Lands granted to Henry Parker Esq Esq East by Lands granted to Mr William Spencer and North by vacant Lands, and Three Hundred Acres bounding on the South by his Lands, West by Lands granted to Cap Noble Jones North by Lands granted to Mr Noble Wimberley Jones, and East by vacant Lands, which He promised to improve— The Board therefore granted to the said Thomas Harris Five Hundred Acres of Land to be laid out as before mentioned—

James Finley and Daniel Martyn late Soldiers in General Oglethorpe's Regiment had Fifty Acres of Land each granted them adjoining South to John Rincks Lands of Acton, the 16th Day of December 1749, which they now represented to be unfit for their Use, and desired Fifty Acres of Land each might be laid out, bounding South by Lands granted to M^r Noble Wimberley Jones, East by this Township Lands, and on the other Sides by vacant Lands in lieu of those Lands granted them the said 16th December 1749, which they surrendered— The Board allowed their Request

Mr Pickering Robinson acquainted the Board, that He had

conversed with Mr Joseph Ottolenghi about the Silk-Culture, and especially the reeling part, and apprehended He was Master of the Art, and believed, if He wou'd undertake the Care of the Reelers in particular, He wou'd be able to amend them in many material Points, which they much wanted, and at the same Time, He wou'd ease him of a Fatigue (by sharing the Business) He was no Ways able to undergoe; therefore desired the Board, to request the said Mr Ottolenghi to undertake the Management of this very necessary Branch, and that He might be rewarded according as they found He deserved— The Board accordingly proposed the Thing to Mr Ottolenghi, which He promised to execute faithfully and to the best of his Knowledge—

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Tuesday the 2^d Day of June 1752.

Mr John Deveaux late of South Carolina, petitioned the Board for Five Hundred Acres of Land on the West Side of the North Branch of little Ogechee River, bounded on the North by Mr James Habersham's Lands, East by the said Branch, South of Mr James Deveaux's Lands, setting forth, that He had been some Months setled on the said Lands with the Family and Negroes—The Board believed, that He deserved his Request, therefore granted him Five Hundred Acres of Land as before described—

M' Benedict Bourquin, who is settled upon a Tract of Two Hundred Acres of Land on the South Branch of little Ogechee River, granted to him as appears by a Minute of this Board the 27th Day of September 1750, renewed his request for Three Hundred Acres adjoining the said Lands, which was reserved, as appears by the aforesaid Minute, to be given to him, if He should

appear deserving of it— The Board being well satisfyed of his Industry and Diligence granted his Request.

Mr Phillip Delegal Junr petitioned the Board in Behalf of his Father Capt Phillip Delegal for Five Hundred Acres of Land on the South Branch of little Ogechee River, adjoining West of Lands granted to him the said Phillip Junr and Mr James Deveaux, South partly by Mr Benedict Bourquin and all other Sides by vacant Lands— Mr Secretary Martyn by his Letter of the 21st January last having acquainted the Board, that the Honourable Trustees had granted the said Phillip Delegal Senr the like Quantity of Land; they ordered the Surveyor to lay out and put him in Possession of Five Hundred Acres agreable to the aforesaid Request

Wednesday the 6th Day of February 1754

The following Address was read and laid before the Board—
"To the Honble Patrick Graham Esqr President and to the rest
"of the Honble the Members of his Majesties Council in the Prov"ince of Georgia—

"The Humble Address of the subscribing Inhabitants of the "great Ogechee River, the little Ogechee and Parts adjacent. "We the Subscribers beg leave to recommend the following

"we the Subscribers beg leave to recommend the following "particulars to the Consideration of your Honours

1st "That a Quantity of Land upon the Elbow on the great "Ogechee River has long since been reserved for a public Town,

"as we presume for the convenience of the Southern Inhabitants "of this Province

- 2^d "That the said River and Inlet appears upon Examination "to be the best in the present Limits of Georgia, as his Majesty's "Ships of Warr from Twenty to fifty Guns may go over the Barr "of Osebaw into a safe Harbour, and the former (if not the lat-"ter) may be sure of lying secure from the Worms, as the River "is allways fresh at the said Elbow, and often so many Miles be-"low it—
- 3^d "That trading Vessels of four hundred Tons or upwards, "may go down loaded from the said Elbow
- 4th "That the Channel of the said River is very Streight and "has a sufficient Depth of Water, and there is not less than three "Fathom on the Barr at low Water
- 5th "That any Wind from the S. S. W. to the North (West-"erly) will lead Vessels down the River from the said Elbow, "and that in one Tide, or about four Hours they may be at Sea; "it being not more than fifteen or sixteen Miles over the Barr—
- 6th "That the Situation is convenient not only for the Inhab-"itants of the said Rivers (where from the goodness of the Lands, "great Numbers will be added to the present Settlers) but also "for the Inhabitants of the little Ogechee, Vernon River and the "Islands of Skedoway and Osebaw—
- 7th "That a public Town is greatly wanted for the Conven-"ience and Ease of the said People and the more Southern In-"habitants, the Town of Savannah being on the most Northern "Boundaries of the Province, and far Distant to and from a Mar-"ket, added to the Difficulty of the Narrows of Skidoway, and "the Loss of Time that must attend the Number of Tydes in go-"ing to the said Market of Savannah"
- 8th "That Numbers of People want to improve and settle in "some Town to the Southward of Savannah for the advancement "of their own Fortunes and Convenience of the Inhabitants, and "that if the said Town at the Elbow was laid out many of your "Subscribers would engage in a reasonable Time to Build and "become Inhabitants of the same
 - 9th "That at present the fixing a Town to the Southward of

"Ogechee can be no other Way Effected, unless the Inhabitants "will become Purchasers from private hands to carry such a "needfull Work into Execution"

10thly "That more than one public Town will certainly be use-"full and Necessary for the Inhabitants of so Extensive a Prov-"ince as Georgia in all probability will become

"attended with many obvious Inconveniences, and in the Inter-"mediate Space We believe upon Examination, no Situation will "be found more if so proper, or intended in every respect with "equal Advantages

"We therefore hope the Merrits of this Address will be con-"sidered by the President and Council

"We further beg leave to observe to your Honours, that tho' we "are greatly interested in the Request of this Address, We would "be far from preferring our private Welfare intirely, if it does into appear upon Mature Consideration to have a Tendency in "promoting the Prosperity of the Province in Generall"

We are your Hon most Obed Servants "James Mackay, Elisha Butler, Sam' New, Josh Butler, Rd Cox, Will Butler, Richard Cooper, John Mearn, Charles Marian, Benjamin Wilson, Joseph Summers, William Wilson, John Wilson, Seth Place, John Deveaux, James Miller, John Mackay, James Dixse, Alexander Sutherland + his Mark, Ph: Delegal Jun^r, George Delegal, John Farmur, Henry Bourquin, Thomas Wilson, Martin Fenton, Peter Young, John Harn, Maurice Dullea, Char: West, Willoughby West, Tho Butler, Alex Rose, Robert Houstoun, David Black X his Mark, Stephen Williams, Lewis Motteair, David Dicks, John Mathis + his Mark, Alex Wylly, Matt: Roche, John Graham, Will^m Elliott Jun^r Jam^s Edw^d Powell, George Cuthbert, Joseph Phillips"

After the Board had maturely considered the Contents of the aforesaid Address, they were of Opinion, that the Reasons of-

Read a Memorial of sundry Persons, Traders among the Creek and Chickesaw Indians, setting forth, that they thought it their Duty to represent to this Board the dangerous Attempts of the Spaniards to settle, fortify and Garrison the Appalachee Fields, which Lands the English have an undoubted Right to, by Conquest; that if the Spaniards should possess themselves of those Lands, they wou'd not only lessen our Trade and Influence in the Creek-Nation, but in Time of War wou'd have it in their Power to cut of all Communication between this and the neigh-

bouring Provinces and the said Nation—Likewise 'that the Chickesaw Nation are in great Danger of being exterpated by the French, they having lately been twice attack'd by them joined with large Numbers of Indians in their Interest; and that they wou'd be unable to withstand a third Attack (which was soon expected) unless supported with Arms and Ammunition; that

should the French drive them out of their Country, all Hopes of regaining our Trade and Influence among them wou'd be at an End, besides loosing more than two hundred Miles of his Majesty's Territory, and exposing the Creeks (the Chickesaws laying between them and the French) to the Arms of the French, who wou'd have it in their Power soon to destroy, or Force them into their Interest.

The Board after maturely considering the Contents of the aforesaid Memorial, and comparing it with other Advices, they had lately received from the Traders in the Creek and Chickesaw Nations, had too much Reason to believe that both the Spaniards and French had practised and continued to Use every Art to draw them respectively over to their Interest— Mr George Galphin a considerable Trader in the Cowetas (the principal Town of the lower Creeks) wrote a Letter to the Board dated at the Cowetas the 10th May last, that the Captain of Horse at Augustine had sent Word to the Head Man there, that he wou'd see him next Month, and wou'd bring a great many Presents with him to distribute among the Indians; that he understood by some Indians late from Augustine, that his design was to purchase the Apalachee Old Fields, and that Preparations were making by the Spaniards to settle them; that he had had some Talk with the Indians about it, who had promised, that they should not be setled in Peace, but he could not answer how far the promised Presents might prevail; that he intended to come down to transact his Business, but should stay 'till the latter End of June to see if the Captain aforesaid should come; that upon the whole, should the Spaniards carry their Point, which he should do all in his Power to prevent, it wou'd be of very bad Consequence to the English— This Account the Board have had confirmed by other Advices from the Traders, and they thought it their indispensable Duty (without delay) to use every prudent Means to continue and support the good Understanding at present subsisting between the English and the Creek and Chickesaw Indians, and at the same Time to prevent (as far as they could) their falling in with Designs, which (if effected) must prove extremely detrimental to the Peace and Prosperity of this and the neighbouring Prov-29 c r-vol 6

inces— To which End, they were of Opinion, that it would be highly necessary for the present to purchase a few Presents, to send to the Chickesaws and lower Creeks, especially as the Traders offered to carry them to the respective Nations without any Expence to the Publick, and accordingly five hundred Pounds of Powder, one Thousand Pounds of Ball, a few Flints, Knives and a little Paint, which was what the Traders advised to, was ordered to be got and immediately to be sent to Augusta to be carried from thence to the Chickesaw Indians, who are supposed to be in the most want to be delivered to the Head Men there, with the following Letter, or (as the Indians call it) Talk—

"To our Friends and loving Brothers the Chickesaws.

"We having understood, that you our good Friends, have been "much harrassed by your Enemies, and that you have bravely "maintained your Ground and defended your Selves (as you have "always done) against them, and We being desirous to shew "you, that we still continue your firm Friends, we have sent you "as a token of our Love, by your Traders Ten Bags of Powder "and twenty Bags of Bullets and some Paint, Flints and Knives "to be distributed among you, by Jeremiah Courtong and John "Brown, in order to enable you to save your Selves, Wives and "Children from being made Slaves by your Enemies— And we "desire you will acquaint Us by all Opportunities of your Wel-"fare, and you may at at all Times depend on our Friendship—

"We wish you well, and conclude your loving Friends and "Brothers

"(Sign'd) PATRICK GRAHAM

The Presents thought necessary to be sent to the Coweta Town in the lower Creeks, is the same Quantity of Powder and Ball, Flints Knives and Paint as to the Chickesaws, with an Addition of some few Strouds &c* for the Head Men in particular, which, as the Merchants here cannot at present supply, are ordered to

be got from Charlestown— The Board can no other Way defray this Expense, but by their Bills on M^r Benjamin Martyn in London, which they make no doubt of being approved off.

At a Meeting of the President and Assistants in Council assembled for the Colony of Georgia on Thursday the 29th Day of August 1754

M^r Daniel Demetre Coxswain of the Prince George Scout Boat, who was ordered (see Minute of the 23^d Day of last Month) to take a Cruize on the Southern Frontiers of this Province, reported, that he had cruized within Twelve Miles of Augustine, but could make no Discoveries of any Kind.

The Board have lately learnt from some Deserters from Augustine, that there was a considerable Reinforcement of Men arrived there from Cuba sometime agoe, and they are of Opinion, that their Design to settle the Appalachean Fields, which is known to be an extreme Rich and Fertile Soil, and a pass of the greatest Importance— The Deserters confirmed the Account of the Spaniards having Rebuilt & fortifyed Diego and Picolate Forts on S^t Johns River, and likewise another Fort called Moosa near Augustine, which were taken and demolished by General Oglethorpe in the late War.

The Accounts of the estimated and other public Expences of the Colony from the 24th June 1753 to the 24th June last amounting to Eight Hundred and Twenty pounds twelve Shillings and Six pence farthing Sterling being compleated, they were laid before the Board, and to discharge the same, Messieurs Patrick Graham and James Habersham drew Sundry Bills of Exchange of this Date payable at Sixty Days Sight on Benjamin Martyn Esq^r for the aforesaid Sum of £820.. 12.. 6½ Sterling to the fol-

lowing Persons or their Order of which the Board advited said
